THE ONE AFRICA FREEDOM DIALOGUE
REPORT ON TERRAFORMING THE FUTURE

The New Africa that everyone must set their feet on must be terraformed. We have to create a New Africa, full of endless possibilities. We have to build and set the grounds for the changes we so desire. No one is going to do it for us. This Revolution must be done by we ourselves. **AFRICAN VOICES INTERNATIONAL** held **THE ONE AFRICA FREEDOM DIALOGUE** on Saturday 24th July, 2021, on the topic, **TERRAFORMING THE FUTURE**, to sensitize Freedom Giants on the

AFRICAN VOICES INTERNATIONAL, FREEDOM IN AFRICA.

need for them to proactively take hold of the future, and create the future, they want for Africa.

Our past leaders have created a path, that has led to the Africa we see now. They have built a foundation. They have set the standards for the Democratic Growth, the Global Anatomy needs. It is now up to us, particularly as Freedom Giants, to build on that foundation, redirect new pathways, in the errors they made and create the future, Africa needs. We must be able to continue from where they have left and create the Next Africa, full of endless possibilities. Africa has a long way to go and until we continue building, Africa will never get to her desired results.

On the other hand, not all leaders have built a foundation for us. Not all leaders have played their path, in the restoration of Africa, in her pathway, for her original inheritance. Some leaders have misled their National Anatomies. Some economies in Africa have run bankrupt, because some of these leaders have misused all of these Government receipts and some have put them into their own coffex.

We have to take the need to restore Africa to her desired path, as a matter of urgency. All hands; children, teenagers, youth or adults and the aged, must put their hands on deck, to accelerate the desired changes, needed for progression in the African Anatomy. We can do it and bring an end to all the woes caused, in Africa. Freedom is possible, and if it must be done, it must be done well. **AFRICAN VOICES INTERNATIONAL** entreats all Freedom Giants, post this **THE ONE AFRICA FREEDOM DIALOGUE**, to stand tall, rise up to their call, and fulfill their mandate of making Africa, the desired continent for Freedom, Quality Standards of Living through Government Intervention and Accessible Inclusion, in the Democratic Steering of the Political Anatomies, we have in Africa.

There are always going to be people who will want to undermine the Freedom, we have in Africa and some of these people are Africans who have been manipulated. Freedom Giants must be strong to stand tall and protect their future, by being unchanged about their minds to stand tall, at all times for the Freedom of the Global Anatomy. We have to walk every day of our lives, knowing we are going to create a brilliant future full of Excellence. We stand for Excellence and must not accommodate any form of mediocrity.

We can terraform the future. We can change the mental settings of our people to fight for Justice on our lands. Africa is the center for Global Excellence. We have to open the eyes of all to see, what we have in Africa. Let us make everyone see these standards and build a solid framework, which cannot be nullified by any oppressor. We can do it. Let us make it happen. Let us revolutionize the Global Anatomy.

TERRAFORMING THE FUTURE

Terraforming the future implies creating the systems right for a conducive and excellent future, for all humanity. We have to be able to lay down the standards for the future, we want. There have been debilitating threats imposed on the social order of our daily lives, and as Freedom Giants, we have to rise up to the call, to change the standards and create the future needed for ourselves, our daily Survival and for posterity. The current settings in our Governing Systems that promote Democracy and the Good Wellbeing of our people, have been pulverised. We are now living in an atmosphere, within the Global Anatomy, bounded by Corruption, Dehumanization and Dictatorship. **THE ONE AFRICA FREEDOM DIALOGUE** on **TERRAFORMING THE FUTURE** was initiated to empower and sensitize Freedom Giants all over the Global Anatomy, to create the platforms for the change, they want for the Survival in Freedom, of every breed and race of Africans, everywhere in the Global Anatomy.

IMPORTANCE OF TERRAFORMING THE FUTURE.

1. FOR THE CHANGE WE NEED

We need to terraform the future for the changes we need. We have to terraform the future for the results, we sort for. Freedom is what we need and until we play our parts right in improving the future we want, we will be found wanting. Every age group in the society has a part to play, in terraforming the future, we want and need. Just as the aged have a part in playing by mentoring and advising young ones to take the right measures, for an accelerative growth, in the society, so do the youths also need to take action and create the future, we want and need. No one can get to their desired aim of building a better society, by first creating a system that forms the processes to getting to the end. We need to create the safe grounds to get the change we need. Non compliance to the processes that lead to change will only drift development and bring retardations in our economies.

2. TO ERADICATE THE MISTAKES FROM THE GRASSROOTS

There are loads of mistakes that have been made by our leaders and the populace which has kept Africa, in mediocrity. We must rise up and eradicate those mistakes by terraforming the future. We need to terraform the future to build a solid front, for the changes we need in our societies. When we build a solid front, all malfunctioning practices right from the grassroots are eliminated to create the right future, we need. We cannot just allow things to go anyhow. We have to form the standards for the right future, we want. This is how corruption can be a thing of the past. This is how we can create the platform for the better future, we want. When the presence of a social order is maintained and improved upon, growth takes place and is

sustained without being interrupted by any foreign force. This is because, we have safeguard the grounds for the solid future, we want.

3. TO CREATE THE RIGHT MINDSETS

When we terraform the future, we provide the conducive environment for people to thrive in excellence without causing defects in the society. This is because people become acclimatised to the right order of doing things and behave in ways that do not bring adversities on our societies. People become confident to do more to help their societies, because they know there can and will always be a better Global Anatomy. People become optimistic and become involved in making efforts to create various changes, in our various social structures, which have been corrupted. We create an appealing environment for all, and build on productive economies rather. When people are trained the right way, they do not litter around, create dirty environments and live anyhow. They control themselves well and this saves Governments and individuals from projects that are aimed to clean the society from such adversities and rather embark on profitable ventures, that bring our nations in the African Anatomy, profits in the long run.

4. TO INSTILL AN UPPER HAND FOR FULL DEMOCRATIC REPRESENTATIONS, ON ALL FRONTS

The Global Anatomy is now filled with various debilitating intrusions, which have misdirected the paths, through which many can survive. Our Governments and Social Institutions are no more nationalistic, but are rather selfish and business minded. The entire dispositions of our various leaders and workers clearly define the dictatorial regimes, we still want to impede on. Opportunities for people to express themselves in our Government Settings have been breached, discouraging a lot of people from embarking on ventures, because of their belief in the lack of support from the Government and the Society in general. Today, we have matters of Gender Inequality and Racial Discrimination at the highest front of Social problems in the Global Anatomy. Until we terraform the future, we will meet these same problems in this future. We have to lay down the right principles, to instil an upper hand for full democratic representations on all fronts, right from Youth Employment, Youth Representation on public discourses to the Full Accountability of our Governments on National Issues.

5. CHART OUR OWN COURSE

We need to terraform the future to be able to be the masters of our future. We cannot become dependent on the Government to create our paths for us. We must be the Gamechangers. We must be able to walk and live freely in life at all times. This can happen, when we create the solid foundation, for the change we need, and must see. When we are able to create the right platforms for the future we want, no one can infringe on our rights. This is because, we will be able to lay a strong hold on what needs to be done appropriately. In becoming the masters of our future, we need to lay hold on the right processes to bring forth the change we need. We

cannot see temporary configurations going on which will result in a sudden halt, in the entire development of our nations, in the African Anatomy. We must work on maintaining processes, that lead to everlasting changes in the development of our nations, in the African Anatomy.

WAYS OF DEALING AND RESOLVING CHALLENGES ASSOCIATED WITH THE REVOLUTION OF, TERRAFORMING THE FUTURE

1. STANDING TALL

All Africans must learn to stand tall, and eschew all abnormalities in the Political Anatomies of their countries. Standing tall does not mean, we raising our heads up, but defending the course of Freedom, at all times. We must be able to defend the Visions of our countries, to the end. We must be geared towards seeing the entire populace standing tall for their rights, and achieving mass sufficiency and comfort in their lives and in all their pursuits. This is how corruption, terrorism, gender inequality, racial discrimination, child abuse, child labour, human trafficking, mental slavery, violence and all forms of debilitating threats in our society, can be a thing of the past.

2. FIGHT THE BATTLE

As Freedom Giants, we must wake up to the call of fighting the battle after standing tall. We do not have to stand tall alone, but we have to take action. We do not have to be straight about our ideologies alone, but we have to be pragmatic. We have to voice out vires about what is not right, work hard to see the Freedom of those being dehumanised, and bring to end all forms of injustices, in our societies. We must learn to takes sacrifices for the Freedom of our fellow brothers and sisters. We must take all forms of depravities in out societies as a matter of urgency, and wake up to the call of bringing them to an end. The little steps we may take will go a long way to bring forth the purposeful end, we want. To terraform the future, we must work against all forms of malice in our societies.

3. STANDING FOR JUSTICE

We must live to see Justice taking its due place. This is by we doing the tight thing at all times. This will serve as a deterrent to others who may want to take the wrong path, in achieving their ends. We must fight for our rights and ensure that the Rule of Law deals with people who go against the laws of our various lands, no matter their tribal affiliation or political affiliation. We must see to it that order prevails for the decency of our lands. This is how we build a solid posterity, that cam operate with a sense of neutrality in everything they do, in regards to

national development. Our forefathers such as Julius Nyerere, Kwame Nkrumah, Haile Selassie and Nelson Mandela, all stood for Justice that is why the roads have been created for the Freedom, we have now. It is time we rise up. Let's wake up to the call and sustain and better our Freedom, by terraforming the future.

4. CELEBRATING EACH OTHER

We must learn to celebrate each and everyone, who plays a significant role in achieving Freedom for the masses. No one must be left behind. If we want to walk in unity, then we must appreciate each other for their relentless efforts towards promoting Freedom and Justice for all. We must Love each other and show appreciation to each other. This is how we can build a strong army. This is how we can promote a united front, that can be sustained when oppositions want to pollute the Freedom, the African Anatomy has now, or in the future. Let us be people of unity. That is how we can revolutionize the Global Anatomy, transform the Global Anatomy and terraform the future. Let us make it happen.

SUMMARY OF VIEWS FROM FREEDOM GIANTS

1. DEMOCRATIC INCLUSION OF ALL CITIZENRY

Everyone who has the capability, ability or specialisation in doing something must be considered and chosen. We must stop being selective, preferential, greedy and selfish. That is how we can create a better future and improve upon the future. Everyone is quintessential one way or the other, and we must look at what makes them quintessential and give them go ahead to make exploits in their National Anatomies. We can eradicate problems associated with gender and child exploitation when we bridge the gap between superiority and inferiority complex, and give everyone the advantage to mould their God-given talents, to become who they really are. That is how we can create a better future, where everybody can live a good and quality life, individually.

2. SANCTIONING PEOPLE USING ILLEGITIMATE MEANS, TO THRIVE

We must stop being preferential and ensure that Justice prevails in every nook and cranny of the Political Anatomy. No one should be allowed to take biased decisions and go scot-free. People who abuse others, humiliate and violate the laws that safeguard the rights of people must be dealt with. That is how we can enjoy a better and fair society. We must be strict and fair with our laws. This builds on the integrity of our states and the dignity of our leaders. It is time for us to build a better future, by protecting the laws and allowing Justice to thrive, in the African Anatomy.

3. PRACTICE OF FAIRNESS AND JUSTICE

As clearly said in the previous context, with regards to sanctioning, so must fairness and justice be the fundamental value in taking various decisions. We must ensure fairness in every ruling we take as leaders and in every decision we take. We must be Just to the course of our constitution, and respect our constitutions to the highest pedigree. The Executive, Judiciary and Legislature must all act in accordance with the laws of the land, for the safe and democratic governing of our countries. That is how we bring forth better economies, in the future. If we want to terraform the future, then we must be fair and just in all our ways, as a “people,” in the African Anatomy.

4. PROGRESSIVE DEVELOPMENT

Terraforming the future involves a system of continuously developing the framework for development to be able to keep up with the demands of the people. We cannot continue with the same ideas we begun with for our visions. We must build on them, improve them and restructure them to meet the changes in the society. This is how we can proactively curb the challenges in the society and satisfy the needs of the people, through a systematic growth. We must do so with care so as not to disregard the peace of other people. Our various Legends in Africa like Patrice Lumumba, Muammar Gaddafi, Marcus Garvey and Edward Akufo-Addo all paved the way for us to continue and build a far more better agenda, than they did. It is up to us, to terraform a better future, by ensuring a progressive development in all areas of our National Agenda.

5. SELF DETERMINATION

Self Determination is one of the principal tools for claiming Freedom for ourselves, for the Freedom of the people. We must be able to drive ourselves forcefully towards permanently evacuating all forms of Governmental Prejudice and Dictatorial Leadership in the Political Anatomies of Africa. We must be able to be bold and determined and never giving up, in the aim of pursuing a good course for our Creator, who has given authority to terraform the future and for our National Anatomies. That is how we can improve the future and make it satisfactory for everybody. Pan Africanists like Fela Kuti, Yaa Asantewaa, Kenneth Kaunda, Stephen Bantu Biko and Jomo Kenyatta all were self determined to fight for their people. They were determined to let people know that Africa is a Gateway of Freedom and **AFRICAN VOICES INTERNATIONAL** entreats us all to be pacesetters in terraforming the future, for the Freedom, we need. Let us do it. Let us make it happen.
