REPORT ON THE ONE AFRICA

FREEDOM DIALOGUE

THE IMPACT OF YOUTHS IN ENTREPRENEURSHIP, ON THE AFRICAN ANATOMY.

In a Democratic Dispensation, youths must have a fair hand in making diverse impacts in the Global Anatomy. Youths of today must be able to express themselves to the fullest and make the Global Anatomy, a better place. The youths particularly of Africa, must be able to contribute their quota towards the meaningful development of their National Anatomies. That is how Africa can grow. That is how we can all be phenomenal. That is how Abject Poverty, Unemployment, Low Standards of Living and Underdevelopment can be a thing of the past, in our National Anatomies.

There are a whole lot of youths with various Phenomenal minds to make the Global Anatomy a better place. Some of these youths have been discouraged, disadvantaged, misunderstood, ostracized, abandoned, rejected and not given the chance to express themselves. This has brought the world in jeopardy, because the world is not progressing as it should be, because the right people to take hold of the future have been depleted of their platforms.

It is about time for youths to rise up. It is about time for youths to be changemakers. The Global Anatomy needs an entrepreneurial space to accelerate towards being productive in modern times like this. **AFRICAN VOICES INTERNATIONAL** held this Dialogue to encourage Freedom Giants to spark the entrepreneurial skills in them, to make the Global Anatomy, a better place. The Global Anatomy has been entangled by oppression and its time for youths to rise up and take what belongs to them. The time is now! We must be able to take hold of our future and breakthrough. Freedom is here! Let us lift the spirit of Africa, high! **AFRICAN VOICES INTERNATIONAL** entreats all Freedom Giants to bring whatever talents and skills they have in them up, for the benefit of the Global Anatomy.

ENTREPRENEURSHIP AND THE NEED FOR AN ENTREPRENEURIAL REVOLUTION

An Entrepreneur is a Changemaker who puts his ideas into reality by constructing the platforms for his or her innovative ideas to come into fruition, for the Freedom of a Society. An entrepreneur takes risks and survives through all the thick and thin to come out with enormous opportunities of success, as he or she consistently works on improving his or her business ideas.

1. TO CREATE OUR OWN FUTURE

Our future is in our own hands. Many atimes, we think the pathway to our success is in politics or in the hands of some Global leaders. That's totally wrong. The pathway to our success is in our hands. We are the Gamechangers of our own future. Until we make a change, there's no way we can take hold of our dreams. Our Businesses and Entrepreneurial spaces can create massive chances for us to earn a living, and be a blessing to the less privileged and those in dire need. When we spark up our dreams, we create the pathways for our own Freedom. Whenever there is an entrepreneurial revolution, we spark up fruitful results that cannot be inhibited by the Governments or any Social Political Group.

2. TRANSFORMATION OF THE AFRICAN ANATOMY

A lot of us have phenomenal ideas, concepts and skills which are the remedies for the problems we have in Africa, now. However we have allowed ourselves to be on the low and kept a low mouth about our ideas, and this is what has kept the Africa Anatomy, underdeveloped. We need to let out what we have within, to transform the African Anatomy into her Greatest state. Africa is made for more, but till we work it out, we will still be found wanting. It is about time for the people of Africa to use and enjoy products

- and innovations, from their own soil. This is how Africa can grow. This is how we can be at the top and enjoy good and quality deserving life.

3. BOOSTING OF OUR ECONOMIES

It is of quintessence to the African Anatomy to have Giant Entrepreneurs from the Global Anatomy, coming from Africa. This is because we will be able to add more receipts to our economies, which will help add value in the Socio-Economic Development of our National Anatomies. We must be able to come up with innovations that are genuinely standardized and invest them massively, in our land. That is how Africa can grow. That is how we can be self-reliant and truly independent. This is how we can come out of the debt addictive systems and be prosperous with thriving economies.

4. TO SSECURE OUR ROOTS

The Spirit of Africa must be praised high everywhere. The Spirit of Africa must be hailed everywhere. There are many people who have seen Africans uphold their continent with pride, and that must be continued from generation to generation. We must be able to stand tall and fight for what belongs to us. We must be able to preserve our culture by keeping on, nourishing our heritage. Our fabrics, herbs, food, lifestyle and culture must be transcended into Giant Businesses for the upkeep of the heritage of Mother Africa. That is how we can grow. That is how we can develop. That is how we can sustain our pride.

VIRTUES NEEDED TO THRIVE IN REVOLUTION

1. DISCIPLINE

Discipline is one essential key, every Freedom Giant needs to uphold to be able to bring forth consistent results, that will reflect the excellence we always need, in the African Anatomy. We must be able to keep to our targets, by always staying on course and putting forth immense strategies that will lead to the kind of changes, we need. This is how the Revolution can be sustained. Where Discipline is practiced, the people always enjoy maximum satisfaction of the nation's services.

2. GENUITY

Genuity is a major element in every successful Entrepreneur's life. Every Entrepreneur who wants to thrive and cause a change in the life of his customers, raise more customers, attract more consumers and have his or her products becoming a household preference must be a genuine individual. Such an entrepreneur must produce good and quality goods that are beneficial and not harmful to the people, goods with high standards, and goods that are of high value. Such an entrepreneur must also be one who produces goods that are not

geared towards making people's lives a better one, and not solely for the purpose of being profit oriented. When we have genuine reasons for our ambitions, there is liberation which brings about true profits.

3. HUMILITY

Every successful entrepreneur needs to be humble to thrive in the Business Industry. Every successful entrepreneur must be able to listen to the views of his or her customers, their pleas, concerns, reviews and suggestions concerning their products. That is how their businesses can boom and bring forth ever increasing productive results. Every entrepreneur also needs to be tolerant and considerate to the requests and/or errors of his or her employees, business partners, executives or associates. That is how the Business can grow and bring forth unending prosperous results.

4. PATIENCE

Entrepreneurs who want to make impact in the Global Anatomy must have patience. They must be able to stand tall through the thick and thin and keep on working consistently hard. That is how they can soar and make impact. They must be able to understand the current systems of the Global Anatomy, the needs of the societies they find themselves in, and implement proactive decisions that bring forth productive results, in the long run. The level of patience an entrepreneur has determines how far, he or she will go and make impact in life.

5. DETERMINATION

Every Entrepreneur who wants to make impact must be determined. All entrepreneurs must be well visioned. Every entrepreneur must have an Agenda which clearly spells out all their aims and objectives, goals, short term and long term plans, policies, initiatives, projects and aspirations. These set of Agendas must be followed through periodically to see to the wholesome fulfilment of all the functions. Laziness and ineffectiveness to proposed demands in an Entrepreneur's Agenda will bring null progress.

There are a lot of people in the Global Anatomy who have brilliant skills, but are waiting to have a billion CFA Franc or Naira in their accounts, before they begin to invest into their ideas. There are also a lot of youths who are waiting for the next decade to come, before they begin to open up their businesses. The truth is until we start, we can never progress and bring forth more better ideas that will change and make the Global Anatomy, a better place. We have the solutions to people's problems. Let us change the Global Anatomy. Let us bring our ideas on board and we will see how the Global Anatomy will thrive phenomenally, through our efforts.

Let us not waste our God given talents. They are given to us for times like this. Let us not deny God, of his blessings bestowed on us. We are the CHANGEMAKERS. Let us begin to make impact. Let us showcase the beauty of Africa, with what we have. We are trailblazers.

PROBLEMS ASSOCIATED WITH YOUTH IN ENTREPRENEURSHIP AND **AFRICAN VOICES INTERNATIONAL'S** PHILOSOPHY, TO THIS.

1. LACK OF ROLE MODELS

The youths do not see people of competence who have stood upfront to be the Gamechangers, to encourage them to also make impact in the entrepreneurial industry. Most of these old folks are greedy, stingy, selfish and do not want to open up for the younger generation to learn. This has created a wide gap between the old and youth in the entrepreneurship industry. The old are growing older and the youths are also growing with nothing. It is time for the youth to rise up and set their own standards for the frameworks, they want to create and solve humanity's problems, by creating new ventures for change, in the entrepreneurial industry.

AFRICAN VOICES INTERNATIONAL, FREEDOM IN AFRICA

2. LACK OF FINANCE

Youths do not have the required finances to start up businesses. This keeps them from making any stance to bringing about their innovations. There are a lot of youths with great minds, but some of them are fresh graduates, school dropouts, do not have good parental standings and these all deter them from bringing up their innovations. They grow up without showing the Global Anatomy, what they had within them. This is a major problem in Africa, which has kept the youths from exhibiting their talents.

3. LACK OF ENCOURAGEMENT

Youths with exceptional abilities who want to showcase what they have within them are mostly ridiculed. This is one major problem which has unfortunately, kept such outstanding youths in the pit. Youths with great minds are envied, abused and discouraged from taking their vision forward. Their own colleagues who can provide help in one way or the other, will be silent and pray to see their downfall. This is what has kept Africa's development in a standstill.

4. NO GENUINE PLATFORMS FOR GOVERNMENT SUPPORT

We are living in Kleptocratic Governments nowadays where leaders only raise Agendas for their parochial desires. The truism is that, the plight of the populace has been regarded in our modern society, which has left the youths out of attention. There is an imbalance between the youths and the adult, not because of the increased time space or capacity of adults in service, but simply because of the absence of space to support youths with great entrepreneurial mindsets. This has kept the youths on the standstill which has also halted the growth of economies in Africa, because of the absence of productive ventures by youths in supporting the economies of Africa.

5. INSUFFICIENT CAPITAL

Youths lack the capital to make and bring their ventures on the public space. This has made most youths with entrepreneurial skills disregard their ability, to make impact in the society. Africa has been disengaged in the frontiers of advanced global economic development, because of the gap created in youth development. The minds and abilities by youths of Africa to make impact are enormous, but opportunities are low. As a result of this, abject poverty has crept into the system, making the future of African prospects engaging in the business anatomy, very low.

BENEFITS OF ENGAGING IN ENTREPRENEURSHIP AS YOUTHS

1. CARRIER DEVELOPMENT

Every Freedom Giant that begins to take his or her vision seriously, and works on it , builds a carrier, through which he or she can earn a livelihood from. These Carriers can bring great strides which can fetch an income for the Entrepreneur. At a youthful age, the entrepreneur has more time, to develop more experiences and creative ideas to develop his Vision, to fetch more receipts, through which he or she can make a living. When the Vision is genuine, it definitely brings a carrier and creates employment for people, for them to also make a meaningful living .

2. SOLVING THE PROBLEMS OF HUMANITY

Entrepreneurship opens the space for problem solving. People who become resourceful entrepreneurs bring forth the remedies to tackling the adversities tackling mankind and the various challenges confronting humanity, for a better living for all, in the Global Anatomy. We can be able to make the Global Anatomy a better one, when we come out with entrepreneurial innovations that are worth it. People will consume and demand for our products, if only they are of great value, and once they are of great value, the society becomes a better one. We must build a future, where everyone is satisfied because of the changes, that have been brought by successful entrepreneurs.

3. ANNIHILATING GLOBAL CONCENTRATION IN THE WEST

The African Anatomy is filled with a mass concentration of knowledgeable ones, who can turn their concepts into resourceful products, for the Global Anatomy to admire and purchase at a cost. Foreign Anatomies particularly the West are heading in the Global Industry. Some of their products are outmoded and quack. It is about time we need to patronise our African Herbs, Moringa, African Manufacturers in the Automobile Industry, Agriculture Industry and in all areas of the Industry. A new Renaissance of African Innovation must spring up. The time is now! This Revolution will create a Balance of Industrialisation in the Global Anatomy. Let us be the CHANGEMAKERS as entrepreneurs.

4. EXPERIENCES IN OTHER AREAS OF LIFE

The Entrepreneurial Industry is so much filled with gross experience that, every successful entrepreneur gets to build on more better ideas to expand his or her business and make life more flexible and beneficial to all in other areas of life. Everyone who begins to invest as an entrepreneur, gains experience from his or her venture to do more and expand his or her business. The versatility in experiences gained leads to more receipts generated from other sources generated, which makes life better and easier managing for the entrepreneur.

5. COMMUNITY DEVELOPMENT

Every entrepreneur who begins his or her business early, particularly from youths gets enough capacity to expand his or business due to the time width. This fetches him or her more receipts to be able invest and make impact in the community. Successful entrepreneurs give back to their community, to enhance their standard of living, and make economic living better for all. People like Dr. Dangote of Nigeria and Mr. Sam Jonah of Ghana all begun their quest right from their young ages. Their formative ages were from young ages, which gave them enough time to come out stronger through the thick and thin, face economic challenges squarely, and come out as the Survivors, breadwinners of their families, heroes and heroines and as successful entrepreneurs. The Entrepreneurial Industry has a lot of benefits that makes the Global Anatomy, a better one, for everyone to thrive and live in Freedom.

ABOUT AFRICAN VOICES INTERNATIONAL

AFRICAN VOICES INTERNATIONAL is a Socio-Political Non-Governmental Organization and Civil Society, that works towards the promotion of Democracy, as a means of sustaining Political Freedom in the hearts and minds of Africans and People, all around the Global Anatomy.

This has brought and left a scar of hopelessness in the African society. The various kinds of enslavement meted out on our African forefathers and mothers has brought about various challenges in the African continent. This has brought about a culture of political biasness, gender inequalities, superiority and inferiority complexes, leadership challenges, corruption, dictatorship, child abuse, imperfection in our way of doing things and mental servitude in the minds of Africans. **AFRICAN VOICES INTERNATIONAL** has realised this problem, and has come at a point in time of world history like this, to create platform for the youth to stand out and bring a revolution from enslavement to freedom where all humanity, both in Africa and
