THE ONE AFRICA FREEDOM DIALOGUE

Women are very phenomenal in all they do. The value Women bring to reforming the Society, in which we live, in our National Anatomies, are endless. Women are revolutionists. Women bring life back to everything. There are a lot of women currently living and some who have passed away, who have made great turnarounds in our society like Rosa Parks, Joyce Meyer, Maya Angelou, Joyce Aryee, Yaa Asantewaa, Chimama, Wangari Maathai, Ngozi Adichie, Oprah Winfrey, Florence Nightingale, Ellen Johnson, Winnie Mandela, Hilary Clinton amongst others who are causing great Revolutions in history.

Women are the kind of people or beings who bring conclusive impacts of substance to the society. Women always at all times, end their task with a class of style. Never do we find women bringing less efficient results, in their mode of operations. Women are indefatigable and always determined to bring nothing, but the best in every onus, they are given or take upon themselves to work on. They take every task as their own, work on it with passion, and demystify every kind of unresolved search, in their operations. Women are adventurous and Vision takers. They do not only help in making a vision successful, but they take it upon them as their own task, no matter how lengthy, difficult, stressful or long it may take, delve into them and bring excellent results.

Women patronise whatever they are assigned to do. They do not compare themselves with others. They are all concerned about the vision. They unite themselves with their team partners, and try as much as possible to bring long lasting and permanent results which are of high standard and highly recommendable, to the demands of the society.

THE NEED FOR WOMEN AS GLOBAL LEADERS

Women are so much needed in the Global Anatomy, to be pacesetters of change, for a strategic growth, in the Global Anatomy. Women are not just essential, but they are a prime factor of change, for the progression we need in our Generations. Women need to stand tall, back down every bitterness, pain, hatred and humiliation they have seen and push the Global Anatomy forward. Women need to know that, if the Global Anatomy is to Survive, they are the bedrock of an evolution. An evolution will come from the revolutionary strides, that Women take to emancipate the Global Anatomy, liberate and bring the Global Anatomy, the Freedom he needs. Women need to Rise up! This is the time and there is no need for Women to think twice about this! The reasons below are why need Women in the Global Anatomy.

1. THE DIFFERENCE WOMEN BRING

Women bring phenomenal results whenever they are given a task to do. They go about their duties with so much passion and humility and put in all their efforts, to see to the completion of a high standard project they are given. Women do not bring forth lackadaisical and shoddy results but work as professionals, whether they are experienced in the task they are given on. A Woman in a team, bring forth a difference. Women do not give up easily. They are daring and will want to try as many times that they can to see to the finalisation of a project given them, and effectively and efficiently done. Women are kind hearted, emotional and helpers. As a result, they always lend out their hand to play a role just to see it, as a success. Women are able to understand the feelings of others and will do as much as, they can to see to the success of what they do. Women do not want to see failure in anything. They will do

whatever they can in their capacity, to bring forth productive results. Women know that whatever they do one way or the other affects others, and will want to make sure, they strive to make lives better, by being productive and supportive. Women are the hope of the world. They bring great reforms to the society in their thinking, dispositions and the way they see the world. They refine whatever they touch, into a Golden artefact or product. They add colour and beauty to everything they come across. They add meaning to everything. Women are just Generational Thinkers!

2. EMANCIPATION OF LIVES

Women through the difference they create, emancipate lives. They are able to eschew all bandages and snares that have deprived the Global Anatomy, of Freedom. Women are exceptional Freedom Giants. They will go deep down to bring meaning to a mystery. They do this with a passion, and they do it whether, whatever they want to see enlightenment in, is a part of them or not. They just hunger for Freedom. They want to see liberation everywhere. They want to see beauty everywhere. Their focus is on the light at the end of the tunnel. They do not get stuck in their journeys . They strive till they get to the end of the tunnel. Women are Survivors. Women are brave. Women have a colourful lifestyle, that brings deliverance to dejected, abandoned and abused ones. Women are daring. They do not live a matter alone. They take chances and make the best out of them. They bring productivity to everything. They are full of Love and that alone is a medicine to the soul. They celebrate success and appreciate people who take the extra mile, to make life a better one. These are Women. They are also Gamechangers. They bring Freedom everywhere. They add value to everything they come across and make life one worth living.

3. DEVELOPMENT OF A BETTER FUTURE

Women make everything possible. They create the fundamental stage for a Rise! They open doors for an evolution. They provide a conducive atmosphere for a Revolution. They are filled with aa Spiritual Energy, that makes everything possible. They set the right things on course. They give birth to a future. Women are always prepared to go through all the pains and turmoils, just to see a success. They do this because, they know a success will not just bring one positive result, but will go down and affect things in numerous and versatile ways, which will affect a whole generation. Women are priceless. They do not do things dubiously but will fight their way round for Uprightness, Justice and Freedom, in every nook and cranny they are. Women are Freedom!!! Women will not support their own ones to do evil. They will be vigilant, be proactive and act independently as stakeholders who want rather Positive Actions, for the Freedom of Humanity. They do not care the turmoils but always focus on the end. They are visioned ones. Women are of great value to the Global Anatomy.

4. IN BORN LEADDRSHIP VIRTUES

Women are born with aa lot of Leadership virtues, which cannot be done away with. They are self reliant and are able to lead and change ordinary things to phenomenal ones. All over the world, we have great ladies who are taking Giant strides to ensure that, there is a positive world bound by Love and Care for humanity. Women are at the top ranks changing territories and making and paving the way for others to live in Freedom. Women are spearheading projects and revitalising broken ones, into great

Giants. These are Women and they are not just chosen because of their beauty, but because of their expertise to act beyond the normal, which makes them beautiful and the right ones. Women are generally great Lawyers. They judge a case and act in fairness. They ensure an all inclusive representation of everyone's share in the society. Adults, the aged, teenagers, youth and babes are able to feel efficiently comforted under Women. Women act with maturity and professionalism. It is in this regard, that **AFRICAN VOICES INTERNATIONAL** sees the need for Women to accorded with the respect they need, for them to rise up and take roles they must take for the benefit of the Society.

5. PRUDENT GIANTS

Women are peaceful Gamechangers. They inspire change through non-violent means. Women are gentle but proactive. Women go through the right ways, to fight for their rights. Women believe that there is only one way to resolve an issue, and it is through Peaceful talks and not through violence. Women are born to instil Justice in the Society. Women hate Rivalries and Enmity. They will swallow their pride because they want to see Love, being shed abroad amongst parties and people. Women will always want to promote Peace, even when they are betrayed than to see Violence and Chaos. Nevertheless, they can never be cheated. They are Freedom Giants. They walk and move with wisdom to see Freedom being lived not by them but their societies and for Posterity. **AFRICAN VOICES INTERNATIONAL** believes that women are born with a kind of Wisdom that brings to an end all kinds of long term rivalries amongst parties and they must be upheld to the highest degree with respect, at all times. Women must be celebrated at all times. They are vessels of change!

WHAT PART WOMEN CAN PLAY TO REVOLUTIONIZE THE HLOBAL ANATOMY

The entire Global Anatomy is a family and just like how a Human Anatomy has various parts that perform various functions, so do Women also have a unique role to play, in the Revolution of the Global Anatomy and they are as follows.

1. TAKE UP LEADERSHIP ROLES

Women must take up leadership roles where they feel they can cause a change in the Global Anatomy. Women are exceptional Freedom Giants and must therefore at all times, be leading wherever they can, if they want Peace and Sound Moral Governance in the Political Anatomy of their nations, and in their Societies. Women bring Order and Calmness to every situation. They carry an aroma of Peace because they live in that way. In light of that, all Women must never settle for the low! Women must never settle for less. Women must not stay to themselves . No! Women must sacrifice their lives for their societies. They must sacrifice their lives for their nations and for the development of upcoming generations. This can be done where they take up leadership roles that bring reforms and orders in their Political Anatomies. There will always be the absence of Democratic Values, when women are leading. There will always be peaceful resolutions of undying matters. There will always be Unity and Justice in our National Anatomies, when we have women in leadership. **AFRICAN VOICES INTERNATIONAL** stands strongly for Women and wants to see Women changing territories , in every region and sector of our Global and Political Anatomies.

2. EMABRK ON PERSONAL INITIATIVES AND INNOVATIONS

AFRICAN VOICES INTERNATIONAL entreats Women to take personal initiatives in their own interest to change the societies. Because of their unique characters, they must lead humanitarian campaigns, societal projects and researches personally to serve as an encouragement to growing ones. Women must go the extra mile to reflect and practice the change they want. They must not only serve in various companies but also create their companies sacrificially, to make the Global Anatomy, a better one. The Governments cannot reach everyone. The Governments cannot give preferential treatments to everyone, but Women who concentrate on giving their all, on specific projects can bring Freedom to someone. Women should come up with their innovations. Women should be so productive that the economies of our nations cannot stop them from being wealthy.

3. BE GENEROUS

Women should be open hearted at all times. Women must at all times stay on the side of Giving. Women must at all times stay awake to working and never idle. Women must be the ones to teach the Governments the essence of supporting those in abject poverty, taking care of orphans, those without homes and without jobs. Women should always play the lead role, in everything. Women must never be on the calm. They must always fight for people's rights by leading great Revolutions. Women must stand out at all times, in blessing people's lives. Women must be proud of themselves. Women must spearhead showing Love for humanitarian purposes. That's what makes a Woman, builds a society and makes a Society Survive, breakthrough and operate in Freedom, at all times, and not only temporarily.

4. BE CARING

Women must always stay true to their essence of being Women, by being caring. Women bring relief and Freedom everywhere and this is why they must never cease to be affable and caring. Women must at all times be caring and affable. Women must be hospitable. Women must be able to encourage themselves to get out of depression. When Women become adapted to this disposition, they will not need anyone to encourage them when, they are down. No, they will lift their ownselves up, because they are the originators of Happiness, so it will spring through them automatically. Our attitude is what gives us the power to change things. When we are truly living right, we will not feel scared to cause a change. But when we are not living right by showing care for others, we cannot advise anyone when they are on the low. Maya Angelou said if we don't like something, then we must change it and if we can't change it, then we must change our attitude. Yes, that's true. A wrong attitude can't change things but a right attitude can change things. Let us live right a Freedom Giants and that's how we cam impact others.

5. BE CHAUVINISTIC WITH NATIONALISM

Women should be over interested in the welfare of their Nations. Women should always be Nationalistic figures, who are playing various crucial roles to help in the development of their

nations. Queen Nzinga who ruled the Ambudu Kingdom of Ndongo in Angola was very much concerned about her nation and saw how her people were suffering from slave trade. She was concerned about the nation and how foreigners had encroached her nation's land. She fought for the Independence of Angola. She resisted Portuguese rule and fought for her nation's rights. She placed women in authority and helped solved problems of Gender Inequality in Angola. She is celebrated in Africa and beyond for her bold achievements.

QUALITIES OF WOMEN TO REVOLUTIONIZE THE GLOBAL ANATOMY

1. Self-Confidence

Women by nature have great Self-Confidence. All kinds of women whether from Europe, Africa, Asia, Australia or from wherever are full of Self-Confidence. They believe in themselves so much that, nothing can be a hindrance or a limitation to them. They are able to express themselves and showcase their ambitions to the Global Anatomy. Women are able to raise their voices for the hopeless and voiceless in the society. Women through their sweet nature, make the voiceless become confident and begin to air their views, and make the hopeless become hopeful. Women are capable of doing everything. They spark the light, everywhere they find themselves. They are confident about their genuine intentions. **AFRICAN VOICES INTERNATIONAL** entreats all Women to step up and show forth their abilities. Rise up! This is your time. Never stay low. You were created for the Lights! Make it happen! You all can do it!

2. Hospitality

Women are born with the virtue of hospitality . Women are kind, extra courteous and affectionate. They show much concern for everything and continue to show attention to others, when they are even mistreated. They are always smiling even when they are down. Mama Ngina the wife of Jomo Kenyatta supported her husband in the fight for Kenya's independence. She did not only take it as her husband's pursuit but as a personal initiative of hers. She fought for Freedom and the Freedom won, was for all. Hospitable women bring Freedom for all. They eschew all forms of delayance, in the pursuit of Freedom and make everything as vigorous and urgent as possible for the emancipation and emancipation of lives. Hospitable People bring order and calmness, to the society and Women are no exception to being hospitable. They are ambitious with being hospitable. That's their pride. **AFRICAN VOICES INTERNATIONAL** entreats all women to continue being hospitable doing so with much pride for the Freedom of their Societies. We all can be better off, when we are hospitable to each other. We can be elated when we are treated with much care, as women do. Let us respect and learn from Women. They are the keys. They can do all with Love.

3. Boldness and Charisma

Women are bold and work hard so charismatically. Women do not give up, no matter who betrays them or leaves them. They still press on to take care of their families and loved ones. There are a lot of women who have been left by their husbands and these men have also left their children to these women. Some of these women are not even financially endowed to sponsor their children. Nevertheless, they do not look at any of this. They strive to make ends meet to be able to get food and cater for their families. Some even adopt other kids to take care of them and they do so with a passion. They Survive in every condition with boldness and

much charisma. Yaa Asantewaa of the Ashanti Kingdom fought on behalf of her people. She fought against the British over the Golden Stool which belonged to the Ashantis. She never submitted to the foreigners. She was brave and did so with no regrets. She never at any time, bowed to humiliation and dictatorial rule. She fought for the Peace of her land and she is still celebrated today, even post her death, as a Legend.

4. Humility

Women are humble to the highest degree. They expound what Freedom, stands for. Women will always give in their all, no matter the cost or the expense, it will take, just to see that humanity thrives, one way or the other. They will stand with the vision and celebrate the vision during the good and hard times, till it is a success. Winnie Mandela stood with her husband Nelson Mandela whilst he was in Prison, for over twenty five years, and represented Nelson Mandela, in public circles and protected his dignity. She showed the essence of Love and was pivotal in the hard journey of Freedom Legend Nelson Mandela, all for his quest of pursuing Freedom, not only for his Society, but for the entire Global Anatomy. Nelson Mandela is a Legend all over the world. This is not only because of the struggles he fought for, but because, someone stood with him, in his journey of loneliness. Humility brings long lasting, permanent and credible results, that change the entire nature of an issue from being captive to being free!

5. Sociability

Women are very Sociable and know how to find their way around, in the presence of people, at social gatherings, public meetings and programmes. Their jubilant lifestyle always draws the attention of others. Women are always found communicating with each other, jubilating, sharing thoughts and hanging out together. They always have a pleasant appetite for togetherness. Women are phenomenal beings, who love to instill unity and love in the Society. Their way of communication always brings liveliness and love to the society, they are in. They bring joy, everywhere they are present. That's the power, of a Woman. Their ability to communicate easily, makes them the preferred choice in ambassadorial roles, which attracts the audience to go forward with choosing their brand, because of what they present.

IMPORTANCE OF WOMEN IN MAKING IMPACT FOR CHANGE, IN THE GLOBAL ANATOMY.

1. They bring Order and Stability to the Settings

Women bring Order and Stability to their Settings. This is because they are very well organised people who ensure that everything is in its right place. They will sacrifice whatever it takes to ensure that, their homes, workplaces, the society and the nation as a whole is in a sound condition. Women do not take their positions for granted. They ensure that every onus they have, is well regarded and worked on, in excellence. They do their best to bring out the best in everything, to ensure the sustained progress of human living, by ensuring order in every setting, they find themselves. Women are tender hearted about everything and will want to see everything working promptly, as it should be. They stick to the vision, and refrain from anything that subverts the vision.

2. They ensure Consistency in the progress of projects, they embark on.

Women always want to refine things. Women always want to improve upon things. Women will not just come in, and maintain things. They do not just preserve the nature of things, but they improve upon the nature of every project, they find themselves in. They are not just hardworking, but they are visioned. Women are great thinkers. They think through every thing, just to ensure that, there is excellence and a touch of difference, in every project they embark on. They take their projects with pride and ensure nothing but productive results. They work on everything, they need to work on, for the excellence of it. They eliminate mediocre lifestyles and refine it with excellence. Their indefatigable nature makes them recommendable, everywhere they find themselves. That's the power of Women. **AFRICAN VOICES INTERNATIONAL** entreats Men to respect women and their value, and be equal partners with them, in solving problems, in the Global Anatomy.

Women do not just behave, react and work haphazardly in their operations. They operate with a sense of diligence and maturity. Women know how to go about things, by adopting professional methods for a neutral and fair look on things. Women always ensure that things that are done in the right way, for others to also learn, make reference to and recommend for future generations. Women do not just do things. They think through and make sure, their operations, have a fair meaning. They make their families and societies proud because, they bring good and positive results at all times. They make their end results worth referring to, because they handle all they do with care.
