REPORT ON THE ONE AFRICA DIALOGUE

The **ONE AFRICA FREEDOM DIALOGUE** under the topic. **ENSURING NEUTRALITY IN ELECTIONS, FOR A CREDIBLE POLITICAL ANATOMY**, was a Virtual forum held on Zoom, with Freedom Giants and other Pan-Africanists, on the 14TH of November, 2020. **THE ONE AFRICA FREEDOM DIALOGUE** was a comprehensive Dialogue which expounded on the importance of the populace being assertively confident to stand for their nations, at all times without any mark of compromise, In the decisions and actions they take regarding their countries.

The Global Anatomy as a whole has been infiltrated with Corruption, Nepotism, Bribery, Dictatorship and Violence in the Leadership of various countries. The populace have also been made to be silent about taking responsive steps, to safeguard the integrity of their nations, and this has sabotaged the Integrity of our african nations. All our Political Leaders have become irresponsible to their core mandates of providing Freedom, to the people. All our leaders have become unconcerned about their major priorities in Governance and have all joined together to intentionally mishandle the affairs of the world. Yearly, there are influxes of unlawful practices, imputed in each country, and this has resulted in a Global Anatomy of increased Political Bigotry, Increased discrimination, Increased corruption, violence, increased rates of youthful exuberance, increased deaths, increased recessions and economic breakdowns. The Global Anatomy must rise up. This is the time for change!

We must not condone Mediocrity, in Governance. We must ensure Excellence in the administration of our laws for Good Governance all across our Political Anatomies globally. We must not favour any individual, whose beliefs are superior to the Just and Fair Laws of our Constitutions. We must ensure maximum probity for our laws. We must ensure that the laws of our states are fully adhered to. We must ensure that no breed of people become the laws of our world, through which we use as a reflection, to live our lives. Anyone can falter, and this is why the laws of our land must be the finest framework, through which we look upon to live our daily lives. The world can thrive when we are neutral, and respect ourselves so as not to be manipulated by some people in the upper class, who seek to take advantage of the middle class and the lower class or the lower class who will want to stay lazy, but want to be gain empathy, and be promoted and cause mayhem in the development of our nations. Let us rise up. Let us transform the world. This is what **AFRICAN VOICES INTERNATIONAL** calls for. We fight for change around the world. Yes, that is what we want. We want everyone to be perfect, and yes, everyone can be. We want this generation to be the pacesetters of change for the next centuries to come. Yes, we can do it and let us do it.

THE TOPICS RAISED UNDER THE CONFERENCE ARE WRITTEN AND EXPOUNDED BELOW.

- **CONCEPT OF NEUTRALITY IN A POLITICAL ANATOMY**

- **IMPORTANCE OF BEING NEUTRAL IN A POLITICAL ANATOMY**
- **FEATURES OF A THRIVING GOOD GOVERNMENT**
- **REFLECTIONS OF NEUTRALITY IN ELECTIONS, AS AN AFTERMATH OF A FEATURE IN GOOD GOVERNANCE.**

CONCEPT OF NEUTRALITY IN A POLITICAL ANATOMY

The concept of Neutrality all goes down to the fact that, no individual or institution is supposed to add a second or third definition to the laws, codes and etiquettes governing a Political Anatomy. Neutrality expounds the simple factor of paying full cognizance to the well defined values, defined by any anatomy in Government or under the Government, which in itself, is self-accountable to the entire nation and government of a country.

AFRICAN VOICES INTERNATIONAL insists on every arm and sector of a country, to have her workers, labourers or civil servants working strictly according to the laws and codes, set by the organisation, under which they operate, and not to be imperfect in any stand, they take.

AFRICAN VOICES INTERNATIONAL believes in excellence, and recommends all people to forgo any act of partial dispositions, discriminative actions or corrupt activities, in dealing with the administration and governance, of any structured legal institution or company.

CONCEPT OF NEUTRALITY IN ELECTIONS

The concept of neutrality is geared towards sustaining the course of Nationalism, throughout the whole Political Anatomy, everywhere and at every time. This philosophy goes down to nullifying all actions that center on kleptocracy, dictatorship, chauvinism, prejudice, discrimination and Political Bigotry. It is geared towards focusing on the need to promote wholesome development, in the country and not for a particular fraternity or sector of people, in a country.

People have been manipulated to campaign and vote for a particular political candidate, based on their blood relations, “temporal benefits”, and corrupt gains they may benefit from such Political candidates. **AFRICAN VOICES INTERNATIONAL** entreats all citizens to be concerned with the development of the nation as a whole, and not condone any segregational treatment or treatments of prejudice, by our leaders, which may affect various subjects on board, but are rather prejudicial to our states in Africa.

AFRICAN VOICES INTERNATIONAL entreats all citizens to think through the choices they make during elections, take matured decisions as they vote, to make their political anatomies prosper

in the long run, for posterity to live healthily, economically sound, luxuriantly and in peace without any disturbances, in their way and quality of living, Post Government-Elect.

IMPORTANCE OF BEING NEUTRAL IN A POLITICAL ANATOMY

1. IT BUILDS AND SUSTAINS WELL ORDERED GOVERNMENTS

Elections are a critical factor that determines the country's growth for a duration. Which ever political parties are elected to run their governments will determine the fate of the country. If the Government within the specific time, runs the country badly, it will in turn have adverse economic impacts on the nation, which will affect the future of the nation. It is very quintessential for all citizens of their various respective countries, to be neutral in national discourses, national issues, elections and all kinds of events concerned with nation building. The essence of neutrality is very quintessential in any Political Anatomy, that wants to operate in a fair and just manner. This is because whenever citizens are neutral, they vote based on whom they deem it fit, to handle the affairs of their country, at a particular time. Their vote is then based on the nation's welfare, and not on the welfare of a political candidate who wants to see to the wellbeing of his or her family alone. Neutrality provides a system of equality for all, and sees to the building of a harmonious and democratic government, where no one is left in the development agenda, of a country.

2. IT SERVES AS A CANKER AGAINST CORRUPT PRACTICES, IN A COUNTRY

Citizens who live by the Neutral School of thought imbibe self discipline, which manifests in their daily dispositions. Such people will not in any way harbour corruption anywhere or any recalcitrant practices, and will speak and act against all of such behaviours, in their country. There is the utmost essence of being neutral at every point in time, and in every setting of governance, for the right functioning of the various administrative bodies, we have in our political anatomies. The Quality in the functioning of our various state bodies, all depends on how neutral, all public sector as well as private sector workers and all citizenry, manage and administer their structures. Institutions that do not go by requisite and well ordered set of rules, codes and etiquettes in the administration of their services, lead to the prejudicial governing of the state. On the other hand, when an entire country decides to operate in a just and well ordered manner, towards the development of the country, to which they belong to, no one can take the laws into their own hands and manipulate the well ordered structures of their countries.

3. IT ENCOURAGES YOUNG ONES WITH OPTIMISTIC MINDS TO DO MORE

A lot of growing stars are in our continent, who want to take great strides and make an impact, in our nations. However they have decided to be mute because of the corrupt and wicked lifestyles of several leaders around the world, who will not like to see the emergence of young and upcoming leaders, rise. Such leaders will see to it that, their schools of thought override the set orders, we have in our days. Africa is rising and there's no way we can continue to be stuck

where we are. We have to also bring in, new minds who can also bring in their innovations and bring their minds on board, to change the settings of the various industries , we have in our Political anatomies. In view of this, we need leaders who can be able to adhere to the laws in our various countries and succumb to being neutral, regardless of the pressures they may face, from anywhere. We need leaders who will not succumb to ideas from leaders who want to make profit from their country's accounts and cheat on their nations. We need leaders who can be fair and see to the welfare of all, respectively without being bias. We need leaders who will not bring in unqualified and inexperienced people into certain offices, because of the position they carry, but will be nationalistic and allow the right young ones, in particular to be at the right place, at the right time. It is high time, we are neutral during elections to encourage young ones to put in efforts that will also bless Africa.

4. IT BRINGS RESPECT TO NATIONS AND SAFEGUARDS THE INTEGRITY OF THEIR INSTITUTIONS.

The Neutrality factor brings Freedom to the populace. Neutral voters bring respect to their nations, because they protect their country's administration from acts of treason and corruption. Whenever everyone decides to abide by the laws and tenets, and are perfectly accountable to the state, it allows for the right people to handle the affairs of a nation, since the right people are voted into power, which brings peace and stability into the nation. The right minds are able to handle a nation's resources properly which leads to gainful harvests at the end of every fiscal year for a nation. There are surplus receipts and abundance of revenues, which allows for a nation's needs to be met, to see the sufficiency of the people, in a nation. This always sustains countries' growth, and protects their integrity from being exploited. As a result, international leaders can always decide to play a supportive part in the development of their nations.

5. IT PROMOTES ORDER AND ACCOUNTABILITY OF ALL GOVERNMENTS, IN A POLITICAL ANATOMY.

Whenever, we are neutral during elections, there is a revolution which takes away autocratic leaders and voices, and smoothens the Political System, with the freedom they need. This brings to the Political Anatomy, the freedom they need, for the liberation of their people. A Political Anatomy cannot adhere to the rule of law, where the leaders themselves, are not people of character. It takes character to change a setting, and that's why all leaders must succumb to promoting the dignity of their political anatomies, through being neutral. When we are phenomenally neutral, we will never feel agitated to be accountable to the nation. This is because there will always be a cause to promote good and quality development in our nations, which will encourage others to do better and be proud of their nations.

FEATURES OF A THRIVING GOOD GOVERNMENT

1. INSTILLED SENSE OF PATRIOTISM

A good Government will always instil in the hearts of her citizens, the need for patriotism. This is because the heart of the nation, will always be expressed by the leaders, which will reflect in the populace or the citizens, making them an expressed self image in the global anatomy. A thriving good leadership will always have the support and accolade of the citizenry at heart, who will cheer the Government and take pride in the progress of their nations, to all the ends of the earth. This will attract foreign investors, tourists and interested foreigners to troop in to the country for abode, business investment and for sight seeing as a result of the good atmosphere and good sense of governance, thriving in the nation. No one wants to be in a war torn country or in any country with autocratic leaders. Everyone wants to feel secure and be in a nation, where their future is at heart. As a result, a thriving good government will instil a higher accolade from citizens and the populace, in the entire global anatomy, as a result of the freedom, they need.

2. PRESENCE OF RULE OF LAW

A thriving good government always has the rule of law as a quintessential factor domineering over her activities. A thriving Government will never have her leaders or the President of the country being superior, to the laws of their Political Anatomy. They all fall subject to the laws in the country. Through this, there will be effective projects since the discipline and order will ensure that people do not joke with the positions given them. They will work hard and in live compliance with the laws , given by a country. This is how countries can sustain their growths and resists despotic governments. A sitting President who loses an election will accept defeat and ensure that the freedom of the people manifests through their voices. This always projects unity and peace, and prevents distasteful acts from taking place, in any society of a country.

3. ACCOUNTABILITY

Accountability brings order in a nation and ensures that no one overrides the laws in a Political Anatomy. This is because the periodic process of providing records and leaders providing validations or certifying their outputs, will always shape the identity of the country, to enable the country have and work with neutral citizens who can be influential towards the development of their countries. When accountability takes its course, phenomenal strides are always set in the nation, and the mark leaders have made, will deter people, from being cruel and wicked in their services and operations. It will later promote a constructive competition in the entire Political Anatomy, for all civil servants and workers of a country, to do more, so as not to be picked out from their positions. Neutrality provides the atmosphere of being accountable to each other, which has a way of ensuring freedom in people's minds. It creates the energy in people to be able to invest positively in others, since they know their efforts will always be laid accountable of, in relation to their good will.

4. PRESENCE OF A SENSE OF FREEDOM

Neutral voters promote the course of Freedom, in their countries. Neutrality provides Freedom, through the presence of Equitability and Inclusiveness. When neutral voters take their right stand in elections, it creates freedom through the Government which ensures that people are self-sufficient and do not go about being a nuisance to their state. Everyone feels at home, since they are included in a nation's national agenda. This prevents a region of a nation from feeling superior over the other, and looking down upon their fellow citizens, since there are no prejudicial sentiments. The region where the capital city of a country, is located, does not even become arrogant because the nation's resources are distributed equitably amongst all her regions. It now depends on how much output the natives from such regions are able to use such resources, to benefit their people. As a result, there is Freedom everywhere, since people feel at home, everywhere and live without a need of a resource from whomever or the Government.

5. AVOIDANCE OF CORRUPTION

Corruption never prevails in a country with a thriving good government. This is because every civil servant, public and private sector worker will be a security in his or her own workplace. No one will tolerate corruption wherever he or she is. There will always be sanctity in governance and in the societies of every nation, since the Government is neutral and are working purposely for the Freedom of their countries. People will not work against people just to harm their image, because they are in a different political party or not on their side. Rather, everyone will bring in his or her quota to democratically make their countries a better one, and build a solid foundation for a progressive growth for posterity.

REFLECTIONS OF NEUTRALITY IN ELECTIONS, AS AN AFTERMATH OF A FEATURE IN GOOD GOVERNANCE.

1. SOUND MANAGEMENT OF A NATION'S POLITICAL ANATOMY

Every country that has her citizens being neutral and not being chauvinistic during elections, but voting only for the welfare of their nation, will lead to the country being led responsibly and efficiently for the democratic gain of the country. This is because, citizens will not vote based on familiar and family relationships but for qualified candidates with the expertise to lead the Political Anatomy, for a period of time. Every Political Party is essential and significant but there are always a calibre of politicians who are right to lead a particular political anatomy, at a point in time, based on their political ideologies, in relation to the state of the country, at the point in time. As a result, voting for someone without a fair reason will lead to the deterioration of the country's economy and hence the collapse of the economy. We

must always vote for the nation and not for people. This can be done through looking from a neutral perspective, and looking from a neutral perspective, will ensure that competent people are chosen and this will breed fairness through the elected government's management. Through this, there will be freedom, because the vote count will truly reflect, the heart of the populace.

2. GOOD LIVELIHOOD OF CITIZENS IN THE CCOUNTRY

There comes always a time of Freedom, when the right people are elected to steer the affairs of a country. This is because, the Government of the country will not be wicked leaders, but will govern the country, to see to the Freedom of the human populace. Not only will the Party in Governance experience good livelihood, but the entire nation will experience a resounding treatment from the Government. This is why citizens must be very conscientious and be always neutral, so as to take prudent decisions on whom to vote for as the President-Elect of a country. We need to always be concise on choosing Nationalistic and Visioned leaders who are there, to transform their nations and the continent, and not amass the wealth of the nation, for themselves.

3. SOUND ECONOMIC DEVELOPMENT

Whenever Citizens vote from a neutral point of view, they bring forth elected representatives who govern the country, without jeopardising the image of the country, but harnessing economic growth in the nation. These elected representatives do not come to power to sell the nation's wealth into foreigners but rather ensure that every individual is able to live a gainful and meaningful life, that will secure the financial future of their families and generations to come. As a result of the sound and economic development led by the leaders of the nation, it creates the solid foundation for every individual to be able economically stable, which eschews poverty in the society.

4. EQUITABLE INVESTMENT BY THE GOVERNMENT

A country that has neutral citizens will experience advancement in economic development, in every nook and cranny of their country. This is because neutral citizens always campaign and fight for the Freedom of the nation as a whole. As a result, elected leaders will always ensure that every area in the Political Anatomy, of a country is included with veracity, in the building of the country. Both the Majority and Minority section of parliament, urban and rural areas, under aged or aged, educated or uneducated, working class or non working class and affluent and non affluent citizens of a country, are all eligible citizens of a country and must have a share of the Government's quota towards building her people. A neutral people will always produce a neutral Government that will always ensure an all round share of the Government's development plan, in all sectors and geographical areas of the country's Political Anatomy.

5. HUMAN SURVIVAL

In a country where all the citizens are neutral, the citizens will be able to survive every challenging or horrifying moment they ever pass through. This is because there will always be various avenues in the Political Anatomy, in times of emergency for citizens in need to seek aid without being neglected or going through terrifying moments throughout the rest of their lives. They will be able to escape all moments of trials and various disturbances that may come their way. There will be equity in National Development for all. No category of people will be found wanting. There will always be human sufficiency for all. There will be even abodes for refugees within the Political Boundaries of Neutral Governments which will create a sense of freedom for such people. People will be able to live in harmony and live in peace the rest of their lives.

WORD FROM PRESIDENT ISAAC KWABENA BOADU; PRESIDENT OF AFRICAN VOICES INTERNATIONAL

The world in which we live in is filled with diversities of cultures, upbringings and dispositions which bring variations in the actions of people, in the Global Anatomy. As a result, we need various structures set, that define the appropriate, thus legal ways of doing things. These legal ways must be able to protect the majority from the minority, and the minority as well from the majority. These legal actions should also be able to protect the young from the adult and the adult also from the young. They should also be able to protect the working class from the non working class and the voiceless from the majority. They should be able to promote equity in development, in both the rural and urban areas.

The populace must also be able to decipher between the good and bad decisions taken by the Government and take prudent decisions that affect the wholesome development of an entire Political Anatomy. This is how our african nations can grow. This is how each and every single individual can be effective. This is why we call for people to be neutral citizens and vote wisely during elections, at each course of time, for permanent and effective delivery of nationalistic services by the Government-Elect, chosen by the people.

Let us raise our voices high. Let us resolve all pondering issues amicably and not fight against our own people whom, we call fellow africans. Let us have the nation at heart and fight for the freedom, of our nations at all times. Let us work tirelessly to see that no one within and out of our geographical terrain, , infringes or limits the Freedom, we have as a people. Yes, we can. It starts from us. Let us be neutral citizens.

AFRICAN VOICES INTERNATIONAL is elated to see an increase in the formidity of neutral citizens of Africa, who are concerned with the Freedom of their countries and not the promotion of various political divisions which create enmity, hatred and bigotry in the political terrain. I call om all sundry to be stand up and ensure they are neutral citizens, wherever they are, and in every course and line of action concerned with nation building, for the effective and standing

progression of our countries, in the long run. Together as one, the continent shall be transformed. Let us always hear your voice, in the continent. Make an impact. Transform the continent. Be a front liner. Revolutionize Africa. Make it happen.
