THE ASCENSION OF FREEDOM GIANTS PUBLICATION

This publication entails a summary of most the proceedings that have taken place under the Pan-African school of **AFRICAN VOICES INTERNATIONAL** in the Freedom Year 2024. It is very important that Freedom Giants go over all the lectures and teachings, to remain resolute at all times as Freedom Giants in the quest of promoting Freedom in Africa.

We are made for a purpose and born for a reason and it is very quintessential, that we never give in but we remain as Radical Freedom Giants for the world ahead and towards transforming Africa into the African Anatomy, we want and the world into the Global Anatomy, we want. We are born for a time like this. Let us not settle for less. Let us transform our Political Anatomies for the change we want. Let us continue to revolutionise the Global Anatomy, transform the Global Anatomy and Change the Global Anatomy Let us make it happen.

The Global Anatomy of **AFRICAN VOICES INTERNATIONAL** also express our condolences to the family of Chief Dr. Zablong Zakaria. FREEDOM YEAR 2024, YEAR OF

ASCENDANCY

The **GLOBAL FREEDOM BOARD** of **AFRICAN VOICES INTERNATIONAL** says Hongera to all Freedom Giants for being Metamorphosed into the New Freedom Year 2024. We were indeed Proactive. We stood Tall through the thick and thin and here we are. We are a Transformed Anatomy!!! In this Freedom Year, we are being Metamorphosed into higher heights. We are accelerating tremendously on all fronts as a Transformed Global Anatomy. The Global Freedom Board of **AFRICAN VOICES INTERNATIONAL** welcomes you into the 2024 Freedom Year as The **YEAR**

OF ASCENDANCY. ASCENDANCY is a form of Amelioration which involves a transcendental rise in all systems of our functioning for the structural order, of the Global Anatomy, we want as Freedom Giants. These are the four tenets of Amelioration in our ASCENDANCY, we are going to see in our Freedom Year; THE **YEAR OF ASCENDANCY**

In our **YEAR OF ASCENDANCY**, we are placing much emphasis on the roots of Africa, The heritage of Africa, The Resplendency of African Freedom Giants and the promotion of our rich African Culture. We will celebrate the rich nature of The African Embroidery, our Heritage and the need for the moulding of all sundry from Africa, with the Pan-African Heritage. Below are the shifts we shall see in our Freedom Year.

- **CENTRALISATION OF THE AFRICAN ANATOMY**

ENSURING A STRUCTURED GLOBAL ANATOMY

AFRICAN VOICES INTERNATIONAL

In our YEAR OF ASCENDANCY, we will see the restoration in the dignity of Africa's pride as a single state, a single unified Africa where we have our established pride of the African Identity, we have always lived in, Pre-Colonisation. We shall see a reunified Africa, a strengthened Africa and a celebrated new regionalised Africa; The Freedom-Africa.

- **RESPLENDENCY OF FREEDOM GIANTS**

This is the Year for The African Resplendence. Freedom Giants are going to walk in Resplendency due to the enormity of the changes and sovereignty, we will thrive in. No altruistic scheme/s will be able to thrive in any way against us. We have fought the battle Proactively and we shall be seen Resplendent in our YEAR OF ASCENDANCY. Freedom Giants are going to Break every chain that seeks to keep the Freedom, we seek hidden. This is the time for The African Anatomy's Discovery; The Discovery of our wealth, our identity and what we have roared and fought for.

- **POLITICAL AND DEMOCRATIC STABILITY (ANATOMICAL POLITICAL SYMBIOSIS)**

The true Sovereignty of Africa is coming to be revealed because of the ejection of all Neo-Colonial chains from The Blood of The African Anatomy. We are going to rule ourselves with our Agenda towards building and strengthening our culture, our continental heritage of a One Africa and the strengthening of our correlation as Freedom Giants with a common goal of Promoting Democratic and Political Freedom everywhere for all Political Nuisance to end permanently.

- **AFRICAN RENAISSANCE**

This is The Year for The Re-Discovery of the Real Heritage of Freedom Giants. The Heritage and Royalty of Freedom Giants have been hidden for long. But this is the Year for the opening and stabilisation of what belongs to Freedom Giants. Freedom Giants are going to thrive as Kings and Queens in the Freedom Journey without any obstacles. This is the Year for The Re-Awakening of the African Royalty. This the year for the re-emergence of the capabilities in The Army of The African Anatomy. We shall thrive Phenomenally as we break all chains as Freedom Giants.

MODUS OPERANDI

The Modus Operandi in our YEAR OF ASCENDANCY is for us to **BE RADICAL**. As Freedom Giants, we are breaking all chains. We are not succumbing to any form of nuisance. We are fighting for the restored order of the Global Anatomy, we want. This is our time and we shall make it happen, once we are Radical.

As Freedom Giants, we must know we are in a battle. This is not a joke. This is a battle and we must be aware we are even in a fight before we box on.

Haile Selassie was crowned King of the Ethiopian Empire on 27th October 1928 by Empress Zewditu, who was a regent because Haile Selassie of the Ethiopian Anatomy destined to be a King was young, from 1916. Hence, Empress Zewditu was Regent since 1916. Empress Zewditu's position as regent made her the sole leader of the empire until when Emperor Haile Selassie was crowned as King in 1928.

Post Emperor Haile's enstoolment, there were two sides in the family. A side was for Haile Selassie and the other side for Zewditu. Empress Zewditu's husband looked at a future

where Empress Zewditu will remain the Empress so that he will automatically be the Emperor. There was a battle.

As Freedom Giants, we must know the battle we are in and never settle for less. If we have to take a lonely side to get to the top, we must do so. Relentlessly be RADICAL!!!

This is our **YEAR OF ASCENDANCY**. We are going to have a transcendental rise in all areas of our functioning for The Freedom Year. There is going to be a massive Breakthrough in our lives. We are breaking all barriers. We are revealing all truths. We are exposing all barriers. We are winning. We are going to be Resplendent. We are going to be at ease. But if this is to happen, then we must Break the Chains!!!

No one is going to win if he or she does not break the chains. The kind of Breakthrough we are going to have is a Transcendental win and if that is to happen, we must break the chains!! As Freedom Giants, it is either we break the chains, or we succumb to be the underdogs. **BREAK THE CHAINS!** You are not an underdog. You are more than you know yourself to be. You are a Revolutionist. We are not

functioning normally. We are ejecting all those functioning in stupidity out. We are setting the systems right. That is not a joke. And if that is to happen, then we must eject all the laid down barriers that inhibit the flow of Freedom! We have come a long way to where we are now. We dare not allow ourselves to be despised in a world where the systems are governed by unscrupulous leaders. We are the Changemakers. The time is now!

Be the standard. Go by your words. The fact is that you are going to be tested and you must not succumb to any form of stupidity. You are a barrier breaker. You are soo phenomenal. This is your time. Don't go outside the reality of who you are. Don't mix the reality. The systems have been corrupted. That is not the reality we seek for. The reality we seek for is to ensure that our Revolution becomes the new order for the Amelioration we want to see. You are a Freedom Giant. Yes, you are. You are made of more! Break the chains! Renovate! Change! Be conscientious and make sure you are not joked with.

As Freedom Giants, our Freedom lies within what we profess we are. We dare nor succumb to stupidity. A lot of people are going to play with your mind. Do not let them. You are going to be "fooled" with. Challenge the systems. This is your time! You have no other time! Break the Chains!!! You are a Freedom Giant. Ascend. Don't joke with this. We must be Radical to ensure the kind of changes, we want to see. We must implement new and innovative ways for the kind of changes, we want to see. Here we are. We must not in any way joke with the light.

Chains keep you enslaved and if you don't ascend, you will never be able to satisfy your demands. Chains loosen you. As Freedom Giants, we must never be in chains. We must ascend and this can only happen if we are Radical. Get out of those chains!!! Chains limit the scope of your Freedom. Never ever settle for less. As far as there is elevation, rise up to the highest pedigree. Never ever settle where you are. If you don't break the chains, you will be entangled the rest of your life. You are made for more. Don't settle! Never settle for good. Keep on ascending. Be Radical for the Transcendental change you want to see. Function! Rise! Work! This is your time!

Rise up! Remove every debilitating threat out of your life that seeks to keep you in chains!!! Break the barriers! This is your time! Rise up! Rise up! You have come to Ascend! Pay no attention to any gimmicks! Don't allow hypocrites dressed in suits to play with your mind. You are a model of change! Yes, you are!!!

This is your time! There is no other time! This is your time! Work it out! You are not late! Work it out! You are a Freedom Giant, remember! Freedom Giants are Pacesetters, Masterpieces, Changemakers, Gamechangers, Revolutionists and Radicalists! Create the way! Terraform the future! Pave the way!!! You are a door opener! Wait for no other time! Make it happen! With the little time you have, you can make it happen! There is room for you! Be happy! Smile! You are a new Born King/Queen! Make it happen. Revolutionize the Global Anatomy.

Freedom Giants did not come here just to exist. We did not just come to display our beautiful and handsome faces. We came to work! We came to function! We came to liberate the world! We came to ensure a Global Anatomy! We are made for more! They are monitoring us! They are evaluating us! But in their stupid eyes, we shall ascend! Wherever you are, Ascend! We did not take all these sacrifices to Accelerate at a decreasing rate! We came for a Transcendental Rise! We are Freedom Giants!!! Rise up!!! This is our time!!!! Break the Chains! Be Radical!!!! Break the Chains!!!

Break the Chains. It is your choice to win. However, you are mandated to win. Do not be moving in mediocrity. Dare to make mistakes as you stand for Excellence than to be thriving in mediocrity. As Patrice Lumumba said, " The day will come when history will speak. Africa will write its own history. It will be one of Glory and Dignity." Refuse to walk in mediocrity. You are on a Freedom Journey. This is a life journey. Don't settle for less. Break the Chains!!!

As Freedom Giants, we have come to a mainstream where we have to overtake. We did not come to settle for stupidity. This is not the time to be gallivanting around. This is the time to be Radical. Be on purpose. Your Breakthrough is around. Don't mess up with your destiny. This is the time for The African Man and Woman who truly seeks to genuinely make an impact. Life is all about truth and not about competition. We all have different sides of the game. Comparison does not mean success. Walk in your own path and play your onus well. Your success does not come over thriving over anybody. That's stupidity. Break the Chains and work hard!

As Freedom Giants, we have to set our priorities right. We have to understand what makes our main priority and give in our all towards completing, polishing, expanding furnishing, adding value and waxing the depths of our policy. We are Freedom Giants and not slave adherents. Let us not settle for less. We came to change things. Let us defend the Revolution and not kill ourselves. The right thing is what can only be done and nothing else.

As Freedom Giants, we must be aware of the schemes of the opposition to distract us. They will try every venture to put us down. They will keep silent when they have to raise their voices and raise their voices when they have to be maturely silent. We need not to wait for any "thumbs up." Let us be Proactive and fight our way forward. At the end, we will celebrate whether we won or lost. And we can't celebrate if we lose and that's what the Opposition is secretly trying to do.

We as Freedom Giants must learn to ignore certain antics of oppositions and pursue our ambitions with zeal and with purpose. We are made for more. Let us not give up! This is our time! Let us make it happen! We are phenomenal! Break the Chains! You are made for here! We are at the right place at the right time! Be impacted! The world is full of selfishness, corruption and jealousy. Let us come out and build the Global Anatomy, we want.

They may have tied you to a corner. They may have planned or wished your downfall but like air, you will rise. You will rise before their eyes. Don't lose hope. Don't be loosened. A battle is a contention for the ownership of something. A battle is a struggle for the veracity of something. As Freedom Giants, what are we contending for? Have our paths been trampled on? Has our life been taken captive of? You must fight the Battle. This is your time. Don't allow anyone to bring you down. Break the ordinary. Don't let anyone delimit you. You are going somewhere. You are moving somewhere. You must believe in yourself. You are going somewhere. You are truly going somewhere. Don't change your mind to go down. It can only get better. Be clear that everything will work out. Set your brains right and fight the battle. You are the one responsible for your generation. Don't linger. The mantle is on you. Make it happen.

As Freedom Giants, there are certain questions we must ask ourselves at all times when we look at the society around us. Is the society the way it ought to be? Is this how I am supposed

to live? Is the nation suitable for decent living? If things are not right, then you must Stand Tall and fight for Freedom. Fighting for Freedom may not go down well in the ears of others. But as Freedom Giants, that's what we are made for. To fight the Battle!!!

Wherever you are, there is a battle for you to fight. You did not just come to walk down the streets of Planet Earth for Survival. No! You came to fight a battle; to change the systems. To rearrange the systems. To correct the anomalies. Stand Tall, rise and Fight the Battle. Break the Chains. Get in line with your dreams and remain focused. If we want The African Anatomy to ascend, then we must fight the Battle. Samora Machel once said that Unity and Victory are synonymous. We cannot win this battle if we are at loggerheads with each other. We must Stand Tall and confront every issue that seeks to defy us. Be Radical!!! This is your **YEAR OF ASCENDANCY!!!**

As Freedom Giants, we dare not allow what has been taken away from us to leave. We dare not allow anything that is ours to be taken captive of. We must fight the Battle to take hold of what belongs to us. We must sacrifice our lives to win the battle. We must sacrifice our lives to rescue what is ours.

The African Anatomy must never succumb to foolishness. We must not just allow things to go. We must not shut our mouths. We must not allow things to dissipate away. We must fight for our sovereignty. We must go the last breath just to see this happen.

This is our time. This is our YEAR. If we walk collectively, we shall see the results. Nature cannot be cheated. The clock is ticking and everything will show at the right time by itself. **FIGHT THE BATTLE!!!**

There is a reward for you if you truly fight the Battle. Don't let it go. Maintain your focus. Don't keep silent. There may be arrows shot against you but if you are Radical, the arrows will return back to those who shot them back at you and you will reclaim everything that is yours. When it is time for Justice to happen, wait for no other time. This is your time. Wait for no other time! Transcend! Laugh out loud! You have won the battle!

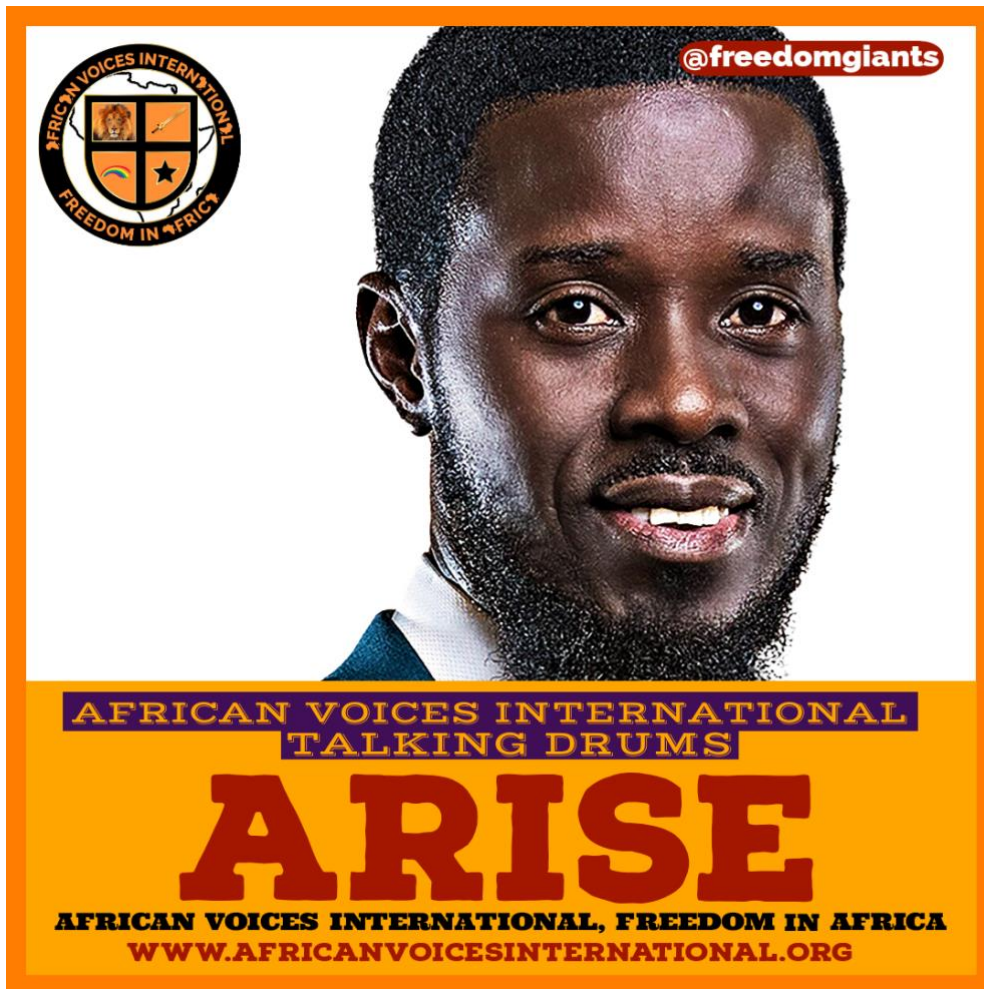

Don't wait to be attacked before you realise there's a battle. Don't wait to be betrayed before you realise there is a battle. Fight for your Sovereignty. Fight for Freedom! Where are you now? What are you doing to claim Freedom? Think about it! The world is not going to be there for you all the time. You must make it by yourself. Rather sacrifice to get to the top than fidget around to look for empathy. It may not be a physical war but there's a war ongoing. Redeem yourself. Fight the Battle. Many are those who watch to see to it that we keep on circulating round our destinies, without even catching a glimpse of it. Such people must never be tolerated! They must visit Sheol. Arise out of the ashes. You are a Freedom Giant. Walk clearly. Be straight forward.

Don't be undermined. Fight for what belongs to you. Keep your path. Walk in dignity. Don't go back. Accelerate. This is your time! You shall make it happen. Arise. Keep on arising. It may not be easy. Things may be different, but you have the strength to arise. Arise. Don't give in. You shall make it. Arise. This is your time. You need not be afraid. You need not be scared. Shine. All things are working for your good. You are getting there. Be resolute about that. As Freedom Giants, we must know we are going somewhere. We are ascending into a new era that has its own trials. Nevertheless, we must never decide to stay behind. We must never decide to be stagnant. We must fight ahead. We must arise to where we must be. We dare not arise and, in the course of the journey, start to murmur. We are going somewhere. We must look at where we have come from and keep on moving forward. We are on a journey. Let us arise. This is our time!

Arise!!! You can do it. Yes, you can. You have what it takes. Let nothing bring you down. You can fight the storms. Yes, you can break the chains!!! Yes, you are a Freedom Giant. Never ever give up on yourself. Never ever give in. Everything is possible. Trust the process and be genuine, and everything will fall in place. There may be haters, backbiters and "friends turned enemies", but as you remain genuine, nature will fight for you. Be Radical.

You did not come to settle in stagnation. No! The future is bright! You did not come to settle for less. No! There is more ahead of you! The future is very bright! Arise! Dream as much as you can! The future is full of realities of freedom, for Freedom Giants who are ready to take up the spaces and illuminate the world. We are building the right people in each country for the National Anatomies we want! We are building the African Anatomy, we want! We are building the Global Anatomy we want! Join the army! Don't settle for less. As Freedom Giants, we must arise. We must not be afraid to showcase our identity. There is a deliberate intention by a lot to oppose the course of Freedom, which we fight for. We are unique. We are made for more. We will fight for this course.

We must identify ourselves and push strong because the battle is alive. A lot of our brothers and sisters have been trapped. We dare not be mute. We dare not act mute.

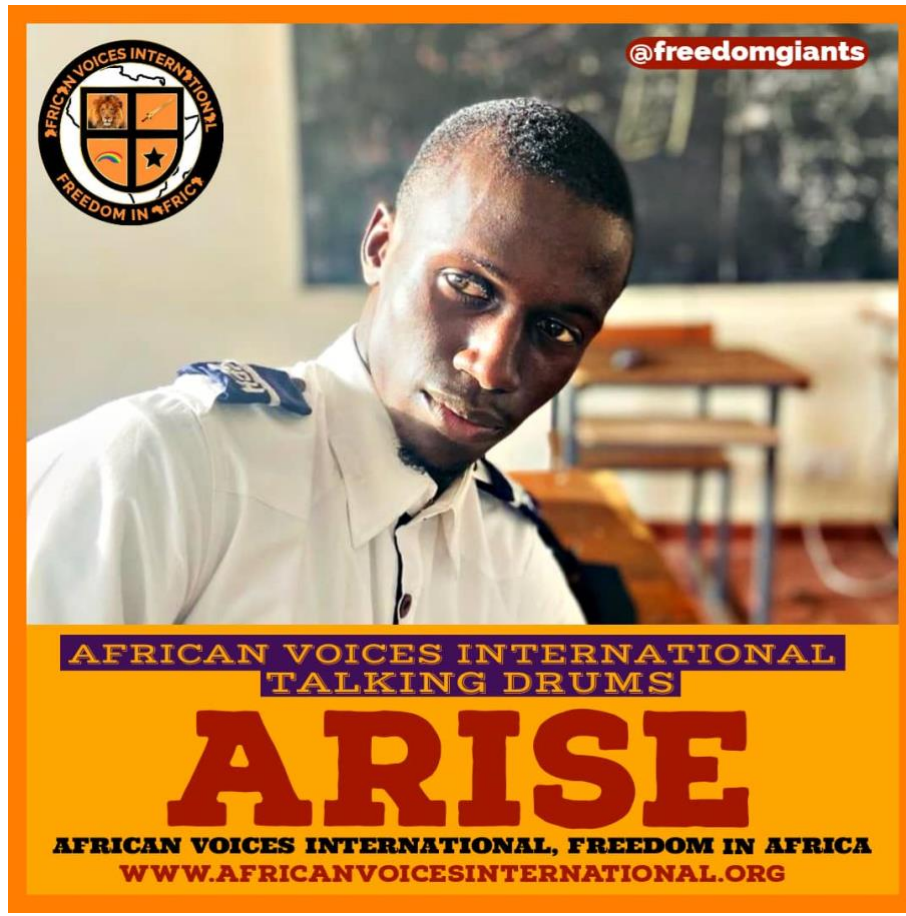

The time for us to arise is now! No one who sacrifices his life for something goes unrecognised. We are in here for an agenda. Let us not loosen ourselves. We are on an ultimate path. As Freedom Giants, we cannot lay idle. We cannot watch things being

This is the time.

This is the time, Freedom Giants. It is now or never. We cannot lose our way. We must arise and give in our all just to see our dreams come true. There is no going back! Let us Revolutionize the Global Anatomy. Let us Transform the Global Anatomy. Let us change the Global Anatomy. Let us make it happen.

To be divergent means to take distinct or different measures towards attaining your goal for excellent results. It means refusing to succumb to the traditional ways of doing things and being creative in your approach to come out with more excellent results.

The world has been filled with so much mediocrity due to the traditional ways of doing things. The world particularly Africa is at a halt in development, because of the dependency mindset, average and mediocre ways of doing things. Africans get poor results because of our approach. It is time for us to develop divergent approaches towards the New Africa, we want. It is time for us to adopt this mode of Radicality for the Regionalised Africa we want.

As Freedom Giants, we are born for a purpose. We are born to demystify certain mysteries. We are born to turn around certain mysteries. We are born for a Revolution. We are dangerous. At the same time, we live in a dangerous world and it is our onus to make the world a better place by being divergent to escape the traps of our rivals in this dangerous world as we attain our goals in Excellence.

The systems are so corrupt. We have been betrayed. There have been traps placed ahead of us. There are pits created in our midst. As Freedom Giants, how can we conquer? We have to be Radical and by so doing, we have to be divergent. We can't keep mute. No! We can't. We can never keep mute! Not at all.

We have to be the difference. We are Sovereign and therefore we do not correlate with the normal. We show forth the path, that others must walk in. We must walk with purpose. We just don't correlate with anything! No! We must live for a purpose. Our lives must be sacrificed for a purpose. We must live for a reason. We must give in our all for the course of Freedom and that's how we will see indeed, Freedom prevailing.

We cannot cause a revolution if we are just anyhow. No! Our lives must be centered on a course. Freedom in its own self has its own boundaries. We must reason and understand who we are and keep on walking in that Amelioration.

There are thorns in the journey. There are traps on the path. There are detractors in the journey. There are backbiters in the journey. There are betrayals on the journey. It is for this reason that we have to proactively ensure that we are very divergent to be able to outsmart our detractors. We dare not settle for less, as Freedom Giants. This is **OUR YEAR OF ASCENDANCY** and we are meant to make it happen. There are people who schemes are to let you down. Their schemes are just to cause mayhem. Their schemes are just to find a way to bring you down, override you, make you flop, make you regret, make you mad and make you a failure. If you don't understand the systems we are in, you will always fail to live as a Freedom Giant. Don't fall. Don't be down. You are on your way to Success. are getting there. You are a winner! You have arrived! This is your time! Be Divergent so you don't fail. Be Divergent so you don't fall in their traps. Be Divergent so that they fall in the traps they created for you!!!

As Freedom Giants, we just don't take action. We must be able to recollect past incidents and take proactive choices towards the future. We do not just forget things. We must remember the experiences our great grandfathers and mothers went through during the slave trade era, the tribulations they went through, the challenges our continent has gone through and take the right decisions towards not falling in them, again.

We are Freedom Giants. Freedom Giants just don't make any decision. We think through. We just don't take a step. No, we look back. We are on an AMELIORATION journey and in our STRUCTURAL ANATOMISATION PROCESS, we must remember, where we have come from to be able to guide us on the path ahead in our Freedom Journey. Ascending refers the process of accelerating to a higher juncture in life. Ascension is a form of Amelioration. For Freedom Giants, ascension is a quintessential process in our lives. It is a

ENSURING A STRUCTURED GLOBAL ANATOMY

AFRICAN VOICES INTERNATIONAL

Must in the lives of every Freedom Giant. We must always ascend. We must always move forward. We must always progress at a progressing rate! We must never descend!

As Freedom Giants, we must always ascend. We cannot be where we were yesterday. We must progress. We must not act in how we were, yesterday. We must pick from yesterday and walk in the Amelioration. We must never delay our progress.

As Freedom Giants, we have to be radical to ascend. We must push to ascend. We must give in our all to ascend. We must be focused to ascend. We must understand who we are and walk in the level of altitude in strength we are supposed to walk in. We dare not compromise our strength or walk below our positions. We are Freedom Giants! Let us Ascend! This is the time. As Haile Selassie said when he was delivering his speech at the OAU conference, no memory of past injustice must prevent us from being focused on the more pressing business at hand. Ascend, Freedom Giants! Keep going. Keep moving forward. Never have it in your mind, that you are going to decelerate. Never look at societal issues and historical tendencies to adjudicate your life. You are a Freedom Giant. This is your time! Rise! Expand! There are strategic schemes to bring you down. There are many plans to let you down. Do not fall in that pit. There are many schemes to break you. Don't be caught unawares. Don't be trapped. Don't be limited. You are a Freedom Giant. Walk in the Freedom. You are born to win. Nothing can stop you. It may look like the doors are closed but keep pushing. Keep progressing. It shall work for you. Keep your focus. You are at where your gold is. Don't linger. Press on. This is your time. Fight for it and you shall ascend!!!

You are a Masterpiece. Don't correlate with anything. Don't just cooperate. Wear your crown. Don't cooperate with the normal. Be distinct. Break the Chains. You are phenomenal. You are unbreakable. You are unshakeable. You have already won. You have won the battle. You have broken through. This is your time. You have broken through. You have won. Your time is there. Don't settle for mediocrity. You are a Pacesetter.

You are on a narrow path. And that's the path for your Amelioration. You don't need to be part of the masses. You don't need to succumb with the masses. Just be yourself. There may be questions on how you will survive, but as a Freedom Giant, you will survive! Be conscious of that.

Till then, never relax!!!!

Ascend. Ascend. Things may have looked shaky, but with Freedom Giants, when we remain radical and fight for what belongs to us even in the midst of turbulences and questions, we ascend. Dare not be where you are. You are on a metamorphic journey.

Working in an environment that produces excellence does not mean you are settling for less. It only means you are polishing yourself to be a reflection of excellence. IN A JIFFY

When we say "in a jiffy," what do we mean? "In a jiffy" is an idiomatic expression which means immediately, very soon or within a very short moment.

As Freedom Giants, we must be conscientious that, every miracle we are looking for, will happen in a jiffy. We must be conscious of that. We must already know that everything we have fought for has already happened. We are yet to see it and it will happen in a jiffy. We have fought and roared. Nothing can break us down. We are like plants that grow from a seed. We germinate. We grow through a process that makes us develop into a seedling and from there, we begin photosynthesizing and providing self-energy for our growth.

Wherever you are as a Freedom Giant, know that everything will work out in a jiffy. As long as you are playing your role in the STRUCTURAL ANATOMISATION PROCESS, everything will work out in a jiffy.

ENSURING A STRUCTURED GLOBAL ANATOMY – A LEGAL PERSPECTIVE

Fellow Freedom Giants, Ladies and gentlemen, distinguished delegates of the continent, and custodians of our shared heritage,

We gather here today in the cradle of Africa's freedom, Accra—a city that holds within its soil the echoes of hope, resistance, and triumph. This land bore witness to the vision of giants, men

ENSURING A STRUCTURED GLOBAL ANATOMY

AFRICAN VOICES INTERNATIONAL

and women who dared to dream of an Africa unfettered and sovereign. Today, we take a step further; we dream not just for Africa but for a structured, equitable, and harmonious global anatomy—a world that is just in its laws, fair in its systems, and united in its pursuit of progress. But, my friends, dreaming is not enough. A vision without a structure is a mirage, and freedom without law is chaos. So, we must interrogate this global anatomy through a legal lens—sharpened by history, forged in Africa's struggle, and wielded with precision to ensure justice. I am reminded of Dr. Kwame Nkrumah's immortal words: "*Africa must unite.*" Not as an empty slogan or a lofty ideal, but as a rallying cry rooted in pragmatism, necessity, and, dare I say, *law*. For if Africa is to ascend to her rightful place in the global anatomy, we must sculpt her future with the tools of legality, sovereignty, and justice. This gathering — **The One Africa Freedom Dialogue** — is not just a meeting of minds; it is a testament to the spirit of Pan-Africanism, a spirit that refuses to be shackled by the boundaries imposed upon us by history. The world today is not a mere congregation of nations; it is a complex anatomy. Like the human body, every part must function harmoniously, each fulfilling its role within a structured global order. And yet, Africa, the cradle of humanity and the wellspring of civilization, has often been relegated to the margins of this anatomy. This is no accident—it is a design. But let me remind you: what is designed can be redesigned, and the time for Africa's renaissance is now!

The Challenge of Fragmentation

Our continent, so richly endowed, remains shackled by borders drawn in rooms we were never invited to. The Berlin Conference of 1884 was not just

ENSURING A STRUCTURED GLOBAL ANATOMY

AFRICAN VOICES INTERNATIONAL

a partition of land—it was a fragmentation of power. This fragmentation has left us vulnerable, not only to exploitation but also to marginalization in the global order.

The legal framework of the *Charter of the United Nations (1945)* speaks of sovereignty, equality, and self-determination. But where is our sovereignty when 54 fragmented voices struggle to speak as one? Where is our equality when our resources build economies that exclude us?

Every successful organism, whether it be a human body or a global system, requires structure. Structure is not merely order; it is the foundation of growth, innovation, and sustainability. Yet, the global structure we inhabit today is built on a skewed legal framework—one that was forged in the fires of imperialism, one that protects the strong while undermining the weak. How can a continent as vast and resource-rich as Africa find itself perpetually beholden to international systems that were not designed with her prosperity in mind? The Bretton Woods institutions, the UN Security Council, the World Trade Organization—these are the arteries and veins of the global anatomy, and yet Africa’s voice within these structures is but a whisper in a room of thunder.

The legal framework that underpins our global order has undoubtedly evolved, with institutions like the United Nations, the International Criminal Court, and various trade organizations aiming to create a more structured world. However, let us face reality: many of these frameworks, established in the aftermath of conflicts that did not involve Africa, do not fully reflect our perspectives or protect our interests.

For instance, while international trade agreements are intended to create opportunities, they often reinforce imbalances, favoring larger economies while smaller nations struggle to compete. Additionally, global environmental agreements often lack enforceability, creating an uneven field where industrialized nations contribute significantly to climate change while developing nations bear the brunt of its effects. These examples underline the reality that our current global anatomy is incomplete, often prioritizing certain regions, economic groups, and interests over others. These systems are not immutable. They are the constructs of human hands and, therefore, subject to the reforms of human will. The law, as the architect of order, must be our tool to ensure Africa is not merely a subject of these systems but a co-architect. The law, brothers and sisters, is not just an instrument of justice; it is the architecture of power. Those who write the laws determine the structure of

ENSURING A STRUCTURED GLOBAL ANATOMY

AFRICAN VOICES INTERNATIONAL

the world. We must therefore ask: who writes the rules? Who benefits from these rules? And who bears the burden of their enforcement?

Africa must rise to the challenge of redefining its relationship with the world by asserting its legal agency. This is not a cry for charity; it is a demand for equity. We must insist on fair trade agreements that do not extract from us while enriching others. We must reform international legal bodies to ensure that Africa is not a spectator but a key player.

Let us be bold: Africa needs a united legal framework that transcends the artificial borders carved into our continent. A Pan-African legal code, rooted in our values, traditions, and aspirations, will be the cornerstone of our participation in global governance.

We must challenge the inequities of global trade laws. Why should Africa, with its vast resources, negotiate from a place of weakness? A structured global anatomy demands that trade agreements ensure mutual benefit, not exploitation. Let us forge legal frameworks that protect Africa's wealth for Africa's people.

1. Towards an African Economic Constitution

We need an *African Economic Constitution* — a legal framework that binds our nations into a singular economic bloc. Article 3 of the *Constitutive Act of the African Union (2000)* mandates the promotion of economic integration. But integration must move beyond policy rhetoric to binding instruments. The *African Continental Free Trade Area (AfCFTA)* is a start, but let us push further:

- Harmonize our commercial laws to reduce intra-African trade barriers.
- Create an African Investment Court to protect the interests of African businesses in global disputes.
- Enforce penalties for foreign corporations that exploit African resources without adhering to fair labor and environmental standards.

2. Legalizing Sovereign Accountability

Africa's challenges with debt are a legal problem as much as an economic one. The *International Covenant on Economic, Social and Cultural Rights (1966)* affirms the right to self-determination, which includes control over natural wealth. We must negotiate new legal frameworks for debt, ensuring the principle of *odious debt* is recognized and exploited debts are canceled.

AFRICAN VOICES INTERNATIONAL

3. Strengthening the African Court of Justice and Human Rights

Legal unity must begin with justice. The African Court of Justice must be empowered to prosecute not only gross human rights violations but also economic sabotage, corruption, and illicit financial flows. We need robust mechanisms for holding both African leaders and external actors accountable under international law.

4. Reclaiming Our Resources Through Law

The global anatomy thrives on Africa's resources. Yet the legal agreements governing these resources often favor foreign entities. Article 21 of the *African Charter on Human and Peoples' Rights (1981)* provides for the right of African peoples to freely dispose of their wealth. Let us establish pan-African resource laws that prioritize local beneficiation and regional industrialization.

5. The Way Forward: Leadership Through Unity and Law

As an African, I see no contradiction between Nkrumah's call for political unity and the modern world's need for legal sophistication. If Europe could rise from the ashes of war to create the European Union, then Africa can certainly rise from centuries of exploitation to create a unified, structured presence in the global anatomy. Let us remember that the law is not merely a tool of the powerful—it is the voice of justice, the shield of the weak, and the bridge between chaos and order. Let us write laws that enshrine dignity, enforce equity, and uplift the lives of the millions who call Africa home.

6. Environmental Equity Through Legal Accountability:

Climate change does not respect borders, but global emissions treaties often ignore the disproportionate burden placed on developing nations. Africa must champion a legal framework that enshrines shared responsibility and accountability.

Accountability is the backbone of any effective legal structure. The disparities in accountability across nations create inequalities and breed resentment. For example, while developing nations are often held to rigorous standards, more influential countries can evade responsibility, whether it is related to carbon emissions, arms trade, or data protection. We need a legal framework that demands accountability from all nations equally, where economic or political power does not excuse a lack of adherence to global standards.

AFRICAN VOICES INTERNATIONAL

7. The Role of Courage in Structure

Ladies and gentlemen, a structured global anatomy will not be gifted to us. It must be won through courage. Courage in the courtroom, where African lawyers argue for justice in the halls of The Hague. Courage in the boardroom, where African leaders demand fair trade terms. Courage in our classrooms, where the next generation learns not just the law but the power of using it to transform society.

8. A Call for Inclusion:

Inclusion is essential to an equitable legal structure. Africa's voice has too often been sidelined in critical discussions that shape our global future. Whether we are addressing trade, climate change, or security, African perspectives must be included. We have valuable contributions to make, not just for Africa's benefit but for the world. Our diverse experiences with conflict resolution, sustainable agriculture, and community development offer lessons that can benefit global policymaking. True inclusion means not only allowing Africa a seat at the table but giving African nations the power to shape decisions that impact us directly.

9. A Call for Enforcement:

A structured global anatomy requires laws that do not merely exist in theory but are enforced in practice. International agreements are only as effective as their enforcement mechanisms. For instance, environmental laws to address climate change are largely ineffective if violators face no consequences. As African nations, we must push for enforceable mechanisms that do not compromise our sovereignty but ensure that all parties adhere to agreed-upon principles. We must advocate for enforceable laws that safeguard both our local and global environments, economies, and societies.

10. A Call to Action

As I conclude, let me channel the fiery resolve of Nkrumah and the pragmatic clarity of a modern African leader:

The global anatomy is in flux. Old systems are faltering; new ones are emerging. Africa must not wait to be invited to the table of global restructuring—we must seize our seat and shape its agenda. Through the power of law, through the unity of purpose, and through the strength of our people, we will ensure that the global anatomy recognizes Africa not as a periphery, but as its beating heart.

ENSURING A STRUCTURED GLOBAL ANATOMY

AFRICAN VOICES INTERNATIONAL

Africa must unite. Africa must lead. And Africa must do so now—with the clarity of vision and the power of law.

Thank you, and may we work together to shape a just and structured world.
