AFRICAN VOICES INTERNATIONAL organized this **THE ONE AFRICA FREEDOM DIALOGUE** on the 10th of September, 2022 to equip Freedom Giants in the Tertiary Sector to be well prepared for promoting Democratic Freedom in National Development as they go on to take leadership positions, post their Tertiary Level.

THE TERTIARY LABORATORY is a unique module of **AFRICAN VOICES INTERNATIONAL** which serves to promote the right mindsets, attitude, thinking and basement for future leaders for the Emancipation of the Global Anatomy. **AFRICAN VOICES INTERNATIONAL** launched the Tertiary Laboratory on the 10th of September, 2022 via Zoom before progressing with the Dialogue.

GENERAL CHRISTOPHER NSIAH chaired the programme as **PRESIDENT ISAAC BOADU** worked as The Host of **THE ONE AFRICA FREEDOM DIALOGUE** to launch **THE TERTIARY LABORATORY**, officially. **GENERAL CHRISTOPHER NSIAH** stressed on the need for Tertiary leaders to be extremely remarkable by laying down outstanding virtues that can counteract the impoverished values, that have polluted the African Anatomy. He stressed on the need for all students to rise up and eradicate all the problems of the society.

The Conference was a major booster to Freedom Giants who attended and also interacted and shared their views at the programme. **THE TERTIARY LABORATORY** is for Tertiary students and Graduates who have completed the Tertiary level within a space of three years. The Laboratory will serve as a test, research and development laboratory to address issues pertaining to issues in Relation with National Development, and the best solutions can be given and implemented for the adequacy of the African and Global Anatomy.

AFRICAN VOICES INTERNATIONAL believes everyone who has the right codes of criterion needed for a particular task must never be withheld, but must given the right and equal attention needed for the just development of our National Anatomies. It is in this light, that The **GLOBAL FREEDOM BOARD** of **AFRICAN VOICES INTERNATIONAL** organized this programme to train upcoming leaders to harness the appropriate and laid down strategies, in our report, for a well meaningful acceleration in the course of responsibilities assigned to Freedom Giants, in National Development.

AFRICAN VOICES INTERNATIONAL believes this report will serve as framework for just leadership by all Political leaders in decades and centuries to come. Let us create a right future for our National Anatomies. Let us set the standards right. Let us as leaders develop the frameworks that will secure sound an justifiable practices, in our societies. Let us transform the Global Anatomy. Let us Revolutionize the Global Anatomy. We are Masterpieces. We are Changemakers. Let us make it happen.

WHO IS A LEADER?

Leaders are Changemakers. Leaders are Revolutionists. Leaders are Pioneers. Leaders are Pacesetters. Leaders are Masterpieces. Leaders are not born. Leaders are formed. Leaders are formed to eschew various problems and instill in, the right standards for the changes, that must be central in societies. In **AFRICAN VOICES INTERNATIONAL**, every Freedom Giant is a leader and that is why we must all times, roar and fight the battle. The systems of the world have been polluted, but we are forming a Relentless Global Anatomy, as we fight the battle. We do not settle for less. We sustain the fronts. We lay the right frontiers for the changes, that must be observed for all. Leaders rise from the ordinary to the extraordinarily. There are a whole lot of Injustices in our societies, and in **AFRICAN VOICES INTERNATIONAL**, we fight these insurgent activities and set the right frameworks for changing our societies. There has been the adoption and adaptation to various kinds of mediocre lifestyles in our societies, which have impoverished youths of setting phenomenal standards for a better future. As Freedom Giants, we fight the battles. We revolutionize the Global Anatomy and instill change. We set forth the right frameworks, for distinguished leadership.

WHAT DO LEADERS STAND FOR?

There are diverse kinds of Leaders in our Political Anatomy. In **AFRICAN VOICES INTERNATIONAL**, we ensure that leaders do not grow to behave anyway in the Political terrain, but behave as Democratic leaders who stand for the will of the people and not as Political miscreants, to be even clear as dictatorial, kleptocratic or authoritarianistic leaders. The following details below are how leaders should and must stand for.

1. EXCELLENCE

Leaders stand for Excellence. Leaders ensure all the time that the society is ruled justly. Leaders do not accommodate mediocrish lifestyles. Leaders are conditioned on Excellence. Leaders hate it to see the society living in failure. Leaders stand tall to see to it that the right foundations, are set in place.

2. REFORMATION

Leaders stand to ensure the Reformation of all sundry back to their right fronts. Leaders stand to see and ensure the collective fortitude of all the people, they have been delegated to work for. Leaders do not stand to be authoritarianistic but civilized leaders who ensure the complete and fair attendance to all sundry. A just and balanced treatment by leaders to all sundry will ensure the liberation of all sundry to work in the right order for the just progression of the Global Anatomy.

3. INSPIRATION

Leaders are supposed to people who inspire their fellow comrades, subordinates and workers to stand tall and never settle for less. There are a whole lot of Political leaders in Africa, who behave anyhow and live to ensure that things work out, only for their good and not for the good of the populace. Such leaders even serve as an impediment to their on ministers they appoint within their own Government. This is because such leaders just want to work for their parochial desires and see to the total failure of everyone. Such leaders acquire the wealth of their nations into their own pockets and create a mess in the Political Anatomy. As Freedom Giants, we must live by Order and serve as an inspiration to everyone.

4. SECURITY

Freedom Giants must provide security at all times for the populace. They must stand relentlessly to safeguard the laws of the nation. Freedom Giants must at all times protect stand fall to ensure that the society is thriving under Just leaderships and a forms of tyranny and subjugation brought under permanent seizure. Freedom Giants must never forget or put aside their position as leaders and caretakers of the society.

5. SACRIFICE

Leaders must at all times learn to sacrifice their precious time, for what is well deserving. The stand to protect the Global Anatomy can be achieved through Relentless sacrifices. Leaders must at all times, remain Relentless. Leaders must never give in. When leaders are tired, they must relax but never give in, because we have a call to serve the nation.

Freedom Giants. We must not deny the course of seeing our nations wholeheartedly wit our time.

AFRICAN LEADERS WHO HAVE BEEN PHENOMENAL

● PAUL KAGAME

President Kagame has been a very efficable leader as he was able to lead the Rwandan Patriotic Front to where it is today by ending all forms of factionalism, ethnic segregation and all forms of insurgencies in the Rwandan Anatomy. Rwanda is now one of the most peaceful and politically stabilized countries in the Global Anatomy. Today, there are no divisions between the Hutus and the Tutsis. They all see themselves as one Anatomy. President Kagame has also transformed Rwanda, once a war torn country, to one of the most preferred tourist destinations in Africa and on the planet.

● MUAMMAR GADDAFI

President Gaddafi was an efficable Leader, who set his path right in making Africa, a self – reliant Anatomy . He connected the whole Anatomy via telephone and radio broadcasting, as his Government facilitated the payment of a satellite. In December 2007, Africa had a satellite because President Gaddafi spearheaded the need, of which The Libyan Guide contributed \$300 million dollars towards acquiring our own satellite. President Gaddafi didn't just live anyhow, but he lived his entire life for the Rejuvenation of the African Anatomy. President Gaddafi fought to build a United States of Africa even when he was backbited by the West for doing so.

● KWAME NKRUMAH

President Nkrumah was a very efficable leader. He was self motivated and driven to change the status of Ghana and Africa. After gaining Independence for Ghana, he went on to ensure the smooth structuring of the Country's Ministerial administration right from ensuring the facilitation of major public institutions in almost every Ministry in Ghana, for the smooth development of the country as a self ruled and managed Anatomy. Dr. Kwame Nkrumah understood the tactics of Colonial leaders to still see The African Anatomy, as a subservient one, by creating loopholes for Africa's dependence on foreign anatomies, for The Africa Anatomy's continuous woes. He therefore instilled the virtues of Pan-Africanism, African Nationalism and Self Determination as a means to end these woes. He was simply a Relentless leader, who stood for the productiveness, of The African Soil. It is in this light that, he understood the need for us to solve The African Anatomy's problems, with African solutions.

● HAKAINDE HICHILEMA

President Hichilema is a millionaire businessman who has been contributing towards the development of societies in Zambia even before his Presidency. President Hakainde has had the interest of the Zambian Anatomy at heart. President Hakainde's party, United Party for National Development had been out of power for a decade, but President Hakainde still strengthened his Party and they have come through Relentlessly, fighting in the interest of the National Anatomy. After taking over office as President of the Anatomy from August 2021, he has been without salary, as he stated clearly that money was not his motivation to serve his country. President Hakainde has strengthened the stand for civil liberties.

● ELLEN JOHNSON

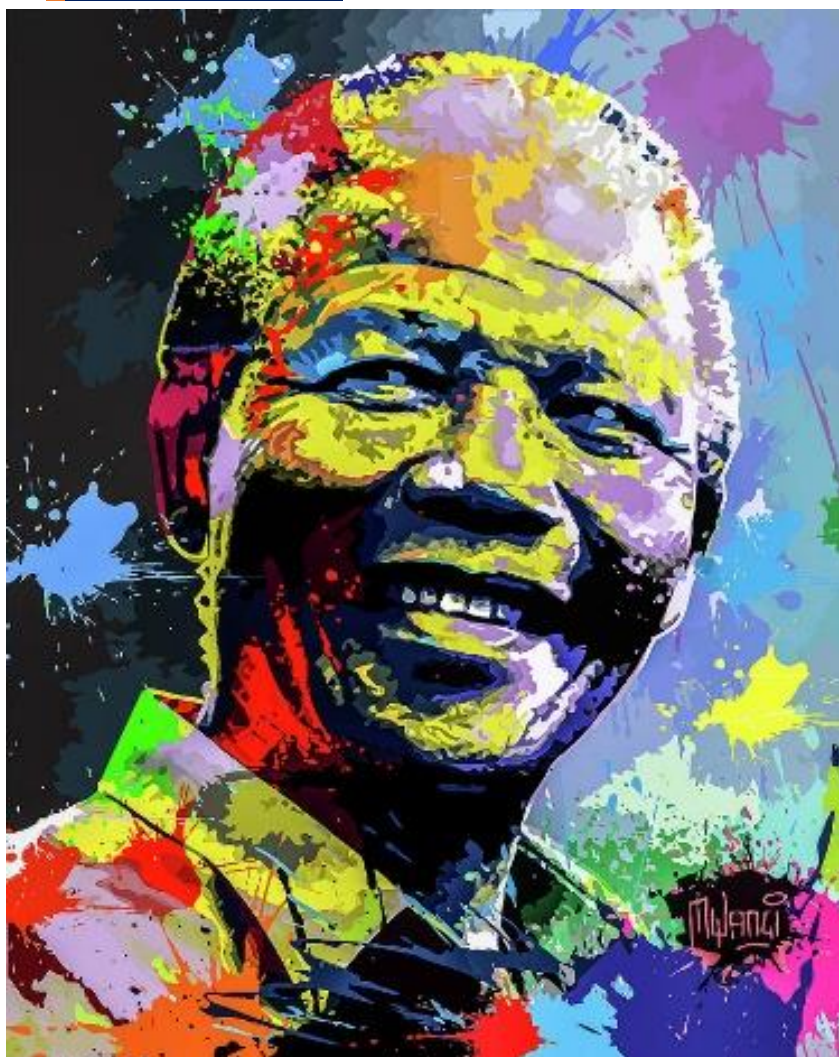

Ex-President Ellen Johnson was the first female President of Liberia and the leader who also worked for the structural formation down for a Democratic National Anatomy. As a female, she performed credibly not below the standard and also set the standard for which any leaser in Liberia should operate on. She is also a living witness of how female leasers should perform efficably in the Political Anatomy of their nations. After being arrested in 1985, for openly speaking against the military ruled Government, she still did not give in and stood tall to become a top notch Politician. She was President of Liberia from 2006 to January 2018.

● NELSON MANDELA

President Mandela's act of Relentlessness even at the point of death, has shown clearly to the Global Anatomy, the man he is and his stand to ensure a fairly ordered Global Anatomy, void of gender or racial disparity, but a common world, where we all share the same front on Love and support for each other. President Mandela did not correlate with any kind of laws that sought to undermine the Privileges of humanity. He always paid his respect to leaders who sacrificed their life for the fight of Liberation. He had that mentality of a better and refined Global Anatomy, and that is why he always fought for The Global Anatomy, before prison, in prison and Post prison. He won over 200 awards during his lifetime for championing the course of Democratic Freedom. He is a true champion who is also celebrated on the day of his Birthday, as well as Dr. Kwame Nkrumah's with 10 minutes silence on their birthdays in reckon of their efficable leadership during their lifetime, which continues to impact billions of lives, around the Global Anatomy.

DO ALL OF OUR CURRENT AFRICAN LEADERS STAND FOR SOMETHING?

Majority of our African leaders lack the strength of Relentlessness. They are only glued to themselves and working for their family and friends. They are self-centered and not adaptive towards the course of sustaining the Revolutions brought forth, by our forefathers who led the Independence struggle of The African Anatomy's Freedom. Majority of African leaders refuse to be agents of change and live masses and masses of people in entanglement, since such leaders fail to fulfill the policies needed for Global Transformation.

Most of our leaders get into power to stand for their own selves and refuse to serve other leaders who look up to them to become better and also serve their nations, on a mighty course. Such leaders are only thinking of ways to have ends to their intrinsic needs and lack the humility to serve. Such leaders are dictatorial and serve their nations not as Leaders, but as Dictators.

Most of our leaders blindfold the eyes of their subordinates and work for their single ends. They block their subordinates from extremely understanding their policies, projects and schemes set for the long run, of which everyone should know. They live their subordinates in jeopardy and set the course for a constant retrogression in Development. They stand for themselves and not for the people. They refuse to give open ears to people within the society, who need attention and bring mayhem and disorder within their enclaves of onuses.

AFRICAN VOICES INTERNATIONAL FREEDOM IN AFRICA

Most of our leaders are not Nationalistic leaders. They are greedy and envious leaders. They refuse to create paths to see to the promotion of their fellow comrades, members and/or citizens, ministers or subordinates. They give less support, should they see anyone related to or within their enclave rise. They try various methods to put in propagandas to bring them down. The fact of the matter is that, such leaders are not only envious, but block the flow of Development in their nations, since the promotion of right leaders leads to an acceleration in the Democratic Development of a National Anatomy.

Most of our leaders are not concerned with the Development of their fellow comrades. They are only self-concerned. They are full of arrogance and hold the least phenomenal character for Political Leadership, yet they deem it fit to hold the most commendable positions in Governance. Such leaders need to be eschewed unless they begin to resonate with Democratic Governance.

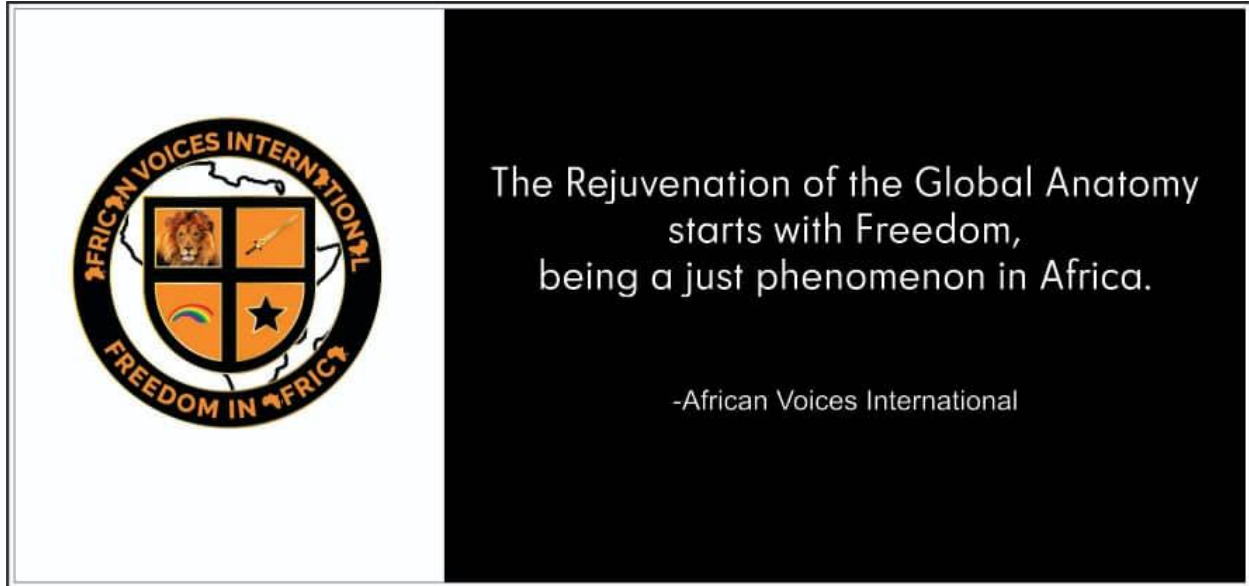

Some of our leaders on the other hand, are different. They understand the reason for their position and act responsibly at all times. These leaders sacrifice their whole lives for a course. They give in their all, for a course, because they understand they were born to serve and not to dictate. These leaders are Relentless and these are the kind of leaders we need to vote for, for the Transformation of our National Anatomies. These are the Leaders who can help in National Development.

We need Leaders who understand the consequences of foreign interventions on our soils, in the long run. We need leaders who just do not append their signatures on just any treaty or agreement but make sure they credify the Analogy with the Democratic Freedom, the African Anatomy, must walk in and stand for. We must be aware that the same people who decided to show us Love rather bombarded our nations. We must take lessons for the future and rather be proactive, rather than to be surprised at sudden debilitating threats

WHAT ARE WE MISSING IN THE AFRICAN ANATOMY?

The Rejuvenation of the Global Anatomy starts with Freedom, being a just phenomenon in Africa.

-African Voices International

1. SACRIFICE

We need leaders who can be able to sacrifice their heart for the Development of our National Anatomies. That has been missing which has created a gap in the pivot

AFRICAN VOICES INTERNATIONAL FREEDOM IN AFRICA

Transformation, we need for the Development of the African Anatomy. We need leaders who can be able to stand through the thick and thin, and yet, remain Relentlessly Nationalistic for the growth of our National Anatomies. A lot of Presidential Leaders are thinking about the weight of their Remunerations, the quality of their Presidential jets and the money they can fetch from the coffex of their Political Anatomy's Bank. These are so demeaning and debilitating. These are the kind of leaders who need to be removed as a matter of urgency. We need leaders who can work for their National Anatomies without salaries, because they understand their service to their National Anatomies. These are the kind of leaders who must be rewarded hugely for the sacrifice they give, without expecting much, in return.

2. SUPPORT SYSTEMS

A lot of people have the ideas and the know how to change the Global Anatomy. However, they lack the motivation to push forth and make Africa great. Most of our leaders are not able to build self reliant economies, because they are being pressured into making their economies viable, in the long run. These leaders therefore decide to jump chapters and bring their economies in a mess. A lot of people have the skills but have been downgraded and neglected. We lack the support systems to function together. We rather come on the offensive when we see our own inhabitants, pushing Africa forward rather, when we are supposed to be on the defensive.

3. TRANSPARENCY

A lot of leaders do not respect the people, they are born to serve. They just decide to administrate their given jurisdiction anyhow and at the end bring forth unjustifiable accounts. Our leaders do not basically understand the need to go by laid down procedures. They are self centered and selfish. They come to power to satisfy the needs of their people. They do not see the need to work by a set of rules and as a result, bring our

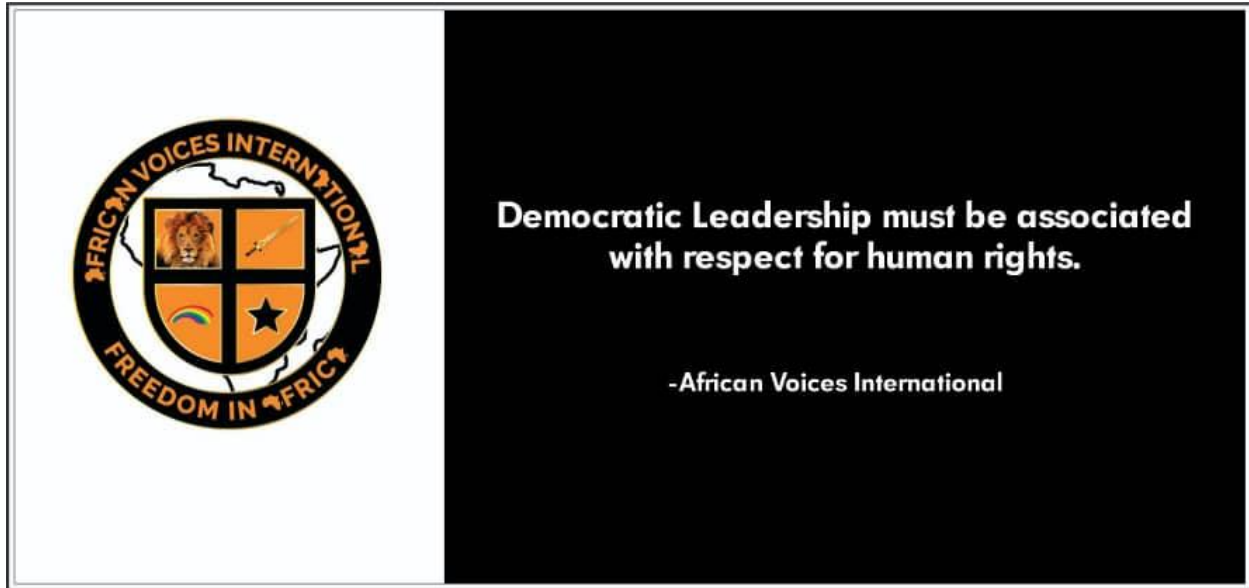

AFRICAN VOICES INTERNATIONAL
FREEDOM IN AFRICA

nations into mayhem. We see this in our day to day activities by the activities of our leaders.

4. TOTALITARIANISM

Our leaders do not understand the need to build analogies for the structural functionings of our Political Anatomies. Our leaders amass power all in their hands and just place people in various positions, just for the name but not for the onus, they have to play. Our Heads of states, function by themselves, work on their own, make decisions by themselves and force them onto the people. They do not sit down with the Council of Elders like Generals in **AFRICAN VOICES INTERNATIONAL**, Chiefs, Their Cabinet, Parliamentarians, Assemblymen and the Clergy on how to run matters in correspondence to various related ministries in question. They just run the nation anyhow and yet still, they stay in power and are not voted out.

5. SERVICE

Members of our society nowadays always expect our leaders with their Governments to always be in charge of everything, when we are supposed to be in charge. They fail to be a part of the analogy in National Service and always expect the Government to play head roles, forgetting our leaders work for the people. We find people littering anyhow, passing by rubbish just by their house, nit reporting any concerns in their neighborhood to their assemblymen, and rather expecting our leaders to always find ever detail in every matter. We have to be at service to our nation at every point in time. We do not have to be called before we raise we are citizens of our National Anatomies. We have to render unmerited services of honour all the time whether we are called t our nations, regardless of whether we will be paid or not. That is what we called a true Nationalistic citizen.

.

DO AFRICAN LEADERS SEE THEMSELVES AS INFERIOR LEADERS?

Most of our leaders see themselves as inferior leaders because of their low capacity to affect the world around them. African Leaders have allowed themselves to be drained by the exploits of Foreign Leaders. African Leaders see in the eyes of foreign leaders and walk and live from their mindset. Africa is divided today, because there has been various created in our midst. We are segmentated along language barriers, economic barriers and political barriers. We seek for council where we are not regarded. We have been grossly despised and humiliated, yet we take refuge in being despised.

We are not able to function as a single Anatomy because we have various divisions amongst us. If Africa was a single state, it would have been very hard for other foreign bodies like NATO to invade our territory and assassinate our Legend Muammar Gadafi. It would have been very hard for Nelson Mandela to be locked in prison fighting for Democratic Freedom for almost three decades.

AFRICAN VOICES INTERNATIONAL FREEDOM IN AFRICA

African Leaders never want to see themselves as originators of Wisdom. African Leaders always want to see Foreign Leaders steal from their coffers, before they begin to be proactive. We must learn to be Pacesetters. We must support our own and make African products highly competitive and not subservient to foreign products.

The Global representation of Africans is not one worth noting. It has been filled with disdain. Africans have been sidelined even though they have remarkable positions on Global fronts. We have low representations and seen as underdogs. African leaders do not support their own. It is so pathetic to see the urgency with which African Leaders collapse indigenous banks, factories and companies and lazy about with executing the law on foreign miscreants who perpetrate the laws, in our countries.

Our leaders have created a trap for the Youths. They have created a sense of inferiority and dependency in our Nations. As a result, whenever we have enough or have the skilled labour or expertise to handle various projects, we still go on to hire Staffs from foreign Anatomies. Our leaders are also greedy and want to claim honour for themselves alone. As a result, they will never want to in any way pass the baton to their fellow comrades because of the Imperialist conviction they have. They will want foreigners to do it so they can rather have a badge of honour on them, rather than for our own natives to be awarded, with such badges of honour.

Let us believe in ourselves. We are made for more. Let us stand tall. Let us raise our shoulders. Let us contribute towards Global Development; not only making Africa a better place, but other foreign continents, also a better place. We are Masterpieces. We are Changemakers. We are Revolutionists. We are Radicalists. Let us revolutionize the Global Anatomy. Let us transform the Global Anatomy. Let us change the Global Anatomy. Let us make it happen.

ARE WE DEPENDENT ON NEO-COLONIAL DOCTRINES?

African Traditions have been lost. African leaders have been manipulated into thinking they do not have the best norms, customs and socio-cultural practices that binds and identified us as a society. The Analogy that keeps us as a people is currently lacking. We are not ourselves. Post Colonial Governments, African leaders who have taken seats as Heads for our various Political Anatomies have all one way or the other, enslaved their own people one way or the other, thinking they are being radical. Africa has been traumatized. The African Anatomy has been subject to constant torture on her own Soil by her own leaders. Our leaders have also sold our "birthrights" back to the conical leaders in the name of seeing to securing Diplomatic ties for an entrenched developmental assistance of a New Africa.

AFRICAN VOICES INTERNATIONAL
FREEDOM IN AFRICA

African leaders lack a sense of trust. They do not respond to the analogy the African Tradition instills in them as an onus to fulfill and develop for The Anatomy. African leaders work anyhow and as a result, The African Anatomy finds herself choked in the systems. We have a part to play in the Revolutionisation of the Global Anatomy, which continues to

**“No colonial rule which seems to show itself
as sufficient should be considered and
accepted”**

-Isaac Kwabena Boadu
(President; African Voices International)

AFRICAN VOICES INTERNATIONAL FREEDOM IN AFRICA

grow and change day by day and night by night. It is up to our leaders to respond to that call and play that role, relentlessly. Africa is not a sub unit of other continents. Africa is a major unit in the Global Anatomy and we must function as so.

We have collapsed our selves by trading our dignity for cheap labour. We have allowed the banking systems to be controlled by foreign entities. We no more have power over what we produce. We are trampled upon. We move in the direction of the Imperialist power. We succumb immediately without seeking for advice treaties from foreign entities, without paying close attention to them. All directives mostly from Colonial powers to help revamp our lands are mostly used to exploit us, and not make us better. They are used to lessen our dignity rather than preserve the pride, we have as an Anatomy.

Until we begin to fight for an Analogy of a reciprocal Democratic framework of Dignity, Respect for Each Other and Support without exploitation, Africa will still be in chains. Africa will be found wanting. Africa must fight for her own. We must ensure an Analogy amongst ourselves and amongst the Global Anatomy with dignified standards that ensure the change, we want.

The aim of the oppressor both within and outside is to break her opposition into bits, so that they can not stand as One Anatomy and fight back. This is what has happened in Africa. We have been broken into bits. But we can fight back. If we have been able to form National Anatomies amongst our ethnic lines, then we can ensure a United Africa whereby we do not categorise ourselves based on religions or tribes, but as one Anatomy. That is how Africa can grow. That is how Africa can conquer foreign manipulations.

The baton lies on us to ensure the Analogy of Relentlessness and send the Analogy to all Africans in Africa and in the Diaspora to harness Growth in Africa, by Africans and from Africa through to the Global Anatomy. We must be able to do this. Let us revolutionize the Global Anatomy. Let us transform the Global Anatomy. Let us change the Global Anatomy. We are Pacesetters. We are Revolutionists. We are Masterpieces. We are Changemakers. We are Radicalists. Let us make it happen.

EFFICABLE LEADERSHIP

BE RELENTLESS!
-African Voices International

1. THE ANALOGY WITH PAN-AFRICANISM

If we want to shine and make Africa a hub for Global investment but not Global exploitation, then we have to package ourselves. We must stand as One Anatomy, where we walk by the pride of our culture. We must adore African ethics, share a sense of unity, stand by each other and patronize, what is manufactured in Africa. We must hold ourselves strong and begin to develop Africa again. All Africans in the Diaspora must first of all, take pride in their roots, pay homage to where they come from, begin to help facilitate the rehabilitation of dysfunctional Africa to a purposeful one. We must have a Global representation everywhere and not be subdued by the West. President Gadaffi always worn African Wears everywhere and in the presence of his fellow African leaders to portray the spirit of Africanism. He doing so, did not mean other African leaders who wore coats were undermining our dignity but he set the pace for a continuous growth of the pride of Africa. We have our own identity and we must show it. That's when we can make the Planet Earth, a better place, when we reveal the uniqueness in us, as an Anatomy.

2. SUSTENANCE OF DEMOCRATIC FREEDOM

We can begin to stand tall again when we promote Democratic Freedom everywhere. We must allow the frontiers for The Democratic Rehabilitation of the Political Anatomies, everywhere. We must send a message that we were civilized before independence and stand for the dignity of all humans. We must work it out for all sundry and begin to ensure that everyone is part of the Analogy of a working plan for Africa's development. That is how, we can achieve a Global Rejuvenation for both Africans within the continent and Africans in the Diaspora.

3. DISCIPLINE

When we begin to self-regulate ourselves, we can build a Resilient Anatomy which no foreign entity can manipulate through. We need to ensure that no one manoeuvres with our laws and loosens the strengths of our laws. We must be Relentless about that. We must not allow anyone to impoverish the dignity of our constitutions. We must at all times reassess ourselves and take proactive steps to ensure our formidability in the public and private space. We must be Relentless about that and never give in to be suppressed by others. We are the Masters of our destinies. Let us direct our paths towards Analogies that represent Reciprocity in Dignity of Relationships.

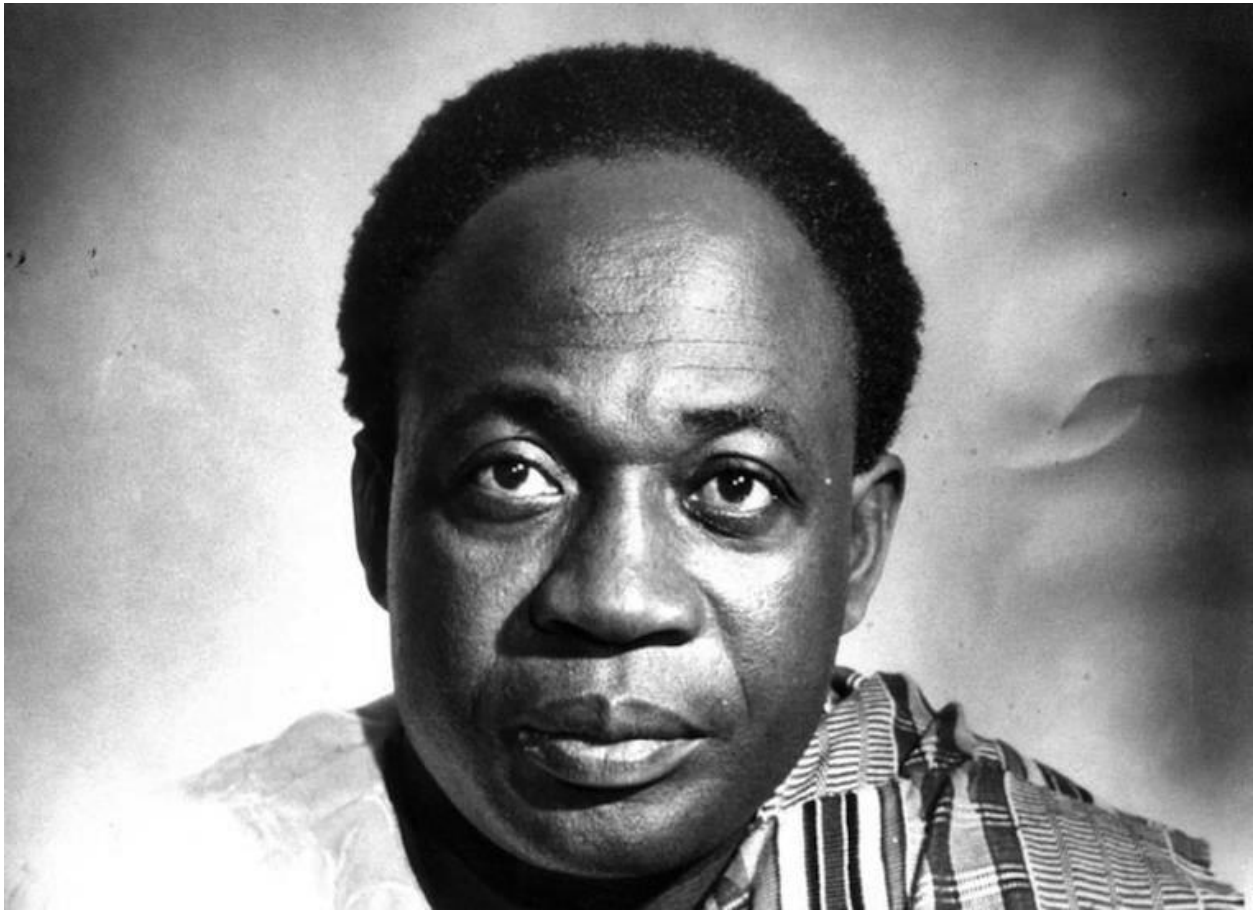

4. A UNITED AFRICA

AFRICAN VOICES INTERNATIONAL FREEDOM IN AFRICA

We need a **ONE AFRICA**. We must work as an African Anatomy. We must work from a Central Anatomy that regulates the studiousness of the various units in Africa, towards functioning Pan-Africanistically and not under suppression. We must ensure this analogical framework that sees to The African Anatomy, not working as a subservient Anatomy, but a Central Anatomy of much quintessence to Global Development. We must not work only for the African Anatomy, but for the stabilisation of the Global Anatomy. We must be parents of the African Anatomy and not beggars.

5. EQUITABLE DEVELOPMENT

The African Anatomy is emerging into her real self after a trauma birthed by Colonial leaders and accepted by natives of our African Soil. However, we are a people, who care for each other and want to a common mutuality of fairness in wealth and economic development in every nook and cranny of our districts. It is in this light that we must Relentlessly work towards seeing to the Equitable proportion of Social Amenities and Public Institutions across every town and village for our National Anatomies. An Analogy with Democratic Development entails that every citizen feels at peace as a Citizen of a National Anatomy, because of the responsiveness by the Political Anatomies to

adequate call, towards working for a Equitably distributive agenda in National Development.

MESSAGE FROM OUR PRESIDENT:
PRESIDENT ISAAC KWABENA BOADU

AFRICAN VOICES INTERNATIONAL
FREEDOM IN AFRICA

The Global Anatomy is supposed to be filled with uniqueness in functions from every Central Anatomy, for the effective functioning of the Planet, Earth. No Central Anatomy is supposed to be playing the role of another Anatomy. Africa is not supposed to be playing the roles of another Anatomy and neither is Europe supposed to be played the roles of The United States of America. Every Central Anatomy is filled with the right ingredients to play her contributive part for the well functioning of the planet. The African Anatomy must play her part efficaciously. We must not be subservient to foreign policies. I entreat all Freedom Giants who are taking and about to take various positions very soon and Freedom Giants who also intend to take various positions in future, to be proactive. Let us ensure An Analogy that sees to reciprocity in integrity to all parties we deal with , for the well functioning of the African Anatomy. Every Freedom Giant is a leader and we must be Democratic Leaders. Let us not give in to Oppression. Let us remain Relentless. We are the Leaders of today and of the future. Let us terraform a bright future. Let us revolutionize the Global Anatomy. Let us transform the Global Anatomy. Let us change the Global Anatomy. Let us ensure an Analogy with Democratic and Political Freedom. We are Changemakers. We are Revolutionists. We are Masterpieces. Let us make it happen.

AFRICAN VOICES INTERNATIONAL
FREEDOM IN AFRICA

The GLOBAL FREEDOM BOARD of **AFRICAN VOICES INTERNATIONAL** welcomes you to 2022, as The **YEAR OF REJUVENATION**. It is time to Roar. It's time to fight back again. Freedom Giants, let us remain Relentless as a Global Anatomy, in our quest to ensure the emancipation of the World from colonial chains, and we shall see the entire world, experiencing a **REJUVENATION**.

REJUVENATION is the process by which something returns back to its active state again. Rejuvenation is the process by which the flow or connection to an end is fully restored. Freedom Giants are going to fully encounter a phenomenal Year, full of Rejuvenation.

The **YEAR OF SURVIVAL** was a historic year, in the life of every Freedom Giant and all sundry, as well. Freedom Giants have gone through various turmoils, challenges and faced various storms in their lives. Nevertheless, Freedom Giants did not allow any of these challenges to bring them down. Freedom Giants roared, fought the battle, and as usual, God came through and we had various victories. That's the power of we, as Freedom Giants. We are Survivors and not just Survivors, but Trailblazing Survivors.

In our **YEAR OF REJUVENATION**, we as Freedom Giants are going to experience mass celebrations. It is time for Freedom Giants to laugh. Freedom Giants must stand tall, for the Victory, the **FREEDOM YEAR**, has for us. We must be intentional about this. We must take extra time to celebrate, relax, have some time for fun, appreciate our culture, unite, have get together with family and friends, ourselves, and have good times around. This is certainly a year for us. We have Survived and God is blessing us. We are going to see **REJUVENATION** right from the beginning of January to the end of the year.

In the **YEAR OF REJUVENATION**, all we have to do is to be Relentless. We have to be relentless as a people. We must say "No, we are not going to be brainwashed,

walk in mediocrity, or be deprived of our rights.” We must stand tall. We must be Nationalistic and disciplined Freedom Giants. We must walk in Excellence. We must be Country-Patriots. That is how we will enjoy our Rejuvenation, day and night. As we stay strong as Relentless Freedom Giants, we shall experience three of these

1. RESURGENCE

2. RESTORATION

3. RENAISSANCE

● RESURGENCE

Resurgence means a take back to the former standardized way of life. Resurgence denotes an increase. There is going to be an increase in every area and facet of every Freedom Giant's life. There will be a massive rise. There will be a shift. There will be a sudden promotion. Things will be different. It's time for celebrations because we are going to experience series of unending Resurgences in our lives. After all the tests, we have gone through, our time of upliftment is here. Africa is going to spring again and you are part of the Anatomy of Africans, rising up.

● RESTORATION

Every Freedom Giant is a Trailblazing Survivor and will experience Divine Restoration. Everything we have lost, will be restored in its fullness, this year. We will experience and see beautiful and bountiful things, this year. There will be gross acceleration in our lives as Freedom Giants, this year.

● RENAISSANCE

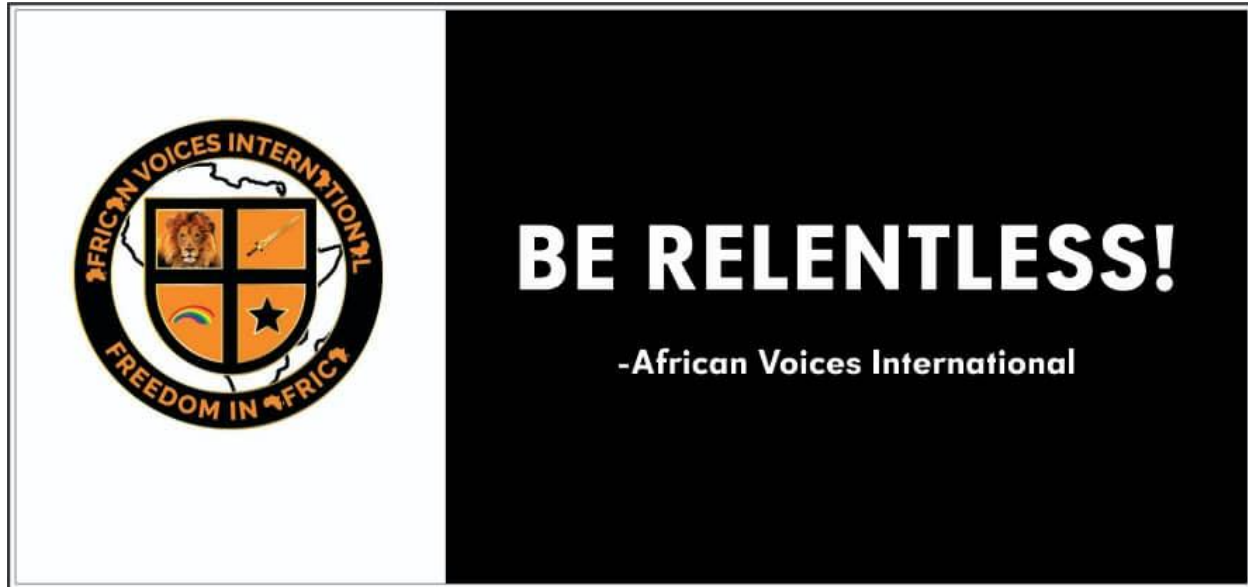

There's going to be a Rebirth of the Actual Giants in us. You are coming out anew, and fresh. You are coming changed and equipped for the beautiful road ahead. The original nature of Freedom Giants will be birthed again. Nothing will hold you back. We are Radicalists. The Global Anatomy is going to hear of us. We are unstoppable! We are coming in our Divine Newness and shall finish the year still afresh. We are walking in the fullness of life, as Freedom Giants.

RELENTLESSNESS

We must never shiver or give in to mediocrity, at any point in time. We must set forth the Revolution. We are the Pacesetters. We must stand forward and press on to victory. We must never exhibit any cowardice disposition, if we want to continue liberating the Global Anatomy. We must stay strong, be bold as Freedom Giants and never look backwards. We must be determined, unwavering and unperturbed at all times, in our quest to cause a change as Freedom Giants, in the Global Anatomy.

The road ahead of Freedom Giants, has a lot of situations that we have to be formidably Relentless for the breakthrough, the Global Anatomy, needs. We must never take sides. We must always learn to be neutral and if in being neutral, we fall on the side of a party, we have no cause to be subservient to their dictates. We can do this because we are made of Excellence. Let us never betray our rights or fall on the side of the oppressor. Let us defend our rights and fight for the Global Anatomy.

Freedom Giants, we must all times seek for the change the Global Anatomy, needs. Let us bring all anomalies, to an end. We must be straight about this. We must always defend the Analogy for Democratic and Political Freedom on The African Soil. That is how Africa can grow. Let us be impatient about this, for we are the breakthrough, The African Anatomy needs. Let us stand tall. We are Masterpieces. We are Changemakers. We are Pioneers. Let us make it happen. Freedom Giants, let us stand tall. We are made for more. Let us never settle for less. Let us remain Relentless for we are The Pioneers of the future. Let us make it happen. Let us revolutionize the Global Anatomy. Let us transform the Global Anatomy. Let us change the Global Anatomy.
