REPORT ON THE ONE AFRICA FREEDOM DIALOGUE

THEME: INJUSTICES REVEALED

“It is everyone's responsibility to make Justice a matter of concern. We all face injustices one way or the other with some grave and others minor. You might be saving a relative or loved one by making sure injustices are exposed and dealt with” – LUGU-ZULU ADOWARIM (FORMER WOMEN'S COMMISSIONER; NDC TEIN UG & CEO OF ZULU CONSULT)

THE ONE AFRICA FREEDOM DIALOGUE; INJUSTICES REVEALED

REPORT ON THE ONE AFRICA FREEDOM DIALOGUE INJUSTICES REVEALED

THE ONE AFRICA FREEDOM DIALOGUE on the Theme, **INJUSTICES REVEALED** was held in Ghana on the 14th of May, from 1pm Universal Coordinated Time. **THE ONE AFRICA FREEDOM DIALOGUE** was hosted by President Isaac Boadu, with Freedom Giant Alberta Yawson as the Mistress of the Ceremony and Freedom Giant Lugu-Zulu and Freedom Giant Ekow Andoh, as the Panelists. **AFRICAN VOICES INTERNATIONAL** held this programme to sensitize the populace on the need to be vigilant and fight against the various Injustices going on in our societies, to promote fairness, order and ensure discipline as well as accountability in all areas of

THE ONE AFRICA FREEDOM DIALOGUE; INJUSTICES REVEALED

work and social life or living for the Rejuvenation, all sundry needs. Post this Programme, all Freedom Giants are coming out Rejuvenated and will continue to stand Relentless as they fight to promote Democratic Order through the promotion of excellent democratic standards, in every sphere, they find themselves in.

THE ONE AFRICA FREEDOM DIALOGUE was a phenomenal Dialogue that pushed Freedom Giants to continue remaining Relentless, particularly in our **YEAR OF REJUVENATION**, champion the course of ensuring human dignity and move in acceleration towards achieving nothing but the best, in every sphere of life. The world in which we live today has been characterized by various tragedies, turmoils, impudency, abhorrence acts, wickedness, humiliations, discriminations, abuses and envy that has kept the progression of our societies, in stagnation. There has been various Injustices which have prevailed in our societies and have undermined the course of Human Dignity, in our nations. It is time, we rise up to the call of seeing to the liberation of the Global Anatomy from such injustices.

There needs to be the restoration of order in our administrative systems. A new Dimension of respect for human rights must be birthed for people to enjoy the life, they have as humans. The new quote developed by **AFRICAN VOICES INTERNATIONAL** which says “**FREEDOM IS SECURITY**” is paramount to the upliftment of every human being’s dignity. When we understand that everyone has a right and respect the rights of each individual without encroaching on anyone’s rights, we can all live in a fairer world, whereby children yet unborn even feel secured emotionally, mentally and psychologically before they are birthed, because of the surroundings, they will be filled in. In light of this, Freedom Giants post this Dialogue, have promised to stand tall to eliminate all Injustices and eschew all insolent acts, going on in our society.

We all must be able to defend each other and protect the total course of Total Freedom and not a portion of Freedom, for all sundry. Each class of humanbeing all belong to The One-Anatomy, and as a result, the level of education, geographical location, political background or anatomical structure of a person, must in no way, determine the level of rights, anyone should enjoy as a human being.

The kind of classifications, people use in determining the value of others which keeps others as slaves must be eschewed. Everyone is phenomenal. The colour skin of a person, gender status, ethnic or national background or political affiliation must not in any way deter people and/or hinder people from enjoying Freedom to the maximum. We individually must also respect our rights, so that we do not fall guilty as a result of denying other people of their rights.

We must all walk in Love, hold each others hands, support each other, stand in for others as a family and ensure togetherness continues to be a foundational factor amongst us, as human beings. We must raise ourselves up. We must function together as a United Global Anatomy, filled with respect for our rights where Superiority Complex becomes an old order.

We need to promote fairness in all phenomena expressed by people, through their actions, communications, postures or decisions. Issues of misunderstanding must be ruled fairly. Each party must be given the chance to express their views of which partiality, biasness and nepotism must be a thing of the past, in dealing or judging cases or problems amongst parties.

Issues that bring segmentations between parties, ethnic groups or National Anatomies take long to heal and interrupt the flow of a thriving economy. Democratic Republic of Congo had a turbulent war between 1998 and 2003, which cost the nation of her assets. At least 2 million people lost their lives in the war as a result of the famine and diseases like Cholera and Diarrhoea, that struck the country. State properties were destroyed, minerals were smuggled out of the country which led to the country's economy totally collapsing and still struggling after the deep recession, she experienced.

We must learn to consider the pros and cons of every action we take before we take action. Every Injustice from any Arm or Ministry of Government has an effect on another Arm or Ministry of Government due to the inter-correlation, they all have in service to our nations. We therefore must be very careful of all our actions

THE ONE AFRICA FREEDOM DIALOGUE; INJUSTICES REVEALED

and ensure that, we live the best of our lives as responsible citizens of our states, fulfilling the God-given mandates we have been assigned for, in our nations and for the Global Anatomy.

The Global Anatomy particularly in Africa has seen various acts of insurgencies and mediocre dispositions unfortunately, as normal. People have come to take life anyhow and live anyhow, without not brooding on how to walk in Excellence, because they have accommodated mediocrity and have been blindfolded. New schemes of Excellence then looks unworkable in some people's eyes. However, as Freedom Giants , we must remain Relentless, tackle these problems and see to the Revolutionization of the Global Anatomy from poverty mindsets to Excellence in every nook and cranny of Governance, in the Political Anatomy.

AFRICAN VOICES INTERNATIONAL is committed to working towards the Dignity of our Social, Political and Economic environment and building on dignified relationships that give productive results towards, the dignity we want, as a Global Anatomy. We are committed to

seeing to the liberation of a just continent where people can live freely and can be respected because of the noble traditions and outputs, they put in place. Everyone is significant. Everyone must be treated phenomenally. In the Legislative Assembly of a Government, both the Minority and Majority must be accorded with the same respect. Leaders must give in their best, from the maximum respect they are given and give back to society, as a service to their nations. Subordinates must also be equally respected for the phenomenal and tremendous inputs, they also put in place. None of these parties must feel superior over the other. We must all stand tall, and work as a United Anatomy, guided by the standard of equal respect for each other. We must just not take things for granted, but play exemplary actions from every role, we are given.

There has been a lot of unjust acts meted out in our various societies but mouths have been shut to turn keep all such acts mute and on the down. As Freedom Giants, we must raise our voices at all times. We must not settle for less. We must be always ready to stand for Freedom and put in phenomenal inputs, to see towards the perfection of this goal. Reverend Martin Luther King once said, we must use time creatively in the knowledge that the time is always right to do what is right. That was perfectly said by the Great Civil Rights Activist. We must at all times never quiver or be silent. We must rather always press on further towards attaining the goal of creating Freedom for all. We must be able to justify our time, through our output. Kwame Nkrumah once said the best way of learning to be an independent sovereign state is to be an independent sovereign state. We must learn to act on our goals. We must push forward and be

THE ONE AFRICA FREEDOM DIALOGUE; INJUSTICES REVEALED

Relentless as a people. That is how we can curb all these Injustices, in our societies. We must stand tall and remain tall for the Revolution to stand.

AFRICAN VOICES INTERNATIONAL stands for the true liberation of the people, and it is in so that we stand to see that everyone is living securely wherever, he or she is. In view of this, we all as Freedom Giants must be very circumspect of our dispositions at all times. We must make sure we do not compromise our standards to infringe on other's rights. Nelson Mandela once said "to be free is not to merely cast off one chains, but to behave in a way that respects and enhances of others." We all have a charge, we must keep as Freedom Giants. We must protect our neighbours. We must be different. We must stand tall. We must live uniquely because we all, are a single Anatomy, from the same origin. We are one people, and if we are one people, we must treat each other in dignity, and with respect. That is Freedom. We must not be like anyone. We must be committed to our standards if we want The Global Anatomy to be liberated.

We must learn to be genuine and work in alignment with our visions. A lot of people do what they do, because of their work and a commitment they must be committed to, to earn remuneration, praise or kind. But we must get out of that and work with passion in all we do. That is how we can revolutionize the Global Anatomy. That is how we change the Global Anatomy and bring forth the progressive change, we want to see, in the Global Anatomy. We must do it. Let us not settle for less. Let us make it happen.

THE ONE AFRICA FREEDOM DIALOGUE; INJUSTICES REVEALED

It is time for all Freedom Giants to take their swords and fight every insurgency going on in their country. Everyone is significant and anything that violates the Peace, Integrity and Survival of every humanbeing, must be laid off. We must stand up for people's rights and play respective roles which will see to the sufficiency of every single Human being's . We must at all times be able to understand the needs of others and play our roles to dignify the trajectories people take. We must help others, strengthen them, advice, support or give council to everyone. Everyone needs help. We must be the upliftors in people's lives. Nelson Mandela once said to deny people of their human rights is to deny their very humanity. That is very true. We must stand out very tall and not walk as just anyone does, but be different. We must not settle for less. We must be brave ones. We must take risks and defeat every core of Injustice, that has been grounded in our systems. We must wake up. We must stand up to the vision and join Freedom Giants around the world in achieving this vision. Let us walk together as a United Global Anatomy. We must rise up and castigate all visions that seek to derail Human beings of their total Freedom. Malcom X once said "I'm for truth no matter who tells it. I'm for Justice no matter who it's for or against." We must stand for the true course of Justice, at all times. We must believe in ourselves at all times. We must stand tall for the truth to be spoken. What the great Revolutionist whom **AFRICAN VOICES INTERNATIONAL** so much admires also meant was that, we must stand for Freedom no matter who stands for it or not. We must not be dependent on our loved one's decisions. That makes us inferior to them. We must be neutral, and go all the way, being neutral at all times. Our lives must be a reflection of the Democratic Freedom, we want. On all sides, we must stand for the defence of people's rights. Nothing must be a blockage to People's Freedom. No one's colour skin, religious affiliation, choice of political affiliation or educational upbringing must be the frontier to which we judge them. Everyone's rights must be upheld at all times. That is how the Global Anatomy can grow. Let us make it happen.

THE INTERJECTIONS IN THE GLOBAL ANATOMY,
REVEALED

A lot of leaders, mentors, advocates, philanthropists and people on the frontier have interjected other people's lives adversely and have kept their lives in pits. People do not want to see to the true liberation of humanity, and always put in certain measures to keep the polluted order, the

THE ONE AFRICA FREEDOM DIALOGUE; INJUSTICES REVEALED

way it is. Leaders or those at the top who are supposed to give their supporting hands to others, rather see to it that, others who need help are submitted to them as slaves as long as they live. Various Injustices have gone on in our societies and people have been oppressed to thrive in mediocrity, as long as they need the support of people in power or those who can help them. There are mostly negotiations between these two kind of parties that undermine the dignity and identity of those in need, who fall victims to such scrupulous people. Certain leaders take others as their maids, sex pets or dampen their mind in any way, to favour them. One thing we must know is that all oppressors who oppress the people, they are born to serve in whichever jurisdiction, they are instituted to serve, in the end, face the consequences of their debilitating actions. Blaise Compaoré was sentenced to life imprisonment for assassinating Thomas Sankara, who stood for the liberation of Burkina Faso. It took long before he was brought before the law, but at the end, he faced the full verdicts of the law. Every single individual reaps what he or she sows no matter whether his or her involvement was a joint action or not. We all face consequences for our actions singlehandedly, and that is why we must sow good seeds.

Most Leaders want to be cheered alone, and as such make sure that they do not promote, give validity or support to anyone with the qualified position for a particular office, job or work. They will rather employ unqualified people so they do not serve as a threat to their “names.”

All of these ridiculous acts are going on everywhere in the Global Anatomy. Freedom Giants must stay relentless and never succumb to whatever ridiculous acts, leaders put on board. We must know that we will walk in the footsteps of oppressors, if we follow their plans or leadership. We must not in any way pay heed to whatsoever no matter the pains, struggles or the situation, we may find ourselves in.

We as Freedom Giants must believe in ourselves at all times, and stay by our acts and walk in Excellence at all times. We as Freedom Giants must never deny ourselves of our who we are. We are phenomenal people, who carry a difference and we must ensure that at all times, we walk as Freedom Giants, every second of lives, to achieve the breakthrough we want.

We can build a better Global Anatomy where we all stand as a *One-Anatomy*, when we all strengthen each other to do what he or she can do to uphold the standards of the community's development, for the Freedom of the community. We must stand as one people and resist helping others based on tribal lines or ethnic affiliations, political affiliations, educational affiliations, religious affiliations or the status quo of people. Wee must be neutral all the times to bring forth works that correlate with the standards that promote Excellence, everywhere we are in our Communities for a well functioning Global Anatomy.

THE ACT OF UNWAVERING RELENTLESSNESS
BY FREEDOM GIANTS

Freedom Giants must never give in for standing for what is right or in the quest of standing for the truth. Most times in our societies, people who try to preach good tidings of Freedom and Justice are humiliated, rejected and looked down upon. But we as Freedom Giants must stand tall and never give in. We must press on.

THE ONE AFRICA FREEDOM DIALOGUE; INJUSTICES REVEALED

We must remain Relentless till we find every truth we need to find. We must stand Relentless till we see Liberation, on all fronts. We must expose the social evils in our communities. We must kick against all schemes meant to keep the Freedom of people, in pits. We must stand at all times, till our death. We must remain strong about who we are, our convictions and what we stand for.

As Freedom Giants, we must never negotiate for less. We must not be polluted into being corrupt. We must never sell our Freedom. We must treasure our Freedom and live as Freedom Giants, as long as we remain on earth. We must not be calm when we are supposed to be upset and act urgently about things and so are we also not supposed to be angry, when we are supposed to be calm about things that restore Order and Justice, in our societies.

Our future lies not only in our hands but in the right upbringing of our societies. We have all it takes. We have all we need to be able to take hold of our future, for the Freedom, we need. We either choose to walk in slavery or to walk in Freedom. It is our choice and we dare not become neutral where Justice must be meted out. We must stand tall and believe in who we are. We are defined, by the steps we take.

As Freedom Giants, we must not allow ourselves to be treated with disdain. We must uphold our dignity to the highest pedestal. We must not allow anyone to trample on our rights, even for a second. We must not allow money or wealth to be a factor for people to prove their treacherous acts on our lives. We must remain Relentless as we walk in the journey of our lives, and walk in Freedom at all times.

We must always investigate and find the truth. We must be prudent and skillful in our tactics to find the truth. We have had leaders like Yahya Jammeh of Gambia, Slobadan Milosevic of Serbia and Hosni Mubarak of Egypt, who embezzled state funds into their personal accounts, which drained their nations of their wealth. Nothing must be left uninvestigated. No matter the calibre of people who commit the offences, we must stand tall for our rights, and remain Relentless as Freedom Giants to fight and find the truth. It is of a worthy note that such leaders were apprehended and imprisoned for their unnationalistic acts. They serve as a message to others who will want to find illegal means to be prosperous in life.

INJUSTICES

Injustices refers to the violations of the rights of human beings, companies, societies, entities or nations through various manipulations, interjections or exploitative agendas. People have been unfairly treated in our societies and have treated in disdain based on a number of unviable reasons. People live supercilious lives in the Global Anatomy and disregard others of their rights. People have come to manipulate the lives of others and the systems that back fairness in the society. People do not care about the rights of their fellow neighbours, but rather see themselves as superior beings and decide their lives based on their own terms.

The Global Anatomy is filled with so much disdainful behaviours from people who are supposed to be the models of good behaviours, to learn from. As Freedom Giants, we must stand tall and fight against all lofty behaviours from oppressors and defend the course of Freedom for all, in the Global Anatomy.

As an Anatomy, we are supposed and must know that we all are quintessential and everyone has a right for which no person's rights and privileges are superior to the rights of his or her fellow neighbour. We therefore must be able to respect people, love them and not in any way, behave in any way, that violates their rights. Article 7 of the United Nations Charter on Human Rights declare and reveal that, "All are equal before the law and are entitled without any discrimination to equal protection of the law." This same law also affects workers within the United

THE ONE AFRICA FREEDOM DIALOGUE; INJUSTICES REVEALED

Nations for which, it makes no General Secretary, administrative head or functionary under the United Nations superior to the Laws.

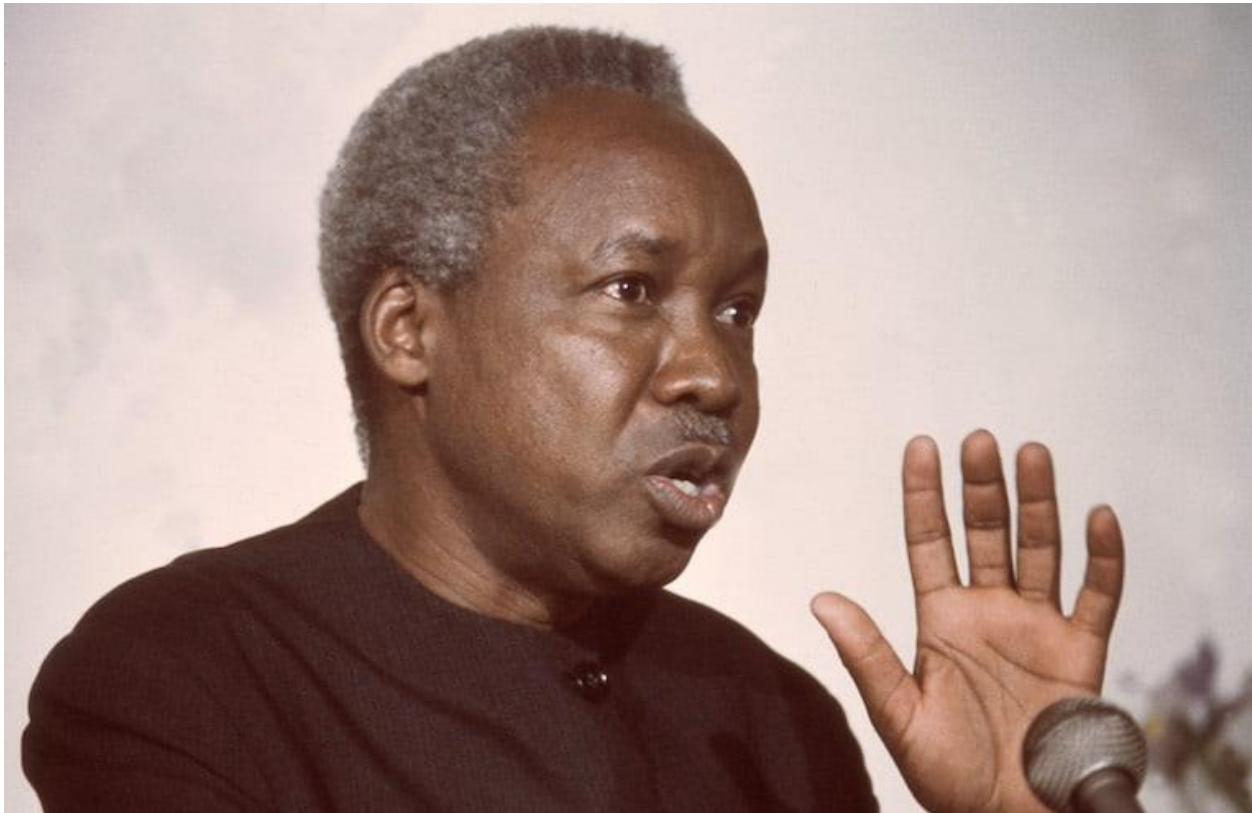

In other areas and of course most at times, a lot of people, companies, governments or institutions disrespect themselves by seeing their beliefs, principles, interests, passions and personal decisions as central to none, and therefore take no considerate respect for other excellent works designed by other People, Governments, Companies or Institutions, which are excellent. Individuals want to be seen as superior to others and also want their unguarded lives to be seen as the “constitution,” governing other people’s lives. These are unjust acts which do not portray Democratic Freedom of which **AFRICAN VOICES INTERNATIONAL** discourages, and entreats all Freedom Giants to live in a way that not only shows respect for the rights of others, but the integrity of others as well. In this way, no one can be able to function mediocly and bring forth stagnant results wherever he or she, is.

A lot of people because they feel superior to others defy the principles of discipline, sound management practices and order and as a result, we begin to see a deceleration in the sector of wherever, they are working. However, it is very essential for everyone to know that when such undisciplined people are sacked from their operative area of work, the company, government or sector they used to work in, suffers no recession. Things continue to work well under their regimes and transits into a better living, when such functionaries are operating phenomenally. We must not allow anyone to trample on our rights and on the virtues that promote Democratic Freedom in our nations.

The whole atmosphere of a Political, Social or Economic system should be able to showcase the kind of virtues being adhered to by it. We must be able to always live proactively to ensure that we are working on the right paths that promotes Excellence for the Democratic and Political Freedom in the Global Anatomy. When we perform phenomenally in order, we see acceleration in Development. There is always an increasing rate in Development, when we perform phenomenally in order. We always stand tall because we work phenomenally.

PRINCIPLES NEEDED FOR REMAINING TALL, AS FREEDOM GIANTS

1. SELF-CONFIDENCE

We at all times as Freedom Giants must develop our inner resilience to stand tall and we must be Relentless in our drive to cause the needed change, in our societies. Some political tendencies of certain politicians are very cruel and must be eschewed. As Freedom Giants, we must not succumb to such political tendencies. We must be confident and stand for what promotes Democratic Freedom in the Political Anatomy, of our countries. We must be neutral and transparent in our actions, enough to fight all ambiguities, that suppress the Dignity and Integrity of our Sovereign systems. We must remain Relentless at all times and stay true to the quest of promoting nothing but exactly what we want to see in our societies. We must never be timid, shy, afraid or unpassionate about causing the needful changes. We must remain strong towards causing the changes, we need to cause as Freedom Giants. We must believe in who we are and never linger. We must stand tall at all times and keep on accelerating our efforts to cause the changes we need to cause. We must never stop even when we

see the results we need, but keep on defending our stances so that no ulterior motives of others can break down, the frameworks we as Freedom Giants have set. We must be confident enough in our quest to cause a liberation. Nothing should temper with us. Not the colour of our skin or anything should come between us and our fight for Freedom, for the populace. The **GLOBAL FREEDOM BOARD** of **AFRICAN VOICES INTERNATIONAL** entreats all Freedom Giants to stand tall, to achieve the dream, they want to achieve. John F. Kennedy once said, “those who make peaceful revolution impossible, often make violent revolution inevitable.” That is the genuine truth. We must be Relentless in our fight and stay true to the course, of bringing forth the liberation.

2. SELF-DETERMINATION

We must be determined at all costs to fight for the Goal. We must work out all the necessary inputs we need to put in, to see to the changes, we must see. We must work out the processes of fulfilling the vision. Individually, we must be tactical and strategic about fulfilling the goals we are mandated to fulfill. We must be proactive and ensure we bring forth, nothing but phenomenal results, on time. We must be Relentless about that. We must be ourselves and not be anyone else. We were born for a reason. We must fight the course on our own and make sure, we prevail and refine the standards. We must be angry about the miserable conditions we see within our societies, and seek to refine it. We must act with no empathy. We must change

the course. The change we want to see is within us, and until we remained self-determined, we will grow worried about our lives. We don't need a tap to be able to thrive. We have to walk on our own, in playing the role we need to play in refining the Global Anatomy. We must curb the Injustices. When we decide not to settle for less, we will always put in mind, nothing, but the best, in our quest to cause the change, we want to cause.

3. FOCUS

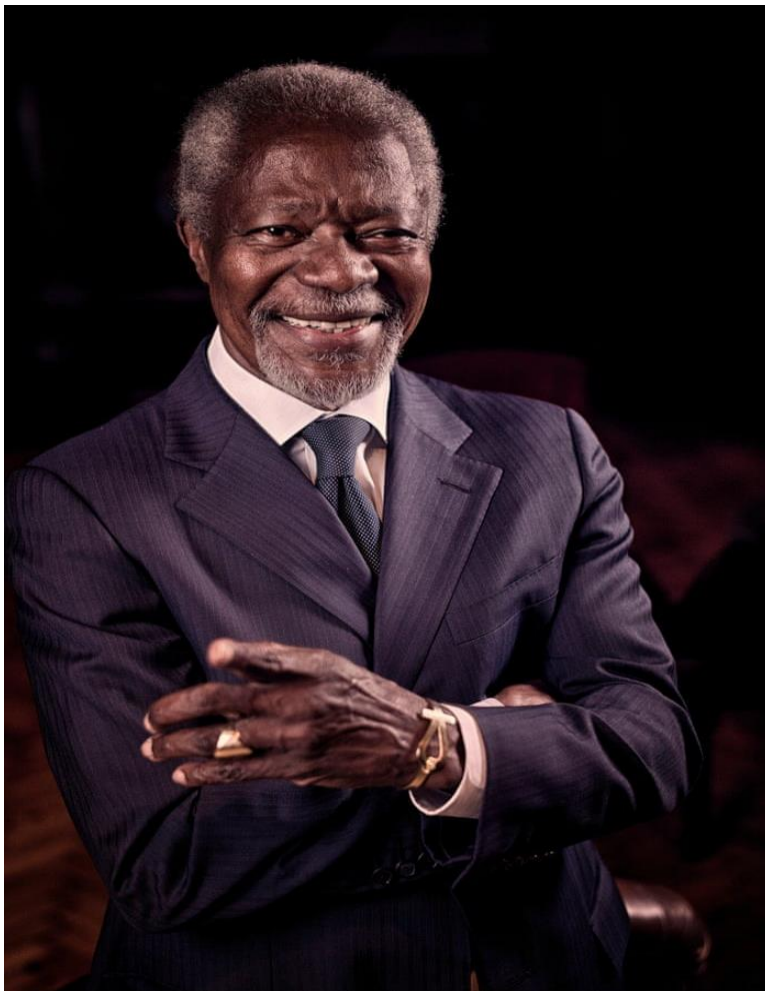

As Freedom Giants, we must at all times walk in our identity as Masterpieces. We must be focused at all times. Oppositionary forces always have their agendas to sabotage people on the course of walking in Freedom. Oppositionary forces have their own agendas to kill all schemes meant to promote Democratic Freedom and Political Justice wherever, in the administrative

rulings of National Anatomies. We must at all times be focused and dignify our position through endless focus on our Goals and Visions, as Freedom Giants. Malcom X once said if we do not stand for anything, we will fall for anything. As Freedom Giants, we must not betray ourselves. We must stay true to the vision. We must not allow various favours or gifts to keep us mute and/or prevent us from revolutionizing the Global Anatomy. We must stay true to ourselves and never keep low to the vision. We must never decline in zeal, the way we begun. We must continue in the quest to revolutionize the Global Anatomy, stronger and stronger. We must at all times, stand tall. We must remain resilient. We must be provoked to do more. President Kagame was so focused to rebirth Rwanda and he decided to start a Government Framework structure that will include all citizens in the zone of total sufficiency, and he did it. Once we are focused, we begin to develop more remedies to solving problems and bringing inputs that change issues in deficit to become productive centers working with abundance. At all times, we must be focused as a people, and remain Relentless.

4. NEUTRALITY

As Freedom Giants, we must never hold sides with people or various agendas by people that seek to keep others entangled in corner, while they soar. We must never even hold sides with our partners, team mates or work mates. Rather, we must side with Freedom. We must be lovers of Freedom. We must be passionate about seeing every single individual living in total Freedom to the core! We must side with the vision or tenets of the Organisation or the Institution we work in. That is how we can clearly see those who turn the laws, codes or values of the Organisation or Institution for their parochial desires. We as Freedom Giants at all times must learn to be neutral in all matters of political understanding. We must respect the rights of others, just as we respect the rights if ourselves. We can decide to be in a particular political party, but that does not mean we must kickback at political philosophies from other political parties which bring liberation to the people. In our own Political Parties, we must be Freedom Giants who stand for Excellence. Blaise Pascal once said “if you neutral in matters of Injustice, you have chosen the side if the oppressor. If an elephant has its foot on the tail of a mouse and you say that you are neutral, the mouse will not appreciate your neutrality.” Neutrality means siding with Justice and once we want to see Freedom everywhere, we must remain neutral everywhere and everytime, for Justice to take place. That is how all Injustices can end and the problem that hung in the society as a result of the various injustices in the society, can be curtailed.

5. PACESETTERS

THE ONE AFRICA FREEDOM DIALOGUE; INJUSTICES REVEALED

Whenever we want to cause a revolution, we must never be found wanting. We must be the pacesetters. We must practice what we seek for. We must continue and stand for the vision. Our lives must be sacrifice for the vision. Nothing should keep us from walking away from the vision. We must be able to live freely and be a reflection of the vision. President Gadhafi was walking in Liberty, when he wanted to see Libya as an icon of a true African Sovereign state. We must always walk the talk we profess and stand for, at all times. This implies we as Freedom Giants continuously working towards the implementation of excellent standards wherever we are, and in whichever positions, we are placed in. We must understand the process and walk in the continuous process, that signifies the change that, not we want, but that also must be taking place.

AREAS IN OUR SOCIETIES WHERE, INJUSTICES MUST BE CORRECTED

There needs to be a change in our societies for Freedom and Justice to prevail. We must all remain Relentless and stand tall for the end of the various atrocities that have happened and become a “no-go area,” in our societies. We must be able to raise our voices and fight all

irrational behaviours that occur right in the Political, Economic and Social Anatomy. Patrice Lumumba, a son of Africa from the Democratic Republic of Congo, then called Zaire, was brutally killed and his remains burnt yet up till now, all those who took part in this unfortunate incident have not been interrogated to even be sanctioned, to serve as a detriment to the General Public. The various wings below need to be assessed, scrutinized seriously with various amendments made, that instil Order and Democratic Freedom, everywhere.

1. POLITICAL INJUSTICES

2. ECONOMIC INJUSTICES

3. SOCIAL INJUSTICES

1. POLITICAL INJUSTICES

Political Injustices are the various illegal acts that defy the integrity of the Democracy of the people, and seek to oppress the people, through various selfish acts and dictatorial actions. In a National Anatomy, the people are supposed to enjoy total Democratic Freedom, and dignify themselves with the rights, they have as citizens and as a people. However when leaders come into power, and decide to manipulate the systems to favour their own interests, that's when we begin to see various deteriorations, because of the Injustices that have found their way through the systems. We may have a President who may decide to rather appoint a leader in Government from his ethnic group and forgo someone who looks very qualified for the position, but be unlikely to be chosen because of his ethnic affiliation. We must be able to stand tall and set the systems that bring forth Democratic order for everyone to thrive. Leaders that decide to defy the constitutions within their countries and begin to exhibit dictatorial lifestyles such as forgoing General Elections, and staying in power beyond their tenures of office or for a lifetime, denying people to speak freely and exhibit their rights, bring Political Disorder to their countries. Power brings up the true identity in people and showcases the intentions of leaders. Whenever leaders campaign and promise to fulfill a number of policies within their manifestoes, and fail to fulfill some of them, it is an Injustice. Even when leaders fulfil a 90 percent of the priorities stated in their manifestoes and fail to fulfill the other 10 percent in their manifestoes, it is an Injustice. The Integrity of the people must not be sublimed. Leaders must assess their abilities before coming into power. Leaders are voted into power based in the strengths of their policies, and when they fail to fulfill them, they are less off them Students studying in school. We as a people must be able to critically asses which leaders, management systems and committees we vote into power so that they do not mislead us.

2. ECONOMIC INJUSTICES

Economic Injustice refers to the unfair manner in business transactions which try to keep certain people disadvantaged because of the unjust manners and acts of others. The systems have become tempered with and we see issues like pilfering, smuggling, scamming, fake licensing amongst others. Economic inequality is also a form of an economic Injustice whereby we see the presence of the unequal share of salaries and avenues for people to showcase their skills and be paid in our countries. Economic Inequality is an impediment towards the acceleration of a country's economy. This is because it comes against the Macroeconomic stability. People now try to take advantage of any reforms to make bad use off others. There may be increase in the costs of various products which may not even have relative increase in taxes, but sellers will want to take advantage of the high demand and make profit our of it. Various crimes are going on and we must not just settle for what is going on. We must be ready for the change, we want. Landlords in Africa nowadays decide to take advantage of tenants because of the renting crisis in Africa. There are people who are mistreated by their Landlords. There are people who have to construct broken facilities which have already been paid for before they rent the accommodative space, but have no options, because of the difficulties in renting houses in Africa. We must know our rights and seek proper Justice where necessary like going to the Rent Control Department, knowing our Laws and not allowing people to take control of our intellect.

3. SOCIAL INJUSTICES

Social Injustices refers to the torturous crimes people cause in relationships which further results in enmity, bitterness and conflicts. It also refers to when people take dubious advantage of others for their own parochial desires and goals. A lot of people nowadays do not want to see their fellow neighbours develop, recover from previous traumas and/or become the best of themselves. A lot of people nowadays will try in their possible best to see others under depression or in so much mayhem, simply because they are also suffering. A lot of people do not want the truth to be pointed out. In our Social Relationships today, which is a module in **AFRICAN VOICES INTERNATIONAL**, we talk on promoting equity in respect in human relations and amongst social entities. For example, lets say a Husband slaps his wife and taken behind bars. Everyone may be speaking against the husband for such an assault, but further investigations into the assault could reveal various unjust behaviours also caused on the part of the wife. The wife may have cheated on the husband, stolen something or did something dubious. At all times, Justice must be meted on all sides. Wee have to come to the point where certain groups of people sometimes are left freely to move about without being apprehended because of their positions in society. As Freedom Giants, we must fight for Total Freedom on all sides in the Global Anatomy, and that's how the Global Anatomy can develop fairly.

THE TRACTORS BEHIND INJUSTICES

The Global Anatomy has been characterised with a lot of malfunctions which has kept our world in a state of hopelessness for the people of today and for posterity. People use every opportunity they have to either abuse, oppress or make mockery of others in a way. The systems have fallen and have been destroyed. What are the causes of Injustices? It is so disclosing to

even disclose that the Covid-19 Pandemic was rather an opportunity for certain herbalists and people without no knowledge even in medicine to sell drugs which they claimed, were cures but were rather otherwise with others dying and others falling seriously ill. All these were done in the name of money. As Freedom Giants, we find out the causes of Injustices as pointed out below.

1. ENVYNESS

Envyiness causes people to do unjust things. **AFRICAN VOICES INTERNATIONAL** expressed her heartfelt condolences to the family of Sylvester Oromoni who was brutally assaulted and later on, died. A lot of people are just around for their parochial desires and not for the goal of the Company, Institution or the Nation, they work for and/or reside in. They just want to please themselves and forget about the populace as a whole. Most Civil Servants are in their offices but out of their offices. While they are supposed to stand in for the goals of their workplace to be an honour to the entire citizenry or populace, they come in and render hopeless ends and become a burden to their Institutions of demand. A lot of people are just in public and various offices of honour, and are just there satisfying their own selves alone, and not fulfilling the mandate of serving the people, for which they have been called. A lot of people do not want to see the masses in the best of lives, but want to rather see only themselves, enjoying all the Gold. As a result, they try to put down anyone trying to cause a Revolution, anyone trying to make their lives better and try their best to shut them down.

2. GREEDINESS

A lot of people are very selfish and want to live for their own good when they are put in various positions, to change the lives of the populace. Greediness has become a “normal” in our societies that people do not see the need to speak against unkind individuals. Most people in authority now are there to distract a lot of focused ones and visioned ones from their journey to keep the polluted systems, they way, they are. Politicians, Civil leaders and Workers claim to be Nationalistic but only put in their maximum efforts, when they are in power. They do their very best not to work in the interest of the nations when they are out of power or not voted. That clearly depicts their individualistic and selfish plans. Workers nowadays render services based on their own terms. They are individual-oriented and not for the people. We find poor quality products all around but still in high demand, because that is what most of the nations, in Africa can have and afford. People who are Nationalistic will even fight when they are unheard to see to the Freedom of the populace. We must change the systems and fight for the sovereignty of our nations with all our hearts, as a People.

3. LACK OF PROPER CHECKS

When the systems fail to create the standards that ensure order in every setting, mediocrity begins to prevail. When people are elected into various offices anyhow without the proper checks, we begin to see mediocrity prevailing everywhere. We do not ensure the appropriate

systems that assess the quality, manner, modus operandi, output and processes used in

delivering various services, at various companies. As a result, people take advantage of the inordinate systems and work recklessly. The systems have been corrupted with people who have trampled on the right codes for good governances in our countries. Now people are buried and their wills are being fought over by Governments and families, Political Parties and by the affluent, because of no identifiable and authentic records in the system. As Freedom Giants, we must stand for the Freedom of the people by playing our part well to see to it that, there are proper checks in the society. We must ensure that the society lives in total Freedom through the regulation of people's actions. We must ensure that People's rights are not infringed upon. We must ensure that various systems are working efficiently to see to order and excellence, in the society.

4. **MEDIOCRITY**

People have been oppressed to walk in mediocrity and have passed the order of mediocrity from generation to generation and has made mediocre governances look normal and become accepted. People who try to break these imbalances and refine the systems are seen as evil ones. The Antagonists then do their possible best to bring down all those on the walk of opening up the spirit of Freedom. Some of these liberationists are murdered, burnt alive or imprisoned by the antagonists. A lot of people have walked in mediocrity all their lives that, they just do not understand the settings, when others are walking in Freedom. The systems have been manipulated. People are walking in various Injustices simply because of the various malfunctions which they were manipulated into walking to, by those actually out of living-democracies.

5. DISUNITY

Disunity has been a threat to the tranquility and order we as a people want as a Global Anatomy. People do not want to walk together as a people. People may be together but with various wicked motives with them. Wickedness has been seen amongst various associations in our Global Anatomy that people find it hard to walk together as a people again. People do not want to accept each other's decisions, no matter the quality and excellence it brings. In Political parties there are various factions that have arisen and are torn apart with other segregations amongst factions in political parties. These have led to divisions which have also brought various divisive philosophies in the public sphere, because of the loopholes that have been created by various admired Political Candidates, Celebrities and Social Activists, that we tend to admire.

HOW DOES INJUSTICES THRIVE IN THE GLOBAL ANATOMY?

Injustices just do not happen like that. They occur when certain people compromise laws and phenomena that serve as the process for the walk of decent living. We have come to a system whereby people live anyhow, walk anyhow and get their ends meet through dubious ways. The explanations below showcase how Injustices do thrive. Tribunals have been submerged which has kept the order of Good Governance under question till today.

1. JOINT VENTURES

When people are walking in mediocrity and acclimatise to it, they become alarmed by the reforms of Revolutionists about to take place, and as such join together with others as groups or teams in the quest to eschew Revolutionists who want to create a change in the society. They join together to look very formidable and stand to break all Revolutions that are in the quest to eschew mediocre practices and restore order and Excellence, back in the society. People with such minds even join their enemies, become at peace with their enemies, so they can team as one and become very formidable, to break down the status being used to fight mediocrity by Revolutionists. Revolutionists always remain Relentless to restore peace and order and as such do not necessarily have enemies since they always want to always to ensure in the whole arena, but people who are against these acts do whatever they can to bring down the grounds on which Revolutionists stand on, to bring a needful change. .

2. CORRUPTION

Injustices thrive when people manipulate the systems and hide behind it to work towards their own good, at the expense of their nation's receipts. A lot of people nowadays no more work in accordance with the mottos of their companies, institutions or place of work. They work totally different with respect to the manner and criterion at which things should take place, in their designated places of work. The systems have been so much corrupted that, corruption thrives under democratic Governments. Associations, Political Parties, Institutions, Commissions and Civil Societies. People are engaged in thefts of different kinds, cronyism and various corrupt acts. People stand together for corrupt courses that profit themselves and push for such policies to thrive so they become affected or get their shares from such policies. Most majorities under various administrative systems are now manipulated to push for corrupt practices for the benefit of their individual gains. We see favouritism in positioning people for various jobs, extortion of huge sums of money from funds designated for various projects under the Government or various Companies or Commissions. They defy the dignity of their workplaces and hold in bad esteem the name of their organisations, as representatives.

3. LACK OF ENDURANCE

Patience is one of the keys, very Freedom Giant needs on his or her journey towards ensuring a fruitful liberational process. People do not understand that they need to go through the process that ensures a successful Revolution. A lot of people do not wait or endure patiently to the end. People want to be given the chance immediately to do what they have to do. People as a result give up, give in or start to even allow themselves to become polluted by people, who dwell in mediocrity. Sometimes, liberations begin to act in contrast with their expected roles when they are not given the chance to express themselves. But as Freedom Giants, as our logo says, we must roar like lions, fight the battle and things will definitely fall in place for the victory, we want to see. Wee must learn to endure and stand the test of time. Wee must learn to continually persisting on, throughout to the end of time, even if no one helps us. We must be Relentless and endure to the end

4. LACK OF TRANSPARENCY

Injustices find their way out because the various administrative procedures, systems, the core roots in functioning and administration are all submerged. The clear ethics in our Political Anatomies have been submerged. There is always a defense for the recalcitrant acts, civil servants and people in Power cause to keep the systems in mediocrity. There have already been various defenses put in place to protect them when they go above the law, so there serves no criterion for the Freedom of the populace. The nations are run by a selected group of people, who are given the authority to decide the lives, people must live. There is a violent totalitarianist section where people submit under autonomous regimes. Our leaders live based on their own terms and not based on the vision set by Continental bodies and their constitutions. This is what is killing the Freedom, we have in our nations. Authoritative leaders have taken over the political systems and have been destroying the dignity of our nations. We as Freedom Giants must rise up, and lift the standards high, back again to her retired order, whereby policies and government interventions just don't come out of a boom, but governance is ruled practically on a democratic front.

5. DICTATORIAL SETTINGS

Injustices continue to thrive in the Global Anatomy because of the abuse of power by leaders all around the Global Anatomy. The dictatorial dispositions of most Political leaders has been a major cause which has kept people all around the world in a struggle for the liberation of their lives. Leaders who have been entrusted to secure Democratic Freedoms have rather become the pivots of authoritarianistic living in our societies, and this is what is creating disunity and stimulating fractions of Global Divisions, in the Global Anatomy. Leaders have decided to live anyhow and disregard the constitutional systems in their countries and are living based on their own terms. Leaders have disregarded the feelings of the people, their needs and are living by a set of practices that seek to sustain their immediate surroundings, and in particular their families. The end of Dictatorial leadership will bring to birth a Global Anatomy, surrounded by Tranquility, Unity in Leadership and equitable development in the Global Anatomy. We as Freedom Giants must rise up to the quest of changing the stories.

THE ALARM FOR RESPONSE BY FREEDOM GIANTS

The Global Anatomy has been surrounded with a lot of insurgent acts which has kept the world in disorder, chaos, social segregations and uneven political segregations. The state of disorder has become so abhorrent that even teens get up and become rebel fighters and/or they begin to hold violent demonstrations. The state of Injustices going on in the Global Anatomy is very dishonourable and must end as soon as possible.

In Ethiopia, the war between the Tigray Rebels and the Government of Ethiopia has been a very dishonourable one to the heart of Africa. About 500,000 people have died as a result of the fight between the Government and the Tigray Rebels. It is very disappointing to know of how various regions try to resolve their problems through massacres which lead innocent lives, losing their lives. The Tigray Rebels who began these abhorrent violences cannot bring back to life, all the lives that have passed away, as a result of their malpractices.

In Europe, families in Ukraine are becoming homeless day by day, as a result of the Invasion by the Russian forces, who want to claim Political territory of the geographical region, of Ukraine. At least 2,729 people have also lost their lives as a result of the fight for the Political Ruling, for Ukraine. The stance by which various nations take to actually express their worries is very humiliating and oppressive to the nations, they try to express their worries. Their acts are very demeaning and must end. Adolph Hitler's invasion of Poland led to the Second World War which also brought the extermination of about 6 million Jews from Europe.

We as Freedom Giants must never see or hear these insurgencies and take them for granted. We must act with urgency! We must respond now! **AFRICAN VOICES INTERNATIONAL** is calling on all sundry to rise up now! We must act now! A lot of human beings are falling sick, being displaced from their homes, dying from malnutrition, hunger, famine and wars. We need to

stand for such people and raise our voices for such adverse acts to end immediately. We need to sound an alarm for all sundry to be concerned with such threats, respond and collaborate to end all these treacherous acts. Every human being has a fundamental human right

Every human being is significant and has a brilliant life. We must pave the way for others to live their lives in sufficiency and be restored to the normal order and way of living their life. Everyone has something in him or her, that the Global Anatomy, needs. Let us stand up to the call of making the Global Anatomy, a peaceful Anatomy, where we can all live together in harmony, a restored sense of Peace and Order and Justice.

The quest for Political power is fought through wars mostly rather than on peaceful civil led-fronts. The way by which various some people go about their needs is very gruesome and must end. It is so insulting to the heart of Africa to have wars going on within our nations. Central African Republic had their share of this when territories in the country fought because of a misrepresentation in Peace treaties signed between them. Tensions have heated up for long between the Séléka and the Anti-Balaka rebels, and has continued for a space of about fifteen years which has led to at least a million people fleeing their homes and hundreds of people loosing their lives.

We must be able to work amongst ourselves in Peace at all times and stand tall for the Freedom of all. Conflicts unrealistically resolved lead to factions and segmentations and that is what

happened in Central African Republic, where the Anti Balaka controlled the South and West portions with the Anti Balaka controlling the North and East Regions of the country. Tensions continue even as President Faustin-Archange Touadéra has been in power, since 2016.

WHY IS THE AFRICAN TERRAIN EXPERIENCING MASS INJUSTICES EVEN POST INDEPENDENCE IN OUR COUNTRIES?

The African Anatomy is experiencing Mass Injustices currently. The systems have been weakened. Everyone stands against his or her fellow neighbour. We find people killing each other for purposes of money or capital, a position or a property. People are doing treacherous things just to keep themselves in a comfortable position. It is very saddening to see the way things are going on, in Africa.

Power has become a force which has kept people mad in their various countries. People do not mind to assassinate their fellow Political Party Members or others from the opposition so they can be elected into power in schools, through Regional Elections or General Elections. The search for power has revealed People's wickedness and thirst for evil. People become enemies with their best friends because of power. Because of Power, we begin to see mass killings, genocides and wars in our countries.

THE ONE AFRICA FREEDOM DIALOGUE; INJUSTICES REVEALED

A lot of Africans are so jealous of the victory of their friends or counterparts and will do whatever they can do, to either destroy or end their fellow friend's lives. A lot of people do not just understand why things should go on well for their fellow neighbours. They either want to be in the same shoes with their neighbours, be better off, be the one, others depend on or see their neighbours suffering. As a result they will do whatever they can to let the lives of their neighbours be in jeopardy even if they have the free democratic will to help their neighbours, freely.

A lot of Africans are not considerate and want to be praised and chosen at all times for all things, in their team or sector they belong to. They do not value the ability of others and will always want to see others walking and living in jeopardy. Their selfishness ruins Africa of her progression since talents are left to hang on the tree without they being plucked and eaten. Some Africans are arrogant and do not take apology for their wrongs. They always want to bring down others and see to it that they keep on rising. They always have an ulterior motive to something and that must be depleted.

The Mediocre Mindsets is killing Africans. Africans sometimes believe the best of their output should be on a mediocre level. As a result, they begin to hate on people, who walk in Excellence and try to drain them off, their power. A lot of parents during periods of colonisation, lived lives of Poverty for a long time, which affected their way of lives and have trained their children to also just live normal lives. The truth is that we can live very superb lives, if we believe in ourselves.

Most Africans are unprofessional in their field of work. You may find people with all the degrees in their work but still behaving unprofessionally, in their work. We see the Police cheating, bullying citizens, leaders in power being corrupt, people going to work late, being un hospitable to their customers, and going about their services anyhow. These are what revolts people to bring forth demonstrations , violent protests and engage in killings which bring forth massive conflicts between the Government and Citizens, various ethnicities and amongst countries.

We must be very constructive in all our dealings. Our Social Relationships must be guided with professionalism. In the Business Anatomy, at work, at home and in all facets of our social lives, we must work professionally at all times, and be on guard. This is how we can stay true to the course of promoting Democratic and Political Freedom not only in Africa, but the Global Anatomy.

THE IMBALANCES

In the Global Anatomy with the diverse kinds of professions we have, there is supposed to be a linkage amongst ourselves where by everyone performs certain roles to help the society one way or the other. Unfortunately, people now use their positions nowadays to feel superior and abuse others at the expense of their Freedom.

In our Social Settings, people are now able to express themselves freely based on their Social Class or profession. The higher the remuneration of a person, the more competent and bold,

someone feels to express his or herself. The Global Anatomy is filled with so much Injustices that is rigging the world of her Freedom. The more connections people have, the more they feel enthused to even engage in corrupt acts, since they know they will be defended by the connections, they have.

In Legal cases, conflicts, quarrels or disputes, people are able to talk more even if they have no case, simply because they are well endowed in the society. There is a Social misfit in the society and this is where those with good cases but less financially accountable, do not have the right to speak. As a result, the poor or unpopular are oppressed and suppressed of their rights.

THE REALISTIC STORY

The Revolution we as Freedom Giants must see, may be nascent but we have to be radical, stand firm and be focused towards transforming the continents of the world. The Global Anatomy is filled with so much imbalances in every sector of governance, as a result of the injustices that have accrued in the system. It is up to us, to stand tall, fight for our rights and be Relentless to achieve this pursuit.

Giving a scenario in our various social settings but which have relative occurrences everyday in our societies, we begin with the Health Sector. A patient may be taken to the hospital to be treated and may require an operation. That is when we begin to see “where power lies.” Some Doctors now begin to cheat on their clients, charge inordinate sums of money, since they may be the preferred health experts within their region. Even at the Hospitals, Head Doctors may decide to come to work anytime they want, and decide which patient, they want to serve. Whilst certain patients may have come early in the morning to wait in a queue, we see a Doctor come late, and pick his relative or preferred client somewhere at the back of the line or queue to come in to be attended at his or her office. Patients do not have anything to say, because if they speak, they will not be treated with quality care in their offices. This happens everywhere at customer service receptions and in most institutions and especially, Governmental Organisations and Public Enterprises.

THE ONE AFRICA FREEDOM DIALOGUE; INJUSTICES REVEALED

We often find the Police when found guilty offences, given preferential sanctions from their mainstreams whilst the populace are treated very harshly with extreme sanctions for meagre offences, and even abused sometimes. The police are found taking money from drivers and engaging in feuds and sending them to the Police Stations only to unlawfully arrest them and engage in corruption at the end. The populace or normal citizen are or is treated preferentially and abused even if they are right. The rate off partiality in Justice has become a realistic scene in our current settings and this is killing the operative integrity of the Rule of Law in our nations.

We find Bus mates particularly in Africa charging different transport fares each day when fuel prices increase. They decide to charge different and higher prices from the new fixed prices brought forth by their Transport Unions. And well, what can customers do? They have no say, because the moment customers or passengers begin to bargain with the Bus Mates on the prices, they can be asked to get down from the buses, since there are others who are willing to pay the fares. We find different bus mates who go on the same journey charging different process for the same routes through to a parricular journey or destination. People manipulate the settings and bring forth economic hardships to citizens in the country.

The systems have been weakened. The Laws have been manipulated and everybody just finds his or her way, doing dubious things. As Freedom Giants, we need to stand tall always, when we see the wrong things going on. We need to fight for the Rule of Law to prevail. We must be each other's keeper. We must fight for freedom and Justice but if this is to prevail, then we must roar like lions and fight for our rights. We are Pacesetters and Pioneers of change. Let us realistically make it happen, Freedom Giants.

CHANGING THE STORY AS FREEDOM GIANTS

As Freedom Giants, there are a lot we can do to curb all the Injustices we see in our nations. There are a lot of measures we can take to end all these menaces. Once we put all these in place, the structural implemented settings will work for its own self, to ensure drastic accountability on all sides, for the Order we want to see in our nations. As Freedom Giants, we must stand tall and work to see that all forms of oppressions are eliminated from our societies.

1. ENSURING CONTINUOUS DISCIPLINE

Freedom Giants must ensure the practice of Discipline wherever they are. Freedom Giants must stick to the various codes, ethics, rules and regulations as well as right manners and etiquettes that are in accordance with the society, company, institution, organisation, workplace, gathering or nation they belong to. Freedom Giants must not create their own settings but ensure to live excellently by the democratically instituted set of doctrines, to live by in our settings. Both leaders, heads, executives, workers and subordinates must all comply to these terms, for the effective functioning of the vision. When we ensure continuous disciplinary standards, we are so formidable enough to stand against all foreign tendencies meant to one way or the other destroy the formidity of our nations. This is how we all can eschew various forms of manipulations intended to keep our societies underdeveloped, because of the adverse acts of others.

2. SACRIFICE

We must be able to sacrifice our lives for the course of Freedom at all times. That is how the Global Anatomy can be revolutionised. When we are straightforward about what we want, we will not be on and off, but be totally strong, for what we want. Solomon Mahlangu of South Africa stood in as a strong and Relentless soldier for his country and even to his death, these were his last words - "My blood will nourish the tree that will bear the fruits of freedom. Tell my

people that I love them. They must continue the fight.” We must be wholly strong about our ambitions right from the beginning and stand in for what we want.

3. LOVE

Martin Luther King once said love is the only means capable of transforming an enemy into a friend. We can only transform people through Love, and not through backbiting at them, gossiping, mocking them or speaking against them. We must be able to show everyone Love at all times not because we like what they may be doing, but to ignite their conscience into the right thing. Love prevents wars, conflicts and all forms of Injustices in our communities. Let us

raise our hands up and show others that indeed we are made of Love. Let us stay united as a people rather than tear ourselves, apart. Together as a people, the Global Anatomy can live in peace. Let us make it happen.

4. PROMOTING ORDER

Our goal as Freedom Giants must be to ensure order everywhere we are. As Pacesetters, we must always direct people to the course, they are supposed to play. We may not see Policemen, Doctors, Teachers, Civil Servants or whoever playing their roles professionally. As Freedom Giants, we must blow the whistle when we see wrong things going on. We must raise our voices. We must help where necessary by volunteering, or assisting in projects that help bequeath the course of Freedom, as Freedom Giants. There may be no traffic lights directing pedestrians on the way, and an old man or woman may need help. We must come in and play our roles. As Freedom Giants, we must stand tall at all times, and play our roles, wisely. Let us stand tall and work through our entire course of time in excellence, promoting and ensuring order.

5. INDIVIDUAL FOCUS

THE ONE AFRICA FREEDOM DIALOGUE; INJUSTICES REVEALED

We as Freedom Giants must be individually focused towards fulfilling our assignments. When we realise the anatomy is not walking in unity, we must show the pacesetting role by walking unitedly with others. We must play our role no matter the behaviour of our own mates. We must be self-determined towards the journey. We must be faithful to ourselves as Freedom Giants

towards the journey. We must stand tall at all times and keep on walking tall, if no one is even standing tall. We must be able to lift others up, in the course of the journey if they are weak or down. We must on our own set the pace at all times, by working proactively and working extraordinarily.

THE NEED FOR CHANGE

Factions of the world are underdeveloped even in certain towns and areas in Developed countries, because of the unjust acts which have become a part of certain leaders in the Global Anatomy. The systems have been weakened and people have taken advantage to cripple Democratic Development for their Individual Prosperity.

People are dying, living in hunger, suffering from various illnesses, facing all kinds of problems because the Institutions have taken their onuses to be a game and not an assignment to please God. People are sitting lavishly at their workplaces enjoying all luxuriant services provided them by their companies whilst the seven year old child just beside their workplace is suffering and on the verge of death.

The affluent continue to see various sufferings and decide to help others provided their names will be put on various billboards as the carriers of the assignment. People want to be worshipped for helping their fellow humans. People want to rather get the names and not actually, be a help unto others. The hierarchy of leadership which is supposed to serve as a urgent drive from the top, to work indefatigably without any terms has been nullified. Heads and CEOs of companies have their own times they go to work. Some do not even go to work for months and expect their responsibilities to be ongoing effectively.

THE ONE AFRICA FREEDOM DIALOGUE; INJUSTICES REVEALED

Leadership Management all across the world is very poor. Leaders no more serve but want to be served. Leaders see themselves as the focus of attention and will do whatever they can do to disregard the systems. Workers also pretentiously act as viably strategic workers but in reality, are dubious perpetrators and agents manipulating the vision of their companies and behind schemes to bring the prosperity of their company to a null.

We as Freedom Giants must rise up. We must ensure that the needed changes that Governments, Commissions and Boards are brought in to provide as their service to the people are fulfilled. We must ensure that leaders come in to work wholly for their nations, and not to serve their own purposes. As a result, we as Freedom Giants must stand in to secure the rights of the populace. We must be productive in all we do our own selves, to see to the needed change, the Global Anatomy needs. We must work towards the change. The **GLOBAL FREEDOM BOARD** of **AFRICAN VOICES INTERNATIONAL** wants everyone Freedom Giant to know that nothing can stop us from maintaining our set principles and achieving our goals, if we remain Relentless. We must be Relentless towards our goals and wholeheartedly work to bring a Global Anatomy, where we all live in peace and in order regardless of the storms thrown against us, in any part of the world, at any time in the world. We must live as a Global Anatomy committed to walking in Discipline, Love, Promoting Order and Sacrificing our hearts and lives all the time for the goal. That is how the change can work. Let us revolutionize the Global Anatomy. Let us transform the Global Anatomy. Let us make it happen. Let us make it work.

THE JUSTICE COMMISSION OF REJUVENATED FREEDOM GIANTS

THE ONE AFRICA FREEDOM DIALOGUE; INJUSTICES REVEALED

As Freedom Giants, we must make things work again. We must not allow inordinate acts to take its course. We must pursue the course of Freedom, with a difference. We must ensure that the rights of our fellow Human Beings, are not encroached upon. We must stand tall at all times, and see to the change, we need to see for all.

As Freedom Giants, we must be provoked to do more whenever we see various inordinate acts going on. We must be provoked to liberate others, fight for the rights of others and defend the Sovereignty of our National Anatomies. We must never wait or make things get worse before we act. No! We must act urgently and never be afraid of the antagonists. We must be inspired to work more, do more and change the settings, wherever there is oppression.

We must stand tall and ensure that the Independence of our National Anatomies are well secured in every nook and cranny of our nations. We must never linger. We must move mightily in the quest to end all struggles, people go through. We must keep on going, even if there is no one to support us. We must remain relentless.

We must even push more when no one stands with our course. The Freedom we seek for, is real and until we find it, our nations will be locked economically and mentally. We need to break the chains, and every act towards breaking the chains counts. We must not waste time. Wherever you are, rise up. There is an onus on your head for you to carry and liberate others from the chains. Rise up. Live freely, because you are the solution to the problems of the Global Anatomy.

We must not dare go back or retrogress in spirit and in passion for the quest as Freedom Giants, to birth liberations in the Global Anatomy. We can only develop more passion as Freedom Giants. We are born conquerors and we must push and press on. We must not remain still. We must push like a pregnant woman bringing forth her baby. We must push forth till we give birth. And when we give birth to the change we need, that is not all. We must nurture the change till it becomes matured and also gives birth to mightier nations that grow much more formidable and Relentless. We can do it. Let us do it for we are the Pacesetters for the future we want. Let us make it happen. Let us revolutionize the Global Anatomy. Let us transform the Global Anatomy. Let us change the Global Anatomy. Let us end all injustices. Let us make it happen.

Post **THE ONE AFRICA FREEDOM DIALOGUE** on **INJUSTICES REVEALED**, **THE GLOBAL FREEDOM BOARD** of **AFRICAN VOICES INTERNATIONAL** has brought in the **INJUSTICES ACT 2.0** which stands tall to defend the guaranteeing, of every individual's Human Rights. **AFRICAN VOICES INTERNATIONAL** corresponds with Article 3 of Universal Declaration of Human Rights by The United Nations which states that, "Everyone has the right to life, liberty and security of person." **AFRICAN VOICES INTERNATIONAL** also corresponds with their 5th Article which states that, "No one shall be subjected to torture or to cruel, inhuman or degrading treatment or punishment." **AFRICAN VOICES INTERNATIONAL** also corresponds with all the Articles enshrined in the Universal Declaration of Human Rights.

THE ONE AFRICA FREEDOM DIALOGUE; INJUSTICES REVEALED

It is in this light, that we have also documented this treaty for all Freedom Giants and all sundry in the Global Anatomy to sign, to raise awareness on the need for a conducive Global Environment where Democratic Freedom thrives in the Political, Economic and Social spheres of our Nations.

We believe that this appeal will serve as a conscientious amendment to eschew all barbaric practices that go on in our societies which degrade human beings, of their worth and dignity as Human Beings of such valuable stature.

Below are the treaties in this Appeal.

SEEK FOR JUSTICE IN EVERY MATTER

AFRICAN VOICES INTERNATIONAL entreats all Freedom Giants to stand for Justice for culprits who demean and devalue the law, by oppressing others. No matter what, we must not allow such related matters to must pass by. We must stand through to see to the right tenets being implemented for the credible verdict, that must be meted out. We must be voracious about seeking for Credible Justices on all fronts.

SEEK THE TRUTH IN EVERY MATTER

We entreat all Freedom Giants who have knowledge of various crimes, murders or insolent acts to reveal the truths at all times for the Freedom of people who have been oppressed and for the Dignity of the States, we live in. This will serve as a signal to encourage others to join and also a deterrent, to prevent people from committing any treacherous act.

STAND FOR THE RIGHT TO FAIR TRIAL/HEARING

We entreat all Freedom Giants to be Relentless enough to push for fair hearings by tribunals under our Governments. We must push for fair adjudications of disputes, fair hearings by unbiased and neutral tribunals, where parties can be heard and allowed to freely express their views on allegations charged against them and/or freely speak of misconducts by the other party. We must stand for Freedom of Expression by both Petitioners and Defendants in any Legal case.

REPORT EVERY MYSTERIOUS ACT

We entreat every Freedom Giant to report every act that looks mysterious. It may be a lifeless body lying somewhere, someone being kidnapped, someone engaging in extra marital affairs or any dubious act that hinders the dignity of our society. Someone may be suffering somewhere but may not have the energy to stand tall to seek for Justice. We as Freedom Giants must be able to help all, to cross the road of oppression to the Road which is Liberation.

REPORT EVERY CORRUPT ACT

We as Freedom Giants must report every act of corruption we see going on at our work places, institutions or organisations, for the Freedom we want to visibly see happening in our societies.

THE ONE AFRICA FREEDOM DIALOGUE; INJUSTICES REVEALED

We must see to it that things are going on well and transient with fairness, quality judgement and/or service.

REPORT EVERY INSURGENCY

We must report every insurgency we see coming out. It may be an unlawful demonstration, a violent demonstration, mass violence, scamming, frauding, rape or sexual abuse or harassment, child abduction or any treacherous act of its kind. A lot of people are being humiliated and until we come in for them, they may continue that way, till they die. We must be the Pacesetters for Freedom at all times.

REPORT EVERY CRIME

We must report every crime we see being committed against the State, a Company or any Organisation. The crime may be an organised crime, bribery, assault or embezzlement. Whatever it is, we must report it. We must see to it that dispositions that seek to trample on people's rights are eschewed. We must work for the people at all times.

SPEAK OUT LOUD

We must raise our voices aloud at all times as Freedom Giants. The Constitutional Rule of Laws in our countries must forever be protected for the promotion of Democratic Freedoms in our countries. Sometimes, agencies like the Police or the Court their ownelves if seen behaving unlawfully, must be regulated for them to remain Nationalistic. In light of this, we must always speak out loud, when the various Institutions are not performing excellently. We must remain Relentless and exercise our Freedom of speech till Justice prevails.

As Freedom Giants we must always stand for Human Dignity at all times and ensure that everyone at every Geographical location, is being treated fairly and respected without any bias. We as Freedom Giants must stand tall at all times, and remain Relentless, to reveal the Injustices in our societies at all times. The negative tendencies of people will cease permanently, when we raise our voices loudly and radically stand for Democratic and Political Freedom on our lands. Join **THE JUSTICE COMMISSION OF REJUVENATED FREEDOM GIANTS** as we sign this appeal to promote Democratic Justice, everywhere. Let us make it happen. AFRICAN VOICES INTERNATIONAL, FREEDOM IN AFRICA

MESSAGE FROM THE GLOBAL PRESIDENT OF GLOBAL AFRICAN VOICES INTERNATIONAL

A lot of people nowadays just fall prey to the various negative influences in our societies and acclimatise to it. They acclimatise to it because they will also be able to fetch some receipts or walk in comfort from and in adjusting to the systems. We as Freedom Giants must remain Relentless. There is an abundance of Resurgence, Restoration, and a Renaissance for us, if we walk as Relentless Freedom Giants. We must never accommodate mediocrity, but stay true as Relentless Freedom Giants to the end of time, and we shall walk in endless Freedom.

Let us continue to stand tall and fight for our rights. Let us revolutionize the Global Anatomy. Let us not keep our mouths shut! Let us sacrifice our lives for the Freedom of the people. Let us fight for the liberty of the people, because in that lies our Freedom. Let us transform the Global Anatomy. Let us make it happen, for we are the Pacesetters, Game Changers and the Revolutionists of the Global Anatomy.

Freedom!
Liberté
